NOVEMBER / DECEMBER 2019

PRESIDENT'S REPORT

By Bruce A. C. Barrett

Well the holidays are behind us for this past year and now it's time for us to look forward for the new shooting season. I truly hope nearly everyone had a great some great holidays, but for some of our members it wasn't so great. We have lost a few members who will be greatly missed, may they rest in peace. We have a lot going on this season. We have people working on upgrading the software hoping it will help the match directors out sending in your information to HQ. All of us have been looking and working on different projects to help smooth things out and trying to get things back on track.

There are some exciting products that are coming out and going to come out, but I haven't seen them yet. Remington Arms has come out with a 700 bolt action pistol and Leigh Defense is supposed to come out with the SSK-50 contender frame. It was

supposed to have come out in September 2019, then they said before the first of the year, then I was told by them the first of January. Now, I have not heard anything else, and I have two on order since I first heard about them in August 2019. Just maybe they will be out before the first of the match season. Not much more to rattle about, so everyone please attend as many matches as you can to help your local range survive. Shoot well, have a wonderful season, and I hope to see most of you at the Internationals.

Bruce A. C. Barrett - President IHMSA

Remington 700 CP (Chassis Pistol)

MSRP \$1,020.00

<https://www.remington.com/handguns/700-cp>

SSK-50 Receiver

MSRP \$288.00

SANCTION FEE RULES REMINDER

Per SECTION IX: Match Procedures of the IHMSA Rule Book:

4. Delinquency in remitting sanction fees may affect the designation of 'good standing' of a match. The following policy applies to delinquent remittance of sanction fees:

A) Matches more than 30 days delinquent (60 days after the date of the match) shall not be eligible to send delegates to the annual business meeting.

B) After 90 days delinquency (120 days after the date of the match), the matter will be brought up for review of sanction revocation by the Executive Committee

5. Any organization hosting sanctioned matches that fails to adhere to IHMSA rules may have their sanction withdrawn by the Executive Committee. In the event of sanction being withdrawn, the affected organization shall, upon written request to the Secretary/Treasurer, be able to have the decision reviewed by the Board of Directors.

BIG BORE RECORDS PROGRAM (BBRP)

By Joe Cullison

This is the last breath of 2019 unless some late scores come in.

No new entries to report so I'll recap the year.

The Standing 30+ Champion for the year is Jim Kesser (OH) with an excellent 34 and he did it twice. Jim was followed closely by Doug Edney (PA) with a single 34. Nice shooting gentlemen.

The Unlimited Standing 35+ Champion for the year is Joe Kennedy (NV) with a 37.

The Standing Agg Champion is Jim Kesser (OH) with a 67.

The Presidents 100 club (3-Gun) Champion is Joe Cullison (OR) with a 112

The Presidents 140 club (4-gun) Champion is a tie between Paul Habig (NV) and Joe Cullison (OR) with both shooting 148's.

Teaser for 2020. A 4-gun score of 149 has been shot in January.

State totals for 2019 are: OR-5, OH-5, NV-3, WY-3, PA-2, IN-2

Please bring at least one friend or acquaintance to every match. Together, we can keep IHMSA growing.

Please forgive me if I have left anyone out or made any other errors. Send me the information and I will make it right as soon as I can.

Thank you for your support of the BBRP.

HALF SCALE RECORDS PROGRAM

By Joe Cullison

Hello, this is the results I have for 2019. I got a late start this year so this is pretty thin.

Chuck Pfitzer, (NE) shot a pair of 40 in UASHS to move himself into International class. Well done Chuck.

Please send 1/2 scale records program entries to:

Joe Cullison
28988 Berlin Rd.
Sweet Home, OR 97386
Or email to: jcunclejoe@aol.com

Send entries to:

Joe Cullison, 28988 Berlin Road, Sweet Home, OR 97386 or to jcunclejoe@aol.com. 541-408-6140

Thank you.

**REQUEST FOR NOMINATION
CALIFORNIA STATE DIRECTOR**

Accordingly, nominations are now sought for the position of California State Director. Nominations are to be submitted to the Secretary/Treasurer on the nomination form provided no later than July 31, 2020. Reason for nomination is present California State director is no longer a resident of the state of California.

