

IHMSA NEWS

Official publication of the International Handgun
Metallic Silhouette Association, Inc.

Volume 28 ~ Issue 1 ~ MARCH 2017

2017 IHMSA Annual Membership Issue

This is the Annual Issue sent to all active members. Please keep this issue as it has information that you will need for the year.

The first item included is the full IHMSA match schedule. Two clubs are missing as I did not receive a match schedule in time for inclusion. Also, Santa Fe, NM is listed with no dates. The range is in the middle of improvement and shut down. When they are ready, they will inform us and we will include their match dates. You can always find the most up to date schedule on www.ihmsa.org.

You will also find the 2016 IHMSA financial report in this issue. There have been some changes to the Board of Directors. You can find the changes in the bulletin board section of this newsletter.

This year we have some major matches being held. First will be the 41st annual IHMSA World Championships from July 14-22, 2017 in Oklahoma City, OK. If you want to shoot a first class range, please attend this match.

Second is the East Coast Championship to be held at Buccaneer Gun Club in Wilmington, NC during August 31 to September 4, 2017. You will find an entry form for both championships in this newsletter.

Final is the LASC Extravaganza to be held during Labor Day weekend in Los Angeles, CA. LASC holds this match every year and they sponsor it in appreciation of all the shooters in the Silhouette sport. This match includes all the food you can eat and guns you can shoot for one price.

There will be no West Coast Championship this year. Steve Ware and the JCSA club have hosted this match for 16 years straight and due to certain reasons, can no longer sponsor the championship. Thank you Steve for your support over the years. If any club is willing to take over the West Coast Championship, let us know!

The top three scores in Big Bore were Steve Martens, Dan Hagerty and Joe Cullison.

Awards and certificates will be sent to the top shooters. Freedom Arms has agreed to sponsor the 2017 Freedom Arms Revolver Challenge. The 2017 entry form is included in this newsletter.

The attached picture is (L-R) John Richards (IHMSA Industry Relations), Bob Baker of Freedom Arms and Steve Martens (IHMSA President) during the 2017 Shot Show.

2016 Freedom Arms Revolver Challenge

The 2016 Freedom Arms Challenge is over and we would like to thank everyone who sent an entry in. It was very successful in increasing the number of revolver entries at matches. We had 16 entries sent in. The high senior was Dan Hagerty. The high lady was Linda Lanning.

The top three scores in Small Bore were Joe Cullison, Joe Coleman and Linda Lanning.

ATTENTION ALL MATCH DIRECTORS

President's Column

This marks the 41st year of IHMSA. The level of long range handgun accuracy has steadily increased over the years. We have very dedicated people who have developed new cartridges and techniques for the sport. One thing that is very unique about this sport is the willingness to share those lessons with the newer shooters. If you are a new shooter starting out be sure and make use of the wealth of information out there. Just ask questions and you'll be on your way to rapid improvement. This year the World Championships will be held in July at Oklahoma City. Again if you have never been to this range, you are missing a first class operation. Jim Fields and his crew put on a great match if it's a local, state, regional, or world championship match. Make your plans to attend.

Keep this issue of the newsletter handy this summer so you can plan your local matches and contact the match directors if you need more information on attending. Freedom Arms is going to again sponsor the Revolver Challenge this year. The rules and entry form is in this newsletter. Be sure and bring out your wheelguns to the matches this year.

We attended the Shot Show in January in Las Vegas. We thanked our industry partners and got commitments for a large number of door prizes for this years World Championships.

Have a great summer shooting steel and be safe doing it.

Steve

IHMSA Bulletin Board

The following rule change was approved during the 2016 meetings. This is a wording change only!

I.H.M.S.A. rule changes for “2016 IHMSA OFFICIAL RULES” on page 11

Section VI: Handguns – A. Production 12

- A) Sear engagement surfaces of the hammer and trigger may be smoothed and then re-hardened.
- B) Within the trigger / hammer assembly, springs from any manufacturer may be used to replace original springs, provided they are a catalogue item and made specifically for the make of handgun to which they are fitted.

Management changes

By Daniel Hagerty

The following changes have taken effect to the board of directors and HQ:

Bruce Barrett of AL will be completing the rest of the term as Vice President. Bruce is also our physically challenged coordinator.

Russell Plakke of CO will be taking over as Region 8 Director.

HQ is still the same. Ray Utter will be taking care of memberships and I (Daniel Hagerty) will still be taking care of all match related functions.

At a later date, Jared Richards of MN will be taking over as the IHMSA News Editor. Until he is ready, I will still be the News Editor and your contact point. Even after he takes over, all match reports, Match recaps and sanction fees will still go to me. Jared is also in the process of updating the IHMSA match program to run on newer operating systems and include new categories.

SANCTION FEE NOTICE

Please make every attempt to send in your Sanction Fees promptly as the Sanction Fees help us pay for the printing of the Match Results.

Infrequently we have a club(s) that does not remit sanction fees for a match held. We understand club officers are busy, so we just send a gentle reminder. Still failing to receive the fees, a second notice is forwarded.

A final notice is sent if fees are still delinquent. After the final notice, the match dates will be deleted from the match schedule and the club's sanction will be withdrawn until the fees are received.

THE NEW SILHOUETTER

Sight-in Days and Other Stuff

By Ken Horowitz

I was reading another one of those articles claiming that a particular cartridge was the best all around one for taking any big game in North America. Over the years I've read lots of these, all espousing different cartridges. As IHMSA shooters, I think we're a little smarter than that and we recognize that within any particular category, various cartridges are equally capable of performing the primary feat of toppling steel. After that, it comes down to personal choice.

Just last night as I write this, seven of us went out to dinner at a local Italian restaurant. None of us got the same dish yet we were all happy with our meals. Everyone was seated and I'm guessing the nutritional value each of us got was within the same relevant range. It would be stupid for any of us to claim some edge for our dish versus any of the others.

While the variety of North American big game covers a modestly wide number, perhaps the most popular is the white tail deer. At the annual sighting-in days at Falls Township Rifle and Pistol Association I see everything from .243 Winchester (I've been told that's the minimum deer-legal round in Pennsylvania) up through some overbore magnum thumpers. A well placed shot being of more importance than sledge hammer energy, dead is dead, and no one should claim a better mousetrap just because it makes for space in a gun rag magazine.

To be sure, some cartridges do possess attributes that make them more suitable in some situations or for special purposes. For example, our specialty IHMSA cartridges such as the 7mm TCU, 7mm BR and others are optimally balanced between enough energy to topple Big Bore Rams without unnecessarily punishing the shooter with excessive recoil. Still, if recoil is not a factor, any of a number of pistol (for example, 41 Magnum or 44 Magnum) or rifle (for example .308 Winchester, 30-30 Winchester and a whole bunch of others) will take those wild steel beasts down just as well.

I am not a big fan of recoil so I keep things on the mild side, sometimes too much so. For example, I've been using 40 grain bullets in 22 Hornets for Big Bore Half-Scale and the number of ringers on the rams is sufficient to tell me I need to beef things up a bit. I'm sure another 5 grains of mass will be more effective than more speed. Maybe that's why 45 grains is the typical standard factory loading in 22 Hornet. When I shot my first Big Bore Half-Scale entries I started with my trusted 7mm TCU, the same cartridge that I favor for Big Bore Unlimited. While very effective, it's overkill for Half-Scale. Stick with the 22 Hornet but beefing it up a bit for this purpose makes sense to me.

Anyway, back to sighting-in days at Falls Township Rifle and Pistol Association, this past November, we ran that annual four day event, together with our Turkey Shoot. In addition to slug guns, the cartridges that shooters brought ran the range from .243 Winchesters up to several Magnum chamberings. Still, the 30-06 Springfield round was clearly at the top of the list. More shooters brought more guns chambered for this cartridge than all others combined, by a wide margin. Second in popularity were .308 Winchester and .270 Winchester, about evenly split. Everything else was distant.