Any member in good standing, who is a bona-fide resident of the state for which they nominate, is eligible to contest the election. A bona-fide resident is someone who has resided in the particular state for a period of not less than six months immediately prior to the election.

**REQUEST FOR NOMINATION
FOR THE POSITION OF CALIFORNIA STATE DIRECTOR**

In accordance with the Bylaws of IHMSA, Inc., an election has been called for the position of California State Director.

I _____ do hereby declare my intention to stand as a candidate for election to the office of California State Director and authorize my name to be placed in nomination for said office as a member in good standing of IHMSA, Inc.

Signed: _____

We, the undersigned members in good standing of IHMSA, Inc. do hereby endorse the above candidate's nomination:

Signed: _____ IHMSA # _____

Signed: _____ IHMSA # _____

The bylaws of IHMSA, Inc. require nomination for this office be submitted on this form to the Secretary/Treasurer.

THE | Volume 1 - Number 3 | AUGUST, 1977

SILHOUETTE

JOHN ADAMS
INTERNATIONAL
EXECUTIVE DIRECTOR
BOX 1358
MANHATTAN, BEACH, CA. 90266

Bob Zwirz, Eastern Executive Director of IHMSA, watches "the champ" John Towle of T-N-T Arms zero a custom XP-100 chambered for the .358 Winchester at Blue Trail Club in Connecticut. Zwirz placed first in the Unofficial match on July 9th with a modified Ruger .44 magnum and custom loads. Through the outstanding efforts of Zwirz, several new eastern states and hand gun organizations have joined with IHMSA. See Zwirz's Report From The East inside.

MESSAGE FROM THE DIRECTOR

The message this month concerns two vital matters, the rapidly approaching International Championships scheduled for October 22-23-24 and the annual IHMSA meetings that will be held in conjunction therewith. I urge all members and directors to read this message carefully so they will have a full understanding of the events to come.

Originally, the International Championships were conceived as an 80-shot match, with each competitor firing through the course (40-shots) in two different days with all winners then being decided on the aggregate total score of the 80-rounds.

This was originally predicated on the basis of an estimated 200 competitors. But as you all know, we are drawing more than 200 shooters from the Los Angeles and Boston areas for regular bi-monthly matches.

With the unprecedented interest and participation in this grand sport, plus its continuing rapid growth, it would be possible, with unlimited range facilities and at least five or more full sets of targets, that we could handle 500-700 shooters.

Further, we are quite cognizant of the desire and the right of every IHMSA member to compete in the International Championships. These simple facts, the right to compete, and the desire of a large number of IHMSA members to do so, have compelled us to change the 80-shot match concept to a 40-shot match, thus allowing twice as many members to compete.

IHMSA MARCHES ON

By Elgin T. Gates
Editor

FLASH: READING, MASS., AUG. 14

"Catch us if you can," says Ron Ricci, Massachusetts State Director of IHMSA, in a last minute Special Delivery letter.

A new all-time record of 238 eager handgunners stalked the steel silhouettes at Camp Curtis Guild, hailing from as far away as Indiana, Pennsylvania, New Jersey and New York. All of New England was represented.

When the clang of toppling targets had ceased and the last whiff of smokeless powder had drifted away, John Towle of Albany, N.H., emerged as the Unlimited winner with a sizzling 30. (See above for a photo of John and his .358 XP-100).

Seventeen year-old Dale Small of Huntington, Mass., edged Rick Ambrose of Somersworth, N.H., by duplicating his score of 28, but with one more ram. Class A went to Dr. Martin Geher of Braintree, Maine, Class B to Ed Couture of Rochester, N.H., and Unclassified to Tom Roche of Hopedale, Maine.

For the upcoming Eastern Regionals, Ron advises that he has fifteen handguns in the value of \$3500.00 for first, second and third in every class including Unclassified. (Look out for another attendance record!).

Boston's TV-5, a major network, ran a 3-minute slot on the Evening News August 24, covering the match.

By the time you read this, IHMSA's membership roster will stand at over 1000! The number of sanctioned matches is nearing fifty, and at the rate requests for match dates are coming in, another fifty will be sanctioned before the year is out.

Being in the middle of this fantastic growth and watching it happen day by day, the scene still carries with it a touch of unreality. To look ahead staggers the imagination!