There were fewer slug guns than in previous years, no handgun shooters (except for our Turkey Shoot), and no one shot black powder. I can't say I saw anything truly exotic, except perhaps the 9.3mm x 62mm cartridge, courtesy of my friend Jeff who is in charge of running the sight-in days. I took a shot with it and that was fun. A cartridge developed in 1905, I understand it is still popular in Europe, especially in the Scandinavian countries, but it was an entirely new loading for me. I respect any cartridge that is over 100 years old and still in use.

As previously mentioned, during the same time we run the sight-in days, we also have a Turkey Shoot. Our course of fire allows three shots at a plaster turkey head at one hundred yards. Few entrants were successful, the most plaster turkey heads dispatched being by Jeff or me during slow times when we had a chance to shoot what we brought. However, the most spectacular Turkey Shoot entries were by IHMSA's own Roland Smith, a member of Falls Township Rifle and Pistol Association. On Day 1 Roland showed up with a TC Contender in 22LR. While our published rules require .243 or large cartridge, Roland is always welcome to shoot whatever he wants. As we said amongst ourselves, "Why don't we just give him the turkey" before he even shot. Roland said the gun was only sighted in at 25 yards, and I volunteered to spot a 100 yard paper target before he entered the Turkey Shoot but he declined. We called where his first two shots missed and the third nailed him the prize!

The next day Roland came back and was even more amazing. The wind was howling and gusty, no day for a 22LR to be sent downrange. Nevertheless, Roland shattered a plaster turkey head on his first shot! If it weren't for our two wins per year limit, Roland would be a very expensive proposition for our little Turkey Shoot. That said, it has always been a pleasure to watch him in action. He is also a gentleman and very nice person as all who know him can attest. He's always willing to help any shooter do better and I've learned a lot from him over the years.

One of the fun things I shot this year was a newly barreled Thompson Center Encore, in 30-06 Springfield. Until purchasing this barrel, my only rifle for this cartridge was my M-1 Garand that I use for CMP matches. For those of you not familiar with the limitations of the Garand operating system, it functions within a relatively narrow range of pressures. Too little pressure and the action will not cycle; too much pressure and the operating rod, among other things, can be damaged. Over the years, I have seen operating rods go from pricey to very pricey to scarce and now very difficult to find at any price. Accordingly, I only shoot appropriate "Garand-worthy" ammo with the M-1. At the same time, over the years, I have accumulated hundreds of rounds of 30-06 cartridges, not particularly well suited for this rifle.

While browsing GunBroker.com I came across a modestly priced stainless steel rifle barrel for my TC Encore. Since I already had a stock, forearm, scope, rings and base due to my tendency of accumulating things I might need in the future, getting the barrel to shoot up the accumulated ammo was a no brainer for me. For my first foray, I shot up some older factory 180 grain cartridges that I had gotten from my brother-in-law. When I say older, I'm talking very dusty boxes, long out of print, by Federal, Remington and Winchester. A few of the rounds looked terrible so I disposed of them. The rest flew downrange with aplomb in my newly constituted Encore. After I use up all

the non-Garand rounds I can either reload them for this new barrel, or dispose of the barrel on GunBroker.com, perhaps even recovering full cost since I got a really good buy on it.

As far as reloading, the cases from all the Federal and Winchester rounds look fine but I did scrap the Winchester brass in that 15% of the case necks cracked on firing. When I get that kind of problem my regular operating procedure is to chuck the whole lot. I've been told that all metals, to some degree, get more brittle as they age, brass being more prone to cracking sooner. While I know about the aging, I've always been a bit skeptical about how short the life can be. Not stored in the best of conditions and subject to weather heat and cold, I guess this brass bears out what I've heard in the past. I don't know if it's brand specific, having no idea of how old each of the brands were, but only the Winchester brass had these neck cracks.