Since the last issue of THE SILHOUETTE was published and mailed out on June 1, at least twelve new matches that weren't listed in the schedule have been sanctioned and held. It would thus appear that THE SILHOUETTE should be published on a monthly basis instead of bi-monthly in order to keep up with all the IHMSA happenings. Come 1978, it probably will be a necessity. Please take note that this issue has been increased from 16 to 20 pages and we still needed room.

The success of IHMSA and THE SILHOUETTE have been made possible by the all out efforts and cooperation of all hands to keep up with the pace.

John Adams' report, Message From The Director, updates us on the forthcoming International tournament and other vital matters, and gives us a hint of the strenuous efforts still ahead.

Bob Zwirz, our Eastern Executive Director, in an all out campaign, has brought new states and clubs into IHMSA as interest in the sport continues to snowball. See Bob's Report From The East in this issue.

Our sincere thanks go to all those columnists, club officers and other interested shooters who answered our request for match coverage, and who sent in the photos and material without which it would not be possible to publish THE SILHOUETTE.

Attendance records are being smashed at virtually every club with each succeeding match. Club officials, sponsors, State Directors and everyone else connected with the additional banks of targets to meet the demand.

There is a see-saw attendance battle going back and forth between the East and West with the East holding a slight edge at this writing with 239 competitors firing in Ron Ricci's August 13-14 tournament in Reading. Attendance at the Eastern Regionals on September 3-4 undoubtedly will increase the lead, but watch out when the tally comes in from the California State Championships on September 10-11.

As John Adams mentions, given the facilities, at least 500 handgunners would compete

Please turn to page 13

EDITORIAL

A long, sincere, intelligent letter from Karel A. Smith Jr. of Stockton, California, is the basis of the editorial this month.

The major point of Karel's letter was covered in the first issue of THE SILHOUETTE, but as Karel is a fairly new member of IHMSA along with 600-700 more, neither Karel or the others got the first issue. Therefore, this being a rather important matter, and somewhat misunderstood, we felt it proper to cover the subject again in this time.

Karel, in his letter, mentions attending the Fallon, Nevada match on July 31, and highly compliments Tom Lammel and members of the Stillwater Firearms Association for their fine job of putting on and running the match. He then discusses Unlimited guns, and we will pick up his comments in mid-paragraph:

"...I surely agree with the statement that the Unlimited gun has produced fascinating handgun development we wouldn't have otherwise seen. I have been most intrigued by looking at, and in a few cases handling some of the extreme creations that have come out of this—those are just dandy guns, and their inventors are bringing that much more interest to handgunning as a sport. I'm looking forward to being able to get myself one of those super-Buck-Rogers creations and see just what it can do.

"However, (and here is where Karel begins to make his point) I am somewhat at a loss to understand one of the rules that appears to be current in the game; that relating to recoil reducing slots disqualifying an otherwise "production" gun, and would like to offer a little comment. There is something to be said for not forcing a competitor to buy a new gun just in order to compete reasonably. In my case, I've been shooting (at something with something) for a lot of years, and when I discovered the recoil reducing slots, proceeded to do all my centerfires that will take it. So, the most appropriate gun I have for silhouettes is an S&W M57 long barrel which was ported long before I heard of silhouette shooting. That fact makes me compete with the 15" sight radius super quality single shot guns in the Unlimited class. This seems to me unrealistic. The comparison of accuracy potential between a fine bolt-action XP-100 with long barrel and other refinements, and that of ANY revolver, is rather extreme. Understand that I'm only a neophyte at this, and have been in no danger whatever of not winning because of my gun—so far! But had I shot a really terrific score, I'd have had to beat 33 in that last match which probably isn't that common a score for Production class guns."

Here, we interrupt Karel's letter to comment as well as answer his point.

Karel's point is well taken! The man with an ordinary production revolver with recoil reducing slots cut in the barrel, and who is forced to shoot against "...a fine bolt action XP-100 with long barrel and other refinements,..." in the unlimited class surely doesn't stand a chance.

We agree completely! And as the rules now stand, any revolver so equipped does have to shoot in the Unlimited category.

Karel has hit on exactly the right word, "refinements," and we will be using it many times throughout this editorial.