When I think of split necks, two chambering that I shoot immediately pop into my mind. 22 Hornet cases seem to develop neck splits after only a handful of mild reloads. This is a very weak case, almost what I would call flimsy. My own sloppiness dings a few necks beyond recovery just about every time I reload this round. Thankfully, bulk brass keeps this from becoming too expensive. As far as neck splits, they are usually easy to spot

after firing, even though the brass is dirty. If not obvious upon firing, my inspection process after preliminary cleaning will flag the damaged cases.

The other cartridge that I shoot that is very prone to neck cracking is the .303 British. I've heard various inconclusive reasons why this is so, but the consensus by many shooters that use this cartridge is that they have the same experience. While my experience with the 22 Hornets has been limited to domestic brands, I have used many more brands, both domestic and international, for the .303 British and all seem to have limited life due to neck cracks.

On the plus side, I do keep a scrap brass collection to catch the unusable cases. Also tossed in the scrap heap are cases damaged by me, the odd piece or two that somehow gets into my range bag, those berdan primed cases and some more. After quite a few years, I had three good sized buckets of the stuff that netted me almost \$150 at a local scrap dealer. It took so long to collect that it is a mere pittance per year but all at one time it was welcome. Of course, the cash was immediately plowed back into my shooting hobby. What's that they say about making lemonade out of lemons?

AMERICA'S FINEST BRASS - NOW FOR RIFLES
STARLINE INTRODUCES .308 AND .300 BLACKOUT

When you and your rifle are ready for action, you're ready for America's Finest Brass. Starline is now producing .308 and .300 Blackout rifle brass, and will soon offer others from the .308 family, ultimately expanding into a full line of high quality rifle brass.

Visit starlinebrass.com and sign up for an account to hear about the newest releases. When you're ready for action, you're ready for Starline.

RECORDS PROGRAM

MARKSMANSHIP COMPETITIONS

The Burris cup:

Scoped .22 Long Rifle caliber handguns only. Your best 5-shot group at 100 yards or meters. Guns may be bench rested over any solid rest as long as the gun is not in a ransom rest, vise or any other mechanical clamping device. Lying on your back in a freestyle position and piling sandbags by your body for support is legal. This will allow scoped guns setup for Creedmoor to better compete.

The Weaver Trophy:

Scoped centerfire handguns. Your best 5-shot group at 100 yards or meters. Guns may be bench rested over any solid rest as long as the gun is not in a ransom rest, vise or any other mechanical clamping device. Lying on your back in a freestyle position and piling sandbags by your body for support is legal. This will allow scoped guns setup for Creedmoor to better compete.

The Merit Challenge:

Centerfire handguns with iron/open sights. Your best 5-shot group at 100 Yards or Meters. Groups must be fired from an IHMSA legal position. No benchrest or artificial support allowed.

The Daisy Avanti Trophy:

AIR production guns with iron/open sights. Your best 5-shot group at 18 Yards. Groups must be fired from an IHMSA legal position. No benchrest or artificial support allowed.

General Rules:

All entries must be shot with IHMSA legal guns. Production, Revolver, and Unlimited guns are allowed in the Burris, Weaver and Merit classes.

Witness:

Winning groups must be witnessed by an IHMSA or NRA member. Eligible winning targets must be signed and dated by the shooter and witness. Also, please include the shooters IHMSA number and the witness's IHMSA or NRA number by their name. A witness is not required to enter but is required to win.

Targets:

Targets submitted must contain no more and no less than 5 shots in each bull zone.

Field Pistol Records Program By Al Kuenn

1-15-17

We wrapped up 2016 with the scores below. Great shooting by all, and especially the scores that Joe Cullison shot in 2016. He is usually the benchmark and he recorded some outstanding scores in 2016. Nice shooting Joe!

I would like to wish everyone a happy and prosperous 2017. Keep those scores coming in.

Shoot well and shoot often.

Send your scores to Al Kuenn, 5725 E Peak View Rd, Cave Creek, Arizona 85331 or e-mail to:
allank@cox.net.