Okay, the whole matter seems rather simple and cut-and-dried at this point, doesn't it? It surely is unjust and unfair to force a man with a production revolver to compete on equal terms against what Karel calls a "super-Buck-Rogers creation" just because the revolver has recoil reducing slots or holes cut in the barrel.

But Karel, there is much more to the subject than the point you have made—and which we have agreed with.

Now, let's discuss the subject more thoroughly and bring in other points made by other shooters regarding the matter.

One argument goes like this: "After all, the recoil reducing slots don't make the gun shoot more accurately."

That being the case, then we have to ask this simple question: Why have the slots cut in the first place?

In any event, to use Karel's word, this is a "refinement" to the gun, and not a cheap one. It entails packing the gun, paying postage and insurance (you'd better have it as many guns have been lost in the mails) shipping it, paying whatever the fee is—and we've noted that the cost runs from \$30 to over \$50 depending on who cuts the slots or drills the holes—and waiting the two weeks to six months to get it back.

What, then, does this "refinement" do?

Well, it is supposed to reduce the recoil by reducing the upward thrust of the muzzle, and therefore cuts down on the heavy recoil punishment. It saves the wrist, elbow and arm from tiring, allows a smoother string of shots to be fired; allows the shooter to get back on target faster for another shot and, well, you've all read the brochures and testimonials from the various firms that offer recoil reducing services. (And it is about time for the Editor to insert a personal remark to prevent any misunderstanding. We have absolutely nothing against any of the recoil reducing techniques, slots, holes, weights or whatever. We have several firearms so equipped including an Auto Mag which came equipped with a slotted barrel, and we've had to buy an unsloated barrel to shoot the gun in the production class).

To continue: Shooting one of the big magnums through the silhouette course, at least 40-shots, possibly 80, is sort of a day's work, especially if said shooter is using home-brewed "dynamite" loads in his gun.

While on the line as Range officer, I've seen shooters quit part way through a match with their hands split and bleeding, especially in the web of the hand between the thumb and forefinger from the outlandish recoil. On those occasions the shooters have NOT quit, most have become so recoil "happy" that they are flinching like crazy, especially when they get to the last bank of targets which usually is the rams, and when they have to use their "super-dynamite" loads—or think they have to—and at a time when—at 200 meters—they must have the most steady, solid and flinch-free shot they can get off.

And so, Karel, we come to it: If half of the propaganda claims by the recoil reducing firms are true—and I presume they are, then doesn't the man with the recoil reducing slots "refinement" have a distinct edge or advantage over the man with a production gun with no such refinements? In fact, as one shooter put it recently, if he had to shoot his genuine production gun against other shooters with the recoil reducing "refinement" he would feel they had an unfair advantage and that he was, in fact, being cheated.

And then, of course, comes the flood of valid arguments by all other shooters. If we allow the recoil reducing refinement to satisfy this man and that man, then why can't I have a trigger shoe on my gun? Why can't I have micro sights on my revolver? Why can't I have an XYZ rib put on my gun? Why can't I have a crowned barrel on my gun? Why can't I have a heavy barrel for my gun? Why can't I make a custom wrist-support grip for my gun? Why can't I have a super-speed cylinder turner put on my revolver? Why can't I put a jackass, double-whammy bushing on my gun? And each of them will add, "After all, you let Tom, Dick and Harry have recoil reducing slots put on their guns!!!!" And so it would go, ad infinitum until we have a 50-page rule book listing the 148 "refinements" that are allowed on

"production" guns. And they all cost money, plus the time, plus sending your gun to this specialty firm or that master gunsmith and then to three or four more.

According to a friend who knows about such things, they made exactly this mistake on one of the 45 ACP pistol games. To be "in" you have to spend about \$1000 for a gun with all the "refinements" and that, of course, puts Mr. Average shooter "out" of the game. Let's don't let this happen to the IHMSA production gun category!

Now, Karel, having discussed the above, let me briefly mention a probable solution to the "refined" production gun problem—and we are fully aware there are a lot of "refined" handguns around.

Lee Jurras, Our New Mexico State Director, and a most informed handgunner, is quite aware of the entire problem as discussed herein. Lee has come up with a proposal to be discussed and voted on at the annual meeting just seven weeks from now.

In brief, Lee's proposal is to create a third category of competition within IHMSA to be called Modified Production. (I herewith quote from Lee's proposal) "Opens up a whole new ballpark to literally thousands of existing handguns that have custom grips, trigger shoes, sight inserts, mag-na-porting, ribs, bull barrels, and Behlert MMC, S&W, Bo-Mar, Micro, Elliason sight combinations. One or more of these modifications really shouldn't put the owner shooter in the Unlimited category..."

We would welcome letters to the Editor regarding Lee's proposal, and said comments will be put before the national meeting.

We close this editorial with one final point as regards Karel Smith's thoughtful letter.

Let's say, Karel, just as a matter of academic discussion, that a ruling was passed allowing you to use your gun in the production class with the recoil reducing slots. Would you mind, as a competitor in the same production class, if the next man taped a two-pound slug of lead under the barrel of his gun? In all fairness, considering that you were allowed the recoil reducing slots, how could you object? Yet he would have a considerable and unfair advantage as regards the reduction of recoil and muzzle jump, and even greater advantage depending on the shooting style or technique he could use as a result of the lead weight.

The whole point of this editorial is that IHMSA is not "against" any or all of the herein mentioned refinements, as such, but that we are "for" the simple proposition of protection for all our production gun shooters so they can compete with each other on equal terms with stock production guns and enjoy the sport without being forced to all the time trouble and expense of buying \$500 to \$1000 worth of "refinements" in order to compete with a few other production gun owners who can afford the cost.

How about it, IHMSA production gun owners, do you agree with this basic philosophy or not? It's time to take a pulse reading. Send us your comments, pro or con.

THE SILHOUETTE
PUBLISHED BI-MONTHLY
PUBLISHER AND EDITOR

ELGIN T. GATES
BOX 628
NEEDLES, CALIF. 92363

NEW GUNS AND BARRELS

In the first issue of THE SILHOUETTE, we reported the results of a trip to the NSGA show in Chicago on February 4-5-6 by Executive Director John Adams and Elgin Gates.

We reported looking at Dan Wesson's 1977 offerings which included new .357 interchangeable barrels for all their target models in 8-10-12 and 15-inch lengths. In that same issue, our Eastern Executive Director, Bob Zwirz, reported working with one of the Dan Wesson 15" barrels. Bob also reported in the June issue additional details on the Dan Wesson barrels as to rear sights, vent ribs, plain barrels, bull barrels and other improvements. Although official word has not been received as yet as to the current status of said barrels, we call attention to IHMSA's ruling elsewhere in this issue that production must have started by August 15, and 200 units must be in the hands of retail dealers by October 10 to be eligible for the International Championships on October 22-23-24. We await word on this from Dan Wesson or our Eastern Executive Director Bob Zwirz.

At the Chicago show we also saw prototypes of various new barrels in the Thompson Center booth to be added to their ever increasing selection of accessor barrels.

We have received a brochure and letter from National Sales Manager Bob Gustafson advising that interchangeable 10-inch bull barrels in ten calibers including the new 41 magnum have been released to the public and that production has started on their series of 14-inch straight bull barrels with receiver style rear sights, magnum style grip and special forend. We are advised that the initial run will be 500 units in several heavy calibers, and will be in the hands of dealers in ample time to meet the October 10 deadline.

Other than the 8-10-12 and 15" Dan Wesson barrels and Thompson Cente's 10 and 14" barrels, we are not aware of any new guns or accessory barrels that will meet the IHMSA ruling for the 1977 International Championships.

Remember the front page photo of John Adams and Bill Ruger in the last issue of THE SILHOUETTE and the photo caption contest we announced inside? The response was terrific. Here are the five winners who will be getting the \$5.00 money orders we promised.

From Davis Fisk, New York:
JOHN: Well, Mr. Ruger, got any suggestions about what I can do with this Auto Mag?
BILL: (Just silence, and that devilish look)

From Robert Sullivan, Mass.:
JOHN: I've hit that ram with everything I've got and it still won't go down.
BILL: John, why don't you throw the pieces at him.

From Dick Williams, Boulder, Colorado:
JOHN: You told the Senate committee it would pass the drop test.
BILL: It did, up to six feet.

From Arch Caldwell, San Bernadino, Calif.:
JOHN: I just remembered how it goes together.
BILL: Yeah? Well the match was over an hour ago.

From Davis Shaikewitz, Gretna, La.:
JOHN: I got it off, how in hell do I get it back on?
BILL: Don't ask me, I'm just a president.

REGION 2**GEORGIA**

Little River Gun Club

Lincolnton, GA

Robert L. Walker

9-27-2019

This was the final match of the season for Little River Gun Club. We would like to express our great appreciation to all who were able to show support during this past year. As any Match Director can tell you, it's a labor of love; because there are no financial rewards. I would like to express special appreciation to the Norman Family for their continued support of IHMSA in Georgia and also to my three partners in crime, J. Melvin Calliham, Ken Hale and Stephen Kuehl; they have made this labor a lot lighter. We look forward to hosting you all again next year, and hopefully some additional shooters.

During the two and a half days of this Open State Championship, we ran 79 guns through the line; with a tremendous amount of help from our seasoned Target Setters.....Thank You.

We appreciate the participation of everyone and when you get to naming specific individuals, that's where you normally get in trouble of possibly hurting someone's feeling..... But, with that being said, I would be remiss not to mention the participation of Bruce and Stuart Barrett, driving all the way over from Alabama. Also, David Hamilton who drove down from Raleigh NC;. South Carolina was well represented by Larry Elrod, Dr. Marty Cato and Dr. Taylor Byrum.

I will allow the scores to speak for the remainder of the match. We look forward to seeing most of you next weekend for the final match of the season for Cherokee Gun Club – Gainesville GA and the following weekend for the final match and State BB & HS Championship at Black Creek Gun Club – Patrick SC.

Marty Cato	XP100: 260 Rem	54	The Louisiana silhouette season came to a close with the completion of our State Championship match this weekend. The two day event was somewhat lightly attended but a good time was had by those who shared the range with us. My nephew Clay Marix had a good match. He shot a 40X40 in UAS and then tried the Fifth Scale targets for the very first time and entered a very respectable score of 30X40. My brother Philip once again was the man to beat. He entered four guns and except for shootoffs never missed a single target. Kayla Bonner and Clay Marix challenged him in the UAS shootoff. Though they each put forth a good effort, Philip came out on top. Clay had never been in a shootoff before and the Fifth Scale chickens at 100 are no easy task. He did well and, though he did come up a little short, he did not come up empty. We continue to pray for our injured Region 2 Director Allen Gaskin who could not be with us for this match because of his injury at the Internationals. Get well soon, brother. Many thanks go to all who shot with us this year. Your continued support keeps us going. I will post our Louisiana 2020 season schedule as soon as I can finalize the dates.

REGION 3**OHIO**

Another Tres Banditos has passed. Congrats to Bill Urbank and Doug Edney who were on both winning teams and their 3rd teammates Doug Toman and Jim Kesser. Everyone looked like they had a great time! Jim Kesser had a 31 and a 32 for the best big bore standing agg. Doug Edney edged him out in US with a 33(if you don't count re-entries) Greg Rhineheimer bested 4 other 40s in UAS with 8 shootoffs to win UAS Internation. There were lots of good scores for a shortened match. Hope to see you all next month.

Chris Dunlop
10-6-2019

We had an excellent turnout on a gorgeous fall day for the annual Rex Cup competition. Bob Doherty's wife Kathy forbade him to win it again this year, so he complained loudly about his bad back, and shot only two guns. Fortunately, he recovered sufficiently to throw 55-pound rams around after the match. Thanks Bob.

Since time and fortune have sadly diminished the number of

Missouri shooters we draw, it was suggested that the criteria for awarding the Rex Cup ought to be rethought. In the past, ties were settled by the match director on the basis of merit, so I decided to revisit this criterion. Upon examining the score sheet, I found no shortage of meritorious performances. David Glass fired a perfect 40 on Half Scale, for which I was privileged to spot. Dennis Powers got his first Big Bore 40. Bob Doherty, Chris Dunlap, Larry Jackson, and Fred Hornbaker all had 40 scores in various events. David Strydom had an excellent outing with a brand new gun in unlimited standing Big Bore, then provided much amusement by shooting standing with a Glock. But a match director has to keep his eagle eye on the bottom line, so the Rex Cup was awarded to David Strydom for his meritorious five-gun entry. Thanks to all, and see you next year.

9-1-2019

Our September 1st match was ushered in with temperatures in the low 80's & very little wind. Entries were down some as this was a holiday week-end, with a total of only 44. There were only (7) 40x40's shot in this match; Jackie Brown (2) in UAS-Int. & UASHS, Scott Thompson (1) UASHS, Tim Ablay (1) UAS-SB & Charles Harbert (3) PH Short, Long & .22 SB, our PH classes have gotten really popular in the past couple of years. Great shooting Charles. Woody Liddell had the high score in ULTRA Scope 500 with a 36x40. Thanks to our target setters who, as usual, did a great job as well as those who helped in the stat house with our noon meal. See all the match results below. That's

about it for now, so shoot safe, shoot straight & I'll see you at the next match.

This match was short, but warm. It wasn't the oven match we had last month. It was still warm/hot but you can sense cooler weather in the future. Turnout was low due to many shooters have other things on their agenda – hunts, weddings, birthdays, and aching backs. However, we did have a new/old shooter with us, Leslie Lebertew, with whom I have conversed over the past few months. He is getting back into the game and did his previous shooting in Washington State back in the 80-90s. Hopefully, he will come shoot with us as his work schedule allows.

Congratulations to Rafael Chavez and Mike Turner on their 40s. Condolences to those that came close (missed chicken/turkey). Tomorrow is another day. Next month (10/12-13) will be our last match of the year. I overheard Gerald and Lance talking about cooking chicken fajitas, and beans. So, if you want to bring side dishes they will get eaten. Also, Saturday afternoon will be the clubs' Annual meeting at 1300. See you there, hopefully.

Our last match of the year was a small one. Only 20 guns went down the line. We had a couple no-shows due to medical issues and four others who had just returned from a hunting trip. However, we did have fun and had lunch after the match was over. Thanks to Gerald and Lance for providing/cooking sausages and fixins'. Also, thanks to Dave Chalfant for his side dishes. Good shooting to Michael Turner with the only 40 of the match.

The weather was beautiful both days with light breezes. Again, the weather predictions and actual conditions were at odds. It was nice to see Andy Shuler back in town for the weekend.

Next year a November match has been added to the schedule. We will see how that works out.

Only 4 shooters today but we enjoyed each others company. Some are ill, taking care of loved ones who have had surgery, hunting and of course Christmas prep and travel. We could not see the targets against the berm due to the 4 inches of rain over the past few weeks. It turned the tan dirt to dark brown and we had to paint the animals white to see them. The rain had brought wind and our overhead covering got torn up over the middle of the firing line. Everyone shot at least 5 in a row of some animal. Mike got 10 in a row on chickens and Steve got 10 in a row on pigs. Merry Christmas to all and God bless your new year.

We put 16 entries across the line this month. Temperatures were in the mid 50's when I arrived and rose to the 60's by the end of the match with cloudy sky's most of the day. On to the results of the match. Two 40's this month. Steve Bishop posted a UAS-Int, 40 and I posted a U-Int, 40. Richard Nicol posted a U-AAA, 35 edging out Steve Bishop who posted a U-AAA, 34. Richard also posted a very nice P-AAA, 34. In revolver Steve Bishop posted a R-AAA, 30 followed by Ron Craig with a R-AA, 29. I

managed a US-AAA, 31. In Field pistol I posted a PAS-AAA, 23 followed by Joe Stumpf with a PAS-AA, 21 Only one smallbore shooter this month. I posted a U-AAA, 34. Our target setter did a fantastic job again this month. Thanks to all who came out to shoot the match and also to those who stayed to help pick up targets after the match. Until next time shoot straight and be safe.

We put 15 entries across the line this month. Temperatures were hovering around 40 degrees when I arrived at the range. Another match for the wood stove. The temperatures rose to about 50 by the end of the match with rain off and on for most of the day. We had one new shooter this month. Joshua Stone was up from Centraila shooting the VisionX Toys for tots fund raiser match and saw the silhouette target on the rifle range. Joshua shoots Rifle and Cowboy rifle silhouettes so he came down to check it out and asked if there was anything he could shoot his 9mm in so he put an entry in for field pistol. Always glad to get a new shooter. On to the results of the match. No 40's shot this month. I posted an U-Int, 38 followed Steve Bishop posting a U-AAA, 29. I posted a R-Int, 31. Joe Stumpf posted a R-AA, 20. Ron Craig posted a P-A, 28 giving him his second leg and moving him into AA. Steve Bishop posted a R-AAA, 23. In small bore Steve Bishop a UAS-AA, 19. Alec Patajo posted a US-UNC, 10 shooting Joe's Rugers with a dot sight. In Field Pistol Joe Stumpf posted a PAS-AA, 9 and our new shooter Joshua Stone posted a P-UNC, 13 using his CZ. 75 IP SA right with fixed sights. Our target setter did a fantastic job again this month. Thanks to all who came out to shoot the match and also to those who stayed to help pick up targets after the match. Until next time shoot straight and be safe.

2019 IHMSA South Central Championships

October 4th, 5th & 6th

(By Jim Fields, Match Director)

Oklahoma City Gun Club

This time a year in Oklahoma the weather has cooled down to a level that is comfortable to almost everyone, however the first day of the match was a little on the warm side with temperatures in the low to mid 80's. Winds were not bad at all the entire 3 days.

Anyone who didn't attend this match missed out on a great three days of shooting steel. Overall, the weather was fantastic!! We had a total of 209 entries over the three days & our target painters did a great job of allowing the match to run smoothly the entire three days. Thanks guys & gals, you did a great job, the 4-wheelers are a real asset to our club & speed up the match tremendously. As always, we shot in AR-15 match prior to our 3-day regional match

We now have auto-reset on the small-bore targets in addition to the big bore, 500 range & FP range which have worked very well since we installed them over the past seven years .

This is 18 years in a row that the Oklahoma City Gun Club has hosted the Region IV match, being centrally located in our six-state region makes for reasonable driving distances for most of the region IV shooters.

As I'm sure you have noticed on the t-shirts as well as the plaques we now call this match the IHMSA South Central Championships. This has always been a sixty-round match. Most shooters liked the name change. More entries the better.

I stayed at the range all three days & enjoyed talking to all the folks after each day's shooting that had brought their RV's; we had a great time, believe me.

Our cook-out Saturday evening was followed by a 40-round AIR match in our weather controlled clubhouse which lasted until about 9 pm. Everyone had a great time at both events, & some good scores were posted. We had one of our junior shooters win the UAS shoot-off with a score of 40x40+4, congratulations to Zane Payton, that was fantastic shooting Zane. He just turned 12 years old. Also, his older brother, Ivan, won AAA Unlimited, our hats are off to both of these young region IV shooters.

There was a total of 50, yes 50 perfect scores shot in this match, four in AIR; three in BB UAS, four in half-scale, one in UHS, thirteen in UAS-SB, eight in U-SB, four in 1/5 scale SB, seven in PH SB, two in PH long, three in PH short, one in the ULTRA-500 scope. Believe it or not, no 60x60's were shot in the production & revolver classes in either SB or BB, WOW, that was a bit unusual.

In the BB lever action RIFLE long range category, Warren Alkire won that one & also the small-bore rifle category, congrats Warren.

John Richards, his two sons A. J. & Jared, all from the great state of Minnesota attended this match along with Steve Martens. We appreciate all of our out-of-state shooters.

I'd like to thank everyone who helped me with this match, especially my co-match director, Jim Meyers, without Jim I'd be in deep trouble. Additionally Jan Meyers & Debbie Tessman who helped with our noon meals & of course our target painters who also did a great job. Jan is now our official score entering expert.

Approximately 14,000 rounds were fired at this match, the bullet & powder manufacturers must love us, WOW!! That's a lot of lead downrange, a lot of that was Sierra bullets. Thanks also to the companies who donated the door prizes which included Shilen barrels, Burris, Natchez, Starline & Sierra.

You are always welcome to the Oklahoma City Gun Club, we have plenty of RV hook-ups for those who want to spend the week-end at the range, we shoot the first Sunday of each month, March thru November, ULTRA 500, smallbore, big bore, 1/2 scale, PH & AIR.

We again are hosting the 2020 IHMSA World Championship July 17th thru the 25th, mark that on your calendar for sure. Our web address is www.okcgunclub.org where you can check our event calendar for all dates as well as IHMSA scores under [Division Listings](#).

That's it for now, shoot straight, shoot safe & I hope to see you at the next match.