Big Bore Records Program (BBRP)

By
Joe Cullison

2016 is done and in the books. Time to recap the final results. It was another great year with a new shooter joining the ranks of the BBRP. Doug Edney (PA) made his BBRP debut.

It was nice to see some scores from some longtime great shooters like John Weaver, Melvin Calliham, Robert Walker, Jim Kesser, Eric King, John Richards, Steve Martens and Paul Habig.

This year Joe Cullison won the Standing 30+ with a 35. US 35+ with a 39 (converted from a 59x60), Standing agg 60+ with a 72, and the 4-gun agg 140+ with a 151. There was a tie for the 3-gun 100+ club between Joe Cullison and Robert Walker. Joe did shoot that score twice where Robert did it once.

The State totals ended up in a three way tie between Ohio, Oregon and Minnesota. Ohio and Minnesota were group efforts utilizing scores from multiple people where Oregon only had one competitor contributing.

A single competitor can make up to 5 BBRP entries per year for their state. This can be done in a single match by shooting either 4 or 5 guns well. The trick is to shoot a Standing 30+, a US 35+ and then a couple of solid freestyle scores. The US score can substitute for one of the 3 freestyle guns if you can only fit 4 guns in a match. I have seen days where S, US, P and U totaled 150 or better so it can certainly be done.

State totals for 2016 are: OH-5, OR-5, MN-5, TX- 4, GA-3 , PA-2, NV-2, SC-1, IN-1, OK-1, CA-1

The first scores for 2017 are in and the 3-gun is already over 110. All the details next time.

Please bring at least one friend or acquaintance to every match. Together, we can keep IHMSA growing.

If someone has shot higher scores than what I have listed. Please send me an email and I will update the information.

Please forgive me if I have left anyone out or made any other errors. Send me the information and I will make it right as soon as I can.

Thank you for your support of the BBRP.

Send entries to:

Joe Cullison, 28988 Berlin Road, Sweet Home, OR 97386 or to jcunclejoe@aol.com. 541-317-8801 evenings

Thank you.

½ and 1/5 Scale Records**January 2017****By Jim Harris**

Thank you to everyone who sent in reports of records entries to be included in the program. Several events did not send in reports, perhaps through oversight or misunderstanding the process. Notably, the East Coast Championship and Region 4 had a number of qualified entries that were not submitted. I did ferret-out most of the missing records from these and the World Championships, but that can't be relied on method of entry. Please have the person in charge of the match entries submit reports to me for ½ Scale and 1/5 Scale, and send to the appropriate other records programs such as Big Bore, Smallbore and Field Pistol (and any others that post official records. Your best marksmen will appreciate the effort!

Also, please submit records as they occur – don't save up six month's worth and send them in. This creates a terrific amount of confusion if, for instance, I do manage to glean a record score from a posted match result that I see published here or elsewhere. We'd all like the records to be "records," not estimates.

Simply send me an email of your own performance, or match director do the same. If that isn't easy to do, give me a call! No need to send in a written report as used to be the custom in earlier times. We trust you!

Thanks for your help in acknowledging these great shooters and their accomplishments!

Please send records to my email: harrisgrp@earthlink.net; or my home address 1567 Bridget Ave., Simi Valley, CA 93065. Or give me a call at (h) (805) 581-0009, or (c) (805) 208-5054.

2016 Year End Wrap-Up

Here's the final report on 2016 records.

2016 Man Of The Year**Gary Crews!**

Gary shot an outstanding five perfect open sight 40s in ½ Scale contributing to his perfect 40-round Aggregate with two open sight scores. Gary also figures prominently in championship matches and 1/5 Scale records for the year. Congratulations, Gary!

½ Scale UHS (Open Sight)**60-round match**

Small Bore Records Program**By Dan Hagerty**

This is the 2016 final records scores.

Steve Martens of MN was the overall winner, taking the top scores in all 3-gun and 4-gun aggregates. Robert Walker of GA and Steve Martens tied for the top standing score of 35.

I already have a 2017 score which will be posted in the next issue.

Please send your reports to:
