2015 IHMSA World Championships

Los Angeles, California

The 2015 World championships was a huge success with 60 shooters and over 460 Guns shot. The Weather cooperated with a high all week of 90 degrees (and almost no humidity). Some winds but never very strong.

Jerry Ray and the LASC crew did a great job and the match was ran very smoothly. I need to give a special thanks to the Target setters (Los Angeles Young Marines) who did a great Job. Ramon Herrera (the leader/coordinator) called the line and he made only a couple of mistakes. Joe Cadenas as a supervisor coordinated the Target setters and made sure everything went smoothly. And now the Crew: MGySgt Pedro, Rogelio, MSgt Herrera, Sarah, SSgt Sullivan, Joaquin, Cpl Herrera, Brian, Cpl Cadenas, Justin, PFC Sanchez, Mark, PFC Maravilla, Jonathan, PFC Diaz, Stephanie, PFC Velasco, Dominic, PFC Chavez, Daniel, PFC Me-

naya, Christopher, Recruit Frontuto, Nick and Recruit Frontuto, Brianna. You Guys were great and your work was greatly appreciated.

And I must thank, Nancy LaCroix, Ken Lacroix and Cindy Smith for running the Stat house. We tried everything to get Jerry (JR) Ray to relax (short of a couple of valium) but that was a lost cause.

Along with the United States, we had shooters from Australia, Brazil, Paraguay and Canada representing their countries.

Harry Sharp was the Big winner of this match in Freestyle categories, But I am not going to list them here (too many). Joe Cullison as expected dominated the standing categories. Match results start on Page 4. Pictures are spread out all through this issue.

The 2016 World Championships are scheduled to be in Oklahoma City on July 15-22 2016.

500 Meter Report

by Eric King

To celebrate the provisional IHMSA sanctioning of 500 meter shooting, almost a dozen shooters showed up at the Avenal Gun Club in Avenal, California for the inaugural match. Besides the usual local suspects, Dan Hagerty, Steve Peck, and Eric King, our new IHMSA President, Steve Martens, plus John Richards, Bert Chikazawa, and his buddy, Kevin all showed up.

Thanks to all of you for your support of this discipline which is new for IHMSA. It officially begins 1/1/16.

Steve Martens won with a nice 37 scoped and 34 iron sights. Everyone in attendance learned more about how weird wind can be when you shoot east down one canyon crossed at right angles by three other canyons each of which can have its own wind cur-

rents. At one point the wind held steady for about three minutes, and Eric King became the first person to shoot 5 half size turkeys in a row at 385 meters with a scoped pistol.

Unfortunately he did not do very well on the other animals so the 30x40 record set by Rich Mishler more than a decade ago continues secure, but 23x40 really was not bad considering the conditions. John Richards turned is a pair of 27s, scoped and iron sights, with a Rampro in 6 Dasher. This proved very interesting because no rams failed to fall despite their being set somewhat harder than topple point as 500 meter rams are set. This proves that if you launch a lighter, efficient bullet very fast, it will take rams over at 500 meters because 500 meter rules do require that they fall for them to count.

This issue has an addendum that contains the 2015 East coast championship and the 2015 Oklahoma State championships. It is a separate file. For members receiving printed copies, it will be a separate part that will be mailed with the issue.

From The Editor:

First, I must apologize for the problems with getting this issue out and I am not going to make any excuses. Mainly to Say, Life and work got in the way of my Duties as your editor.

Until, Further notice, Please do not send me match reports in Adobe Acrobat (PDF) format or as an excel spreadsheet. I am having too much problems with these. When I figure out a work around, I will let you know.

President's Column

Presidents Report – Sept 2015

Last Presidents Report By Nancy LaCroix

Well, this will be my final report; Steve Martens is now the IHMSA President. Ken and I had a wonderful time at the LA World Championships, at match was run superbly, by JR (Jerry Ray) and his staff. It couldn't have been better, the weather was great and many great scores were shot.

As president for the past nine years I wish to thank the entire IHMSA Board for all of their support. Remember, per our bylaws the IHMSA President cannot vote, it's your IHMSA Board that votes and makes all of the decisions for our sport. So thank them for all of their volunteer time and give them your full support. I also want to thank the IHMSA Membership for their support and believe that means a lot.

It's on to another chapter in our lives, Ken just had surgery last Friday, 9-11-15 for an aorta aneurysm, as he puts it, they plugged the hole and he is recovering at home. They did not have to do a full open surgery so his scars are small. Thanking God that they found it at a routine checkup. His father and grandfather both had it and since he was in good health it was never a question.

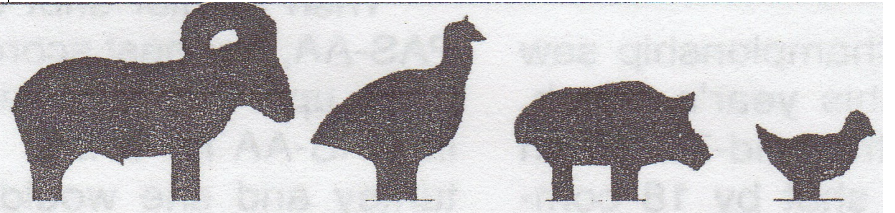

Thanks to Cindy Smith and Dan Hagerty for taking over the HQ and Editors positions. Remember they are volunteers, so don't get your undies in bunch too much.

Your New President's Report – Steve Martens

I'm your new president and first I'd like to thank the members for supporting me. Another thanks goes out to Nancy for her years as the past president. I'm looking forward to working with Dan, Cindy and the board as we work to make IHMSA a better organization.

A little background on me for those who don't know. I started shooting silhouette in the early 80's. I started with the NRA SB Hunter Pistol and then started shooting both SB and High Power rifle silhouette games. In Minnesota the ranges stopped shooting NRA and switched to IHMSA in the 90's. My first Internationals was the last one held at Oak Ridge, TN. I also make aftermarket sights for airguns and peep on peep sights for standing (a shameless plug) .

As I come into the presidency as a competitor, my emphasis will be on promoting the shooters and pushing forward the limits of handgun accuracy. An example of this is that next year IHMSA will officially recognize the Ultra 500 meter handgun silhouette. This a great game and another example of the amazing things our members can do with a handgun.

IHMSA Bulletin Board

Installment Plan Life Memberships

The Installment Plan for Life Membership allows you to purchase a Life Membership by making four monthly payments of \$105.00 each (a total of \$420.00), or in the case of a spouse two \$50.00 each (a total of \$100.00). When your last payment is received, Headquarters will send your Life membership card, certificate, and pin.

If you're in the middle of your membership year, you can purchase a Life Membership now and apply the unused portion of your current membership. Call IHMSA Headquarters at (801) 733-8423 to find out how much credit you'll received for your current membership.

Life Membership is a great way to enjoy IHMSA for years without the hassle of paying yearly dues and show your support of IHMSA at the same time... order yours today!!!

2014 Rule Books

Dear IHMSA Members,

In an effort to keep costs down and with the only changes being the addition of the Practical Hunter category, Headquarters has been directed to not print the IHMSA Rule Book for 2014, but to send an addendum with these changes instead.

We understand that it is important for the membership to have access to the rules. Therefore, since the 2014 rule book is available on our website (go to ihmsa.org, then click on the RULES link). Headquarters is being directed to only send rule books with New Memberships and upon request for replacement. If you need a rule book, please contact headquarters.

Thank you for your patience and understanding in this matter.

Nancy LaCroix
IHMSA President

~NOTICE~

Please keep your 2013 rulebook for the 2014 season. You will receive an addendum with your membership renewal

Rules Addendum: Practical Hunter

Class Description: All 3 classes are to be shot from any SAFE freestyle position including prone, kneeling, sitting, or standing.

The Practical Hunter Long Course will be shot on the 200 meter Big Bore range with the standard full size targets at their normal ranges.

The Practical Hunter Short Course will be shot on the 100 meter Field Pistol range with the standard targets at their normal ranges, using standard field pistol cartridges only.

The Practical Hunter .22LR Course will be shot on the 100 yard SB range with the standard Small Bore targets at their normal ranges.

Class Rules:

- Any hunting style handgun with

a maximum overall length of 21 inches.

- Optics are allowed up to a maximum of 6x power.
- Gun must be as manufactured with only cosmetic modifications.
- Ported barrels are allowed as long as they are shot from a safe position.
- A rest such as a bipod or a sand-bag supporting the barrel in a prone position may be used by a new unclassified shooter and by shooters in classes A and AA.

Classification Scores:

A 0-15
AA 16-25
AAA 26-38
INT 39-40

NOTICE

The IHMSA Board of Directors have voted to allow the printing of NRA match results in the *IHMSA News*, providing they are submitted by a club that is running dual (IHMSA/NRA) sanctioned events.

These results must be submitted by the established deadline presented in the previous edition of the *IHMSA News*, with the Dual Sanction Match Write-up and will be listed at the end of the IHMSA related report. No NRA reports will be printed without IHMSA reports/scores accompanying them. **Please send all Match Reports to IHMSA, Inc., P.O. Box 22356, Cheyenne, WY. 82003 Phone - 801-733-8423, FAX: 801-733-8424**

SANCTION FEE NOTICE

Please make every attempt to send in your Sanction Fees promptly as the Sanction Fees help us pay for the printing of the Match Results.

Infrequently we have a club(s) that does not remit sanction fees for a match held. We understand club officers are busy, so we just send a gentle reminder. Still failing to receive the fees, a second notice is forwarded.

A final notice is sent if fees are still delinquent. After the final notice, the match dates will be deleted from the match schedule and the club's sanction will be withdrawn until the fees are received.

Disclaimer Concerning Reloading Data

Neither the *IHMSA News*, the contributing shooters or the writers or IHMSA, Inc. assumes any responsibility for the safety of any reloading data published in the *IHMSA News*. Neither IHMSA, Inc nor the writer has control over the firearms or components used, or the manner in which they are utilized. Therefore, no liability is assumed by either IHMSA, Inc, the writer, the contributors or the *IHMSA News* for any damages that result from any reloading information printed. Always consult standard reference manuals before duplicating loads or attempting any reloading procedures.

Match Publication Policy

As we continually have new match directors, following is the IHMSA News' policy on publication of state, regional, and "specialty" match notices and match results.

Any IHMSA sanctioned club in good standing may publish a notice of their club's state or regional championship match at no charge for three months. State match notices are limited to 2 1/4 "x5". Regional match notices are limited to 4 3/4"x5". If a club is holding a "specialty" match and that match does not replace one of these championships, the *IHMSA News* will publish a 2 1/4"x5" notice at no charge one time. These notices will run in Section B only. The club may publish additional notices of the same size for \$45 per issue. Ads must be prepaid before printing. All payments are to be sent to IHMSA HQ, P.O. Box 22356, Cheyenne, WY 82003. The club may specify whether the paid notice is published in Section A or B.

State match results can list both first and second place finishes. Regional match results can list first, second, and third place finishes. "Specialty" matches replacing a state championship may publish first and second place finishes. "Specialty" matches replacing a regional championship may publish first, second, and third place finishes. All other match results wherein the total number of handgun silhouette entries exceeds 11 (including all IHMSA, NRA & non-member guests) can list only the first place finish. Matches with less than 11 total handgun entries as defined above can list all IHMSA handgun entrants and their place. Regardless of the above, all 40's, 60's, and 80's (depending on the number of rounds fired at the match) can be published from ANY IHMSA match.

An IHMSA club holding a dual sanctioned (IHMSA/NRA) match may submit a match report for publication in the *IHMSA News* containing both IHMSA and NRA results. The number of published NRA results may not exceed the number of published IHMSA results. **Publication is limited to IHMSA sanctioned handgun disciplines only.**

Please address any questions concerning this policy to your Regional Director.

Wildcat Corner

By Tom Acheson

Sometimes we just plain outsmart ourselves!

My Big Bore Production and Standing gun is an RPM XL Hunter chambered in 30 Silhouette. The case is a 223 necked up to .30 caliber using Lapua 223 Match cases. This is an early silhouette chambering from “back in the day” and in 2007 I decided I just needed to try it. The Unlimited gun is an XP-100 in the same 30 Silhouette chambering that was assembled in 2012. The same reamer was used for both guns. And both barrel twist rates are the same 1:10. The reloading dies used for both guns are the same set of dies. The barrel on the RPM is a factory barrel and the XP-100 has a Midway Adams + Bennet barrel.

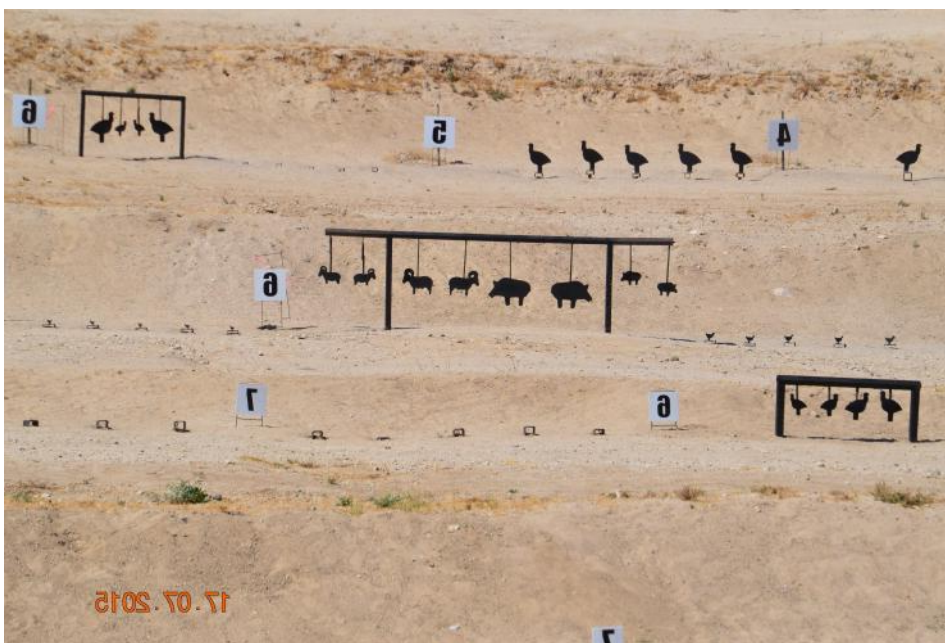

So I found two loads that work well in the RPM, both with cast bullets. One bullet is an LBT weighing 173-grains and the other is a Heavy Metals bullet weighing 160-grains. Both loads use SR 4759 powder. At 50 and 100-yards they both group well and the RPM has a Bomar rear sight.

Here comes the “outsmarting”. Since a load shoots well in the 10 ½” barreled RPM, it has to do well in the longer barreled XP-100, right? Nay, nay! The “normal” load in the XP-100 is the same LBT cast bullet using 25.0 grains of VV N-135 powder. 10-round groups with this load in the XP-100 hover around 1 MOA. The favored RPM 10-round group loads shot from the XP-100 were easily 2 ½-3”. Even with the Weaver 36X scope on the XP-100, the groups were lousy. The recoil was appreciably less in the XP-100 (but it does weigh less at 7-pounds vs. 4-pounds in the RPM).

My goal was to find a good load that has a lower level of felt recoil for the XP-100. The two RPM loads are a bit “snappy” in the RPM and I expected the recoil in the XP-100 to be at a lower level. So the “goal” was met. But the results on the target were not acceptable.

This little experience reinforces the old saying that “every gun is an animal unto itself”. No matter how similar the components and load are, things are going to be different!

This winter the XP-100 will possibly be getting a new barrel and probably a chambering different than .30 caliber. I own (14) .30 cal. moulds and that is the appeal to many cast bullet shooters....the large variety of .30 cal. cast bullet molds out in the marketplace. But....there is a nice quantity of custom bullet makers who can make whatever you can draw-up and describe to them. So I expect to have some FUN doing the research to determine what chambering should be tried next!

THE NEW SILHOUETTER

Bass Pro Shops and Newly Discovered Trap Range

By Ken Horowitz

I was pleasantly surprised at the fully stocked shelves of ammo on a recent trip to the new Bass Pro Shops in Atlantic City, New Jersey. I was staying in the area in Galloway Township, about 10 miles away and I just had to see what struck me as a peculiar place to choose for a store site. Like all Bass Pro shops I've visited (Virginia, South Carolina and Florida), this one was a nice place to go and it sure beat the pants off spending time in the outlet shops right across the street this time.

While the photo I had seen in a local newspaper showed what looked like throngs of people on the grand opening of the store, the activity on the day I went was pretty quiet, with perhaps more sales associates than potential customers. As of now, this is the closest Bass Pro shop to where I live (although an even closer one has been announced for future development) and I hope there is sufficient traffic to keep it alive. All the previous shops I visited were along heavily trafficked highways or in more deeply populated areas. With Atlantic City on its current decline and with the shop location not somewhere where a lot of people might casually be passing on an interstate, I wonder what the thought process was on this one. Nevertheless, I do wish it well and I'm sure I'll be back there since I do have occasion to travel to Galloway Township several times a year.

There was lots of ammo here. With the exception of 22LR, all common and some not so common cartridges and shot shells were in plentiful supply. Of course, there wasn't everything in every brand, but there never is or has been. With the exception of my specialty IHMSA cartridges that are not being offered by any factory currently, I could have bought something for everything I shoot. There was even a moderately impressive (for a big box store) selection of reloading components.

When I was heavily into fishing years ago, Bass Pro Shops was my go to source for just about anything I couldn't find in a local bait and tackle shop. I think it may have been my first mail order experience after getting the idea from one of my brothers. I'm talking paper order forms here, pre-internet. I still have lots of unopened stuff that just seemed like a good idea or was a tremendous bargain. When I abruptly gave up most fishing due to its conflict with leisure time for shooting some 20 odd years ago, friends and family were the beneficiaries of most of my stockpiles. Luckily, I still have enough stuff to get me started now that my grandchildren have shown an interest in pulling fish out of the water. However, with a walk-in Bass Pro Shop within driving distance, I can now just toss new items into a real shopping basket instead of an internet cart.

Besides the firearms, ammo and other accoutrements of our sport, Bass Pro Shops is just a fun place to be. Every one I've visited has

a huge fish tank, and this one was no exception. Trout the size that make you drool were overshadowed by a sturgeon that kept meandering back and forth in the tank. They even have some oversized chairs in front of the tank if anyone in your party cares to sit a spell while you look around the rest of the store.

The boats are always fun even if not in the market for one. Whether you're looking at a basic bass boat, ocean capable Boston Whaler type or a pontoon party barge, every one of them impresses. While I'm not into camping, I do like a lot of the cooking hardware for my own backyard deck. The selection of smoking woods is incredible (although I do always come back to basic hickory no matter what other wood I try). I still keep avoiding buying a turkey fryer but the selection was awfully tempting.

My thoughts on the turkey fryer are that tossing something that large into boiling oil is not a good idea. Sure, it needs to be defrosted and gently lowered, but I can just see the splattering and other bad things - call me chicken (or turkey). The more important holdback is that I know how much I'll like it that we'll be frying things to excess. Someone had given us a Fry-Baby as an engagement gift. It wasn't the first thing we used when we got settled, but once the ease of use was there we were having fries and other delicious goodies practically every night. I also gained a ridiculous amount of weight during my first six months of marriage. It's getting too easy to put it on and too difficult to lose it, so I don't want to be tempted by having the ease at my fingertips.

Having fried turkey periodically wouldn't be bad and I've offered several friends of ours that I will purchase a turkey fryer for them and they can do the frying and we'll come over for dinner. No one has taken me up on my offer yet. (I guess we all got Fry-Babies or maybe even a larger Presto product back then.)

Back to shooting stuff at the Atlantic City Bass Pro Shop, there was even a decent selection of firearms, both long gun and handgun. This is especially welcome since the offerings in more general sporting goods stores such as Dick's and Sports Authority are getting pretty skimpy. There is a Sports Authority in my Township that doesn't have firearms at all. I've yet to find a local Wal-Mart that has any firearms (it makes it more pleasant to visit out-of-area Wal-Marts that do have them). As more dealers disappear, it's refreshing to have a new presence, even if it's one that I can only frequent several times a year.

Speaking of new presence, there has been an announcement of a new indoor range just over the Township/County line where I live. While my indoor range shooting is self limited, it is still great news that a new range will be coming soon. Also good news is that it will be attached to a gun shop. While big box stores like Bass Pro Shops are great to have, the personal touch of a local dealer is a becoming a shrinking commodity.

Once I heard about this coming indoor range, I Googled it for info. Entering the inter-

net abyss, I started following links after learning what I could about the construction plans and status of the new facility. You know how it is; one link leads to another and another and then, much to my surprise, I found a trap club that was open to the public on particular days, a mere 4.18 miles from my house! What? I've been living here going on 35 years this coming August and I'm just discovering a new place to shoot?

When I first moved here there was a public range maybe a mile or so as the crow flies. During Fall and Winter when foliage does not absorb any sounds reports of distant guns being fired were regular. That facility, now gone, had a 100 yard rifle range (bench only), 60 feet pistol range (standing only) and a regulation clays area for trap, as I remember, and probably skeet as well. I went there a few times and then stopped because the facility was less than satisfactory and there were some cranky people there. Still, when the range closed I was not happy.

When I discovered a new (for me, that is) trap range so close to me, I was excited. As it turns out, it is in the same township that the new indoor range is planned. It's down a road I have never had reason to go, off of one that I occasionally drive. It's a good thing I saw a picture of the entrance because when I visited the range this past Fathers' Day, I passed it by a car length or two before I saw the sign. Backing up, I proceeded down the one vehicle width road and came to rest at the trap range.

I shot two rounds and was back home in plenty of time to go bowling with the kids, then dinner. The range was plain trap, with up to three trap houses depending on patron traffic, run very well and the people, both running it and the shooters, were nice and they shot safely. That's my kind of range and my new find had me back there for another couple of rounds the following Wednesday. It will surely have me back there on a regular basis starting this Fall. It's too hot for me now!

While I've been shooting Sporting Clays for a while, it's been over 9 years since I last shot trap. Both my historical score records and my scores on my two visits can attest to that. I'm way too slow and simply cannot get over the aiming technique(s) of shooting rifles and pistols for so long. By the books I know what to do but I'll need a lot more practice to become respectable. With such a close trap range, I'll be able to work on it.

In my youth I was actually pretty good at trap. My favorite for this was my father's single shot goose gun with a 36" barrel. It was the epitome of ungainly, especially against other more gentlemanly guns on the local public trap range. Even on a bad day I would regularly be in the upper teens to low 20s on score. 23s, 24s and 25s were more typical when I paid attention. Of course I could never shoot doubles with it and that proved less satisfying with one of my father's several pump guns.

Over the years I've shot at just about every sort of trap range, including Spartan throw your own places, cruise ships (although it's

called trap it's really just a touristy thing for a half dozen or so shots) and nice clubs. Perhaps the poshest place was back in the 1980s when I shot at the Greenbrier Resort in West Virginia. I was staying there and noticed that trap was offered as an activity. I called the front desk and in short order, a limousine (really!) was sent for me. It took me a few miles to a clubhouse on the top of a hill. The traps launched clays across empty air in the direction of spectacular mountain scenery. The trip to this trap range was worth it even if I had not fired a shot. The location was simply spectacular.

Coming fast forward to now, trap is a fun activity and now that it is so convenient for me to go down that newly discovered road to the next town, I'll give it my best.

Even the Match director needs time to relax!

IHMSA NEWS-SECTION B

MARKSMANSHIP COMPETITIONS

The Burris cup:

Scoped .22 Long rifle caliber Handguns only. Your best 5-shot group at 100 yards or meters. Guns may be bench rested over any solid rest as long as the gun is not in a ransom rest, vise or any other mechanical clamping device. Lying on your back in a freestyle position and piling sandbags by your body for support is legal. This will allow scoped guns setup for Creedmoor to better compete.

The Weaver Trophy:

Scoped centerfire handguns. Your best 5-shot group at 100 yards or meters. Guns may be bench rested over any solid rest as long as the gun is not in a ransom rest, vise or any other mechanical clamping device. Lying on your back in a freestyle position and piling sandbags by your body for support is legal. This will allow scoped guns setup for Creedmoor to better compete.

The Merit Challenge:

Centerfire handguns with iron/open sights. Your best 5-shot group at 100 Yards or Meters. Groups must be fired from an IHMSA legal position. No benchrest or artificial support allowed.

The Daisy Avanti Trophy:

AIR production guns with iron/open sights. Your best 5-shot group at 18 Yards. Groups must be fired from an IHMSA legal position. No benchrest or artificial support allowed.

General Rules:

All entries must be shot with IHMSA legal guns. Production, Revolver, and Unlimited guns are allowed in the Burris, Weaver and Merit classes.

Witness:

Winning groups must be witnessed by an IHMSA or NRA member. Eligible winning targets must be signed and dated by the shooter and witness. Also, please include the shooters IHMSA number and the witness's IHMSA or NRA number by their name. A witness is not required to enter but is required to win.

Targets:

Targets submitted must contain no more and no less than 5 shots in each bull zone.

RECORDS PROGRAM

Big Bore Records Program (BBRP)

**By
Joe Cullison**

The last few months have been very slow for the Big Bore Records Program. No new entries except for the World Championships in Los Angeles. I'm including all of the BBRP qualifying scores even if they are not the persons highest of the year. Steve Martens and Jim Kesser made the 100 and 140 clubs at the World Championships, adding 2 scores each for MN and OH.

Joe Cullison (OR) shot a S-64, P-76, R-76 and U-80 for a 3-gun total of 220 and a 4-gun total of 296 which convert to a 3-gun 110 and a 4-gun 148

Steve Martens (MN) shot a S-55, P-77, R-76, and U-78 for a 3-gun total of 210 and a 4-gun total of 286 which convert to a 3-gun 105 and a 4-gun 143

Jim Kesser (OH) shot a S-59, P-74, R-73, and U-77 for a 3-gun total of 210 and a 4-gun total of 283 which convert to a 3-gun 105 and a 4-gun 141

Steve Hannawacker (CA) shot a S-51, P-79, R-73, and U-80 for a 3-gun total of 210 and a 4-gun total of 283 which convert to a 3-gun 105 and a 4-gun 141

Eric King (CA) shot a S-55, P-77, and U-80 for a 3-gun total of 212 which converts to a 3-gun 106

State totals for 2015 are: CA-6, OR-5, OH-4, MN-2

Please bring at least one friend or acquaintance to every match. Together, we can keep IHMSA growing.

Please forgive me if I have left anyone out or made any other errors. Send me the information and I will make it right as soon as I can.

Thank you for your support of the BBRP.

Send entries to:

Joe Cullison, 28988 Berlin Road, Sweet Home, OR 97386 or to jcunclejoe@aol.com. 541-317-8801 evenings

Thank you.

**1/2 and 1/5 Scale Records
September 2015
By Jim Harris**

Some terrific scores and new additions to the records program this month.

Gary Crews show another open sight 1/2 Scale 40, taking the lead in that rarified category. In addition, he posted the top 1/2 Agg for 60-round match and added a 1/5 Scale UAS 60 to his legend. Topping off a great season, Gary also shot the first 1/2 perfect 40-round agg of 2015.

Rich Hawkins surprised himself at the ECC with a brilliant 60 in 1/5 UAS. Surprising, because he rarely, if ever, shoots this event or gun.

Please welcome young target setter turned IHMSA member extraordinaire, Dakota Turk, who, on prompting and supplied with firearms and ammo, shot a 1/2 UAS 40, 1/5 UAS 40, and a 500m score in the 20s, all at the big match in Oklahoma this summer. First time silhouette shooter – look out veterans!

Congrats on all the great shooting this summer!

Please let me know of any errors or omissions to the records – a lot has been going on, and I'm far from infallible!

Send your records notices to me at harris-grp@earthlink.net, or my home address: 1567 Bridget Ave., Simi Valley, CA

93065. Or give me a call at (805) 581-0009.

Field Pistol Records Program

By Al Kuenn

Rich Baird made the records program this year with shooting a 36 PAS. Rich is another shooter from the Pickaway Co. sportsman club in Circleville, OH. Nice shooting Rich!

Joe Cullison shot scores in the World Championships, that on a converted basis would qualify for the list, (a 32 Prod and 34 PAS), but he has already posted higher scores this year. Nice shooting Joe and congratulations on your FP wins.

Shoot well and shoot often.

Send your scores to Al Kuenn, 5725 E Peak View Rd, Cave Creek, Arizona 85331 or e-mail to: allank@cox.net.

SmallBore Records program

By Dan Hagerty

Only 1 score to report in forty round matches. Paul Habig shot his second Revolver 40 to give him the leader here.

For The East Coast championships, I had no scores that qualified.

For the world championships, I had 4 people qualify for 80 round 3-gun and 2 people for 80 round 4-gun aggregates.

For 3 Gun, Steve Martens with a 206 (S:51,P:75,U:80), Eric King with a 205 (S:52,R:74,U:79), Joe Cullison with a 205 (S:50,R:76,U:79) and Steve Hannawacker with a 204(S:46,R:79,U:79)

For 4-gun, Steve Martens with a 281 (S:51,R:75,P:75,U:80) and Joe Cullison with a 280 (S:50,R:76,P:75:U:79).

Scores next in parentheses are the converted scores to a 40 round match.

Please send your reports to:

LEGENDS of SILHOUETTE by the Old Guy Edition 1 is Ted Zysk

For years I have mentioned to shooters at matches that someone ought to do a column for the IHMSA NEWS about the legendary happenings in the long ago early days of Handgun Metallic Silhouette, back into the 1930s and even before. A lot of younger shooters got tired of listening to me tell tall tales of how George Washington took time to shoot silhouette with the troops at Valley Forge, stuff like that, but everybody did think the newer shooters would enjoy hearing about some of the great shooting and occasionally strange events which have happened since Dave Whitman missed the first meeting to found modern Handgun Metallic Silhouette. By the way, one of Dave's achievements will wind up in this column sooner or later. Back in the 1950s he was one of the best.

There has been a lot of great shooting done down the years. John Dunn shot the world record four gun aggregate of 157x160, but that will be the next column. The first column will be about something so stupendous, so unbelievable, that if I hadn't spotted it, I doubt I would believe it. Sometimes I still wonder if it really happened, or I made it up, but then I remember this was not at some small match. It was at the legendary 2002 Cholla Challenge at the Cholla Gun Club in Yuma, Arizona, and it was witnessed by at least a dozen people all of whom could not believe what they had seen.

I refer, of course, to the chief claim to fame of the late and much lamented Ted Zysk. Interestingly enough, this is not a feat done on a 200 meter range but one done on a 500 meter range. For at least two decades handgun shooters had been shooting the rifle course of fire, and some good scores had been posted. The record at that time for 500 meter iron sights full size with a handgun was 36x40 held then by Boyd Carpenter. Somewhere along in the late 1990s I started talking about shooting half size targets at the 500 meter distances, and although initial response was along the lines of "You must be joking," eventually I convinced a match director to try it. Rich Mishler, then the best creedmore position shooter in the game, tried it several times and set the record at 25x40, and no one came close to that for a long time.

The range in Yuma is one of the more difficult ones, subject both to heavy winds blowing in off the North Mexican desert and mirage which can make it nearly impossible to spot, but on this day in 2002

the god of silhouette, who Ted told me was named Ralph, provided us with an incredible opportunity, nearly dead air and no mirage. To my knowledge it never has happened since.

I thought Ted would try for the elusive 40x40 in iron sights full size, a feat that continues to escape the best shooters even after 35 plus years and many attempts, but to my surprise he said, "I want to shoot half size." I took out the scope, sat down on my chair, and watched while Ted shot a few shots at the half size chicken swinger. Unlike most of us, Ted relied fully on deltas, the increments from one animal to the next, which he believed were constant. Once he had hit the chicken, he believed he knew how many clicks it would be to the pig, and if he adjusted on the pig, he still went his standard delta to the turkeys from wherever he had wound up on the last pig.

He got 8x10 on the chickens. Any of you who have shot iron sights at a half size chicken at 200 meters knows that in order to hit one, you have to hold absolutely perfectly, no wobble, no fuzzy vision, absolutely perfectly. Now imagine what it would be to hit 8x10 of them... and when you are done move to the pigs which are not much bigger than the size of your hand, and hold even better than perfect. Ted followed the 8x10 on the chickens with something no one else ever had done or has done since. He cleaned the half size pigs at 300 meters. He got all ten. Yes, he used up the whole target. He even had one hit half into the front leg. You try it, try it thirty or forty times, and see if you can clean them.

Ted put in his adjustment for the turkeys, and his first shot was a foot right and a couple of feet high. I knew that if I tried to walk his sight in gradually he would waste nearly a whole bank of turkeys, and that could ruin his attempt to break the 25x40. At this point comes what I consider the best achievement I have had in 35 years of shooting silhouette. I asked him, "Did that look good?" and he said, "Yes." I knew the clock was ticking, and I had to tell him quickly whatever correction I judged to be right. "Down four, left two," I blurted out as confidently as I could. He did not hesitate or chat. He just took his screw driver and did what I had told him. It was and still is an honor that he trusted me, no spotting board and estimates of proportion, just "down four, left two." Only one other call I have made (That will come in another article.) was more nerve wracking. He shot again. The target flew off the stand, and he went on to get a total of six turkeys. No one ever has gotten more half size turkeys with an iron sighted handgun at 385 meters.

It remained entirely possible that something could go wrong, a goose egg on the rams, and the record would remain unbroken, but Ted got six rams, three and three, so he had the record by the end of his first bank of rams. Think about this. The target is hardly bigger than your two hands side by side. It is five and a half football fields away. It looks like a tiny speck you barely can see. A five mile an hour cross wind will blow your bullet at least two and a half feet. At this point not just your hold and your vision have to be perfect. Your conditions have to remain absolutely identical throughout the firing period. He wound up with 30x40. No one else ever has done better than 25x40. It is not even close. This record is like Don Larsen's world series no hitter or Wilt Chamberlain's 100 point game. There is nothing else like it.

I have said this many times, and I will say it again here. If shooting was not a pariah sport to the media, Ted would not just have been mentioned in Sports Illustrated. He would have been on the next week's cover, smiling that wry smile and holding his XP in one hand and a cup of coffee in the other. R.I.P. good buddy.

LOUISIANA

ASCENSION SILHOUETTE

GONZALES, LA

JUNE 7, 2015

BY: CHARLIE BRAUD

The man to beat for our June match was Jay Clark. UAS was controlled by Jay as he turned in the only smallbore 40X40 for the day using his T/C Contender. Philip somehow managed to miss one target for a 39X40. Jay didn't stop there. He out shot both Philip and myself in UASFS using the same Contender he used in UAS. That's a leg up into UAS/INT for Jay. His Contender seems to like the Eley Target that he used for the first time today. The father and daughter team of Cliff and Nina Johnson came by with new matching Ruger Chargers. They each fired an entry in the new Practical Hunter category and both jumped immediately into AAA class with scores of 37X40 and 32X40 respectively. I tried my new iron sighted High Standard Trophy model on the Practical Hunter Short Course and managed to topple 31 targets. Philip then showed me how it should be done with a 40X40 with his Contender 22 Hornet. Special thanks to Jay for staying after the match to help up pick up and also thanks to my wife Carolyn for setting targets all day.

JUNE 20-21, 2015

BY: CHARLIE BRAUD

This turned out to be our busiest match since we first started shooting here earlier this year. Twelve people were in attendance and a total of 22 entries were fired. The sad news is that only a few we IHMSA scores. The reality is that attendance numbers are what keep local matches viable and towards that goal, I have started offering NRA 22LR Cowboy Silhouette and NRA Smallbore Hunter Pistol in addition to our IHMSA match. We also have an "Open Rifle" category. It has proved to be a plus so far. On the handgun side, Jay Clark is becoming the man to watch. He posted his second UAS 40X40 in the last two weeks and is now an International class shooter in that category. Congratulations Jay. The "Tear Jerker" award goes to Will Kirste in UAS who posted a 39X40 missing his last ram. His wife and "Team Kirste partner" Brenda fired a 36X40 in UAS. I continued my struggle with the Fifth Scale targets managing a 38X40 and then re-entered and got a 39X40, missing the first ram. In total, 6 IHMSA scores were fired and all the remaining entries except one were with a long gun. Thanks to all who helped run the match today and endured the intense heat, red bugs, and biting flies.

In other news, efforts are moving forward again to offer a Big Bore match once more for Louisiana. Updates on this as it develops.

JULY 5, 2015

BY: CHARLIE BRAUD

Our July match was Independence Day weekend and we were on the backside of some substantial rain but in spite of that we had a good turnout. The star again this month was Jay Clark who seems to have found his pace. He is now International class in UAS and he scored yet another 40X40 today, sending him to a shootoff with my brother Philip Braud. Targets were five fifth scale chickens at 100 yards. Jay came out on top and has established himself as a real contender. Region 2 Director Allen Gaskin made the long drive to shoot with us and fired three entries. Philip continued to control Practical Hunter Short Course with yet another 40X40 with his T/C 22 Hornet. Cliff Johnson topped Practical Hunter 22LR managing a 35X40 with a Ruger Charger. All together we had 13 entries today on the handgun side and another 8 entries on the Cowboy Lever Action side. Top score for the rifles was Dustin Flint with a 38X40. Thanks to Bob, David, and Jay for staying late to help pick up the targets and rails.

July 18-19, 2015

BY: CHARLIE BRAUD

Several hearty souls braved 100 degree heat and high humidity for our July match. Huge thanks go to Will Kirste for bringing his generator and some fans to help in an effort to keep us cool. Van Hutches continued to gain ground with his Ruger Charger in UAS scoring a best ever 38X40 with that gun. He also posted an 18X40 in the Standing category. I returned my Volquartsen High Standard to duty and got a 40X40 in UAS. In UFS I squeaked out a 33X40. In Unlimited I fired a 39X40, grazing and turning a pig which didn't fall. But for myself, my biggest accomplishment at this match was to finally get my first 40X40 in UASFS after trying for so long. For this purpose I have been using a rear grip Anschutz with an Elite 2-6X scope from the standard Creedmore position. This 40X40 has been hard for me to achieve and I'm glad I had some friends with me to share the occasion.

In our open Rifle category Debbie Blake had the high score for the third match in a row with a very

decent 33X40. We also had a few NRA 22LR Cowboy Rifle shooters and the scores are listed below.

We have one final match scheduled here for this season, August 15-16.

AUGUST 2, 2015

BY: CHARLIE BRAUD

In IHMSA, as in our everyday life, there are many memorable moments. Reaching our own personal goals is high on that list of memories. But also, for me at least, seeing a friend reach a hard fought goal is on that list as well. David Heintz is a longtime IHMSA member and has been shooting with us for a few years. David had never shot a Smallbore 40X40, At least not until our August match, that is. David started out with a stock Ruger Charger. My brother Philip advised him from time to time about beneficial modifications and his scores rose. A tip here and some advice there and we arrived at our match Sunday. David started his entry and by the time I thought to check in on him, he had finished turkeys with no misses. He waved me off, not wanting to talk about it and jinx him so I left him to engage the Rams. At the time I was shooting Fifth Scale turkeys and I missed my first target. From that point I must admit that I was watching David as much as I was my own targets. He cleaned his first bank of rams. Again, I declined to attempt any small talk while the targets were reset, honoring David's request to be left alone. The "Load" and "Fire" commands were given for his final five shots and again I watched his targets as much as my own. I cleaned all my turkeys and just as my last target fell, I saw David's last ram fall for his first perfect score. Congratulations David, they should get easier from here on out. Allen Gaskin came down from Jackson, MS to fire three entries today. Jay Clark was also on hand and fired his third consecutive UAS 40. Which reminds me. We should soon start having some interesting shoot offs in the future with all these UAS 40s, but not today because Jay had to leave early. Thanks to my wife Carolyn for again braving the heat to set targets all day and special thanks to Bob and David for staying to help pick up the range.

This was our final match for the 2015 season at Saline Creek Silhouette. Only three people were in attendance and we completed eight entries. Thanks to all who helped make our first year a success. We can also announce that we are nearing completion of a facility close by here that will allow us to once again offer Big Bore and Half Scale matches in Louisiana. It's not a done deal yet but I am quite hopeful that I can make an official announcement with details soon.

SOUTH CAROLINA

Black Creek Gun Club
Patrick, South Carolina

June 13, 2015**by Donald Camus**

It was HOT! But we still had a great turnout with 14 shooters entering 30 guns. Both Larry Elrod and Jim Bullis got a leg up in SB UAS towards AAA. Gunner introduced us to a new target setter, Zach who hustled to set the steel under the blazing sun.

In the evening of June 12th, BCGC had our annual members meeting with a guest speaker who talked about the changing concealed carry laws and ways of stopping an aggressor with firearms. Larry Funderburk, a long-time IHMSA member and former Match Director was able to attend with his wife Faye despite his long-time battle with cancer. He was looking forward to attending the match on Saturday. Unfortunately, that was the last time many of us had the opportunity to talk with him. On Sunday June 21, Larry passed away. Larry, as the IHMSA Match Director at BCGC, introduced me to IHMSA and competitive shooting in South Carolina. He will be remembered fondly by all who knew him and he will be missed.

Shooting steel is better with friends.

Black Creek Gun Club**Patrick, South Carolina****July 11, 2015****by Donald Camus**

The day started out mild but humid and with no breeze. As the temperature started to rise, fortunately, the breeze kept it bearable until early afternoon. Target setters Gunner and Zach did a great job keeping the match moving. There were 8 members who entered 13 guns and we had 2 guests, a father and son, who practiced at the chickens. One went through the line with Larry's Anschutz. We hope they come back next month.

Speaking of next month, August is the time for our Practical Hunter and Field Pistol State Championships. We hope to see you there.

Shooting steel is better with friends.

OHIO**Logan Handgun Association, INC.****Bellefontaine, OH****5/23/2015****By Steve Powell**

We Finally had good wether and good shooting for a change with just over 30 entries for our May match. Emery Adanich mad the long trek to Bellefontaine this month and had a chance to shoot a few guns

with us.

Several good scores were fired but only a couple of 40x40's. Dave Calloway shot a great 40 in Small-Bore UAS and Lynn Shultz shot the only Big Bore 40 the hard with his Iron sight 308 and cast bullets, Great shooting guys.

The LHA supports youth shooting events a couple of times a year and a big thanks goes out to Bruce Smith, Harold Smart and Doug Lash for coaching 30 to 40 youth in .22 rifle shooting the week before our regular match during everybody's busy schedules.

UAS-AA	Steve beck-Montgomery	22

6/27/2015

We had a very light turn out for our June match with temps on the 60's. The wind,rain and poor light all day made for very difficult shooting conditions.

Gordon Lash shot the only iron sight 40 for the match despite the rain and low light he was able to pull it off, Great shooting Gordon.

We had several shooters drive some distances but decided to shoot only one or two guns and call it a day. We ended up wrapping up the match a little earlier than normal and as luck would have it rained hardest while we were tearing down the range so a big thanks to all who helped out and got wet, hopefully next month will be better.

Big Bore:

Pickaway County Sportsmen Club**Circleville, OH****6/13/2015****By Jim Kesser**

This month was the opposite of last month. Only 9 shooters and we had 21 entries. The highlights were a perfect score by Dave Calloway with 7 shootoffs. Carl Skidmore was back in the Presidents 60 club with a nice 29 Prod and a 33 PAS for a 62 Agg. It was really good to see Bob Half come out and shoot one with the trusty old Buckmark. Rich Baird continued his assault on the perfect fifth scale score racking up two more 39's. Steve Powell is knocking on the door of INT class in Field Pistol (I taught him everything). Doug is perfecting his charger for flop and it will be a force to be reckoned with. Bill and

Gordon went head to head in SB Prod with respectable 38's. Bill edged Gordon by shooting 8 shootoffs. Thank you all for helping me set up and tear down. We dodged the rain off and on all day but overall a nice day.

One thing we guarantee about the Circleville matches is that the weather will be nice! We had stunning perfect weather and excellent conditions. Highlights were the Herron Brothers duking it out in SB UAS. Little brother Jeremiah Eked out the win by one target. It was a good competition to watch. They spot for each other and are very competitive! Frank Hoitzhauer stopped by to shoot a couple and we hadn't seen him in a while. Carl Skidmore continued his string of 60 club scores with a 31 PAS and a 29 Prod. Bill did a trigger job for him so I expect there will be even more to come this year. However, John Maple smoked in FP PAS with a 33 and 2 shootofs beating everyone! Bob Hall visited again and it was good to see him. He looked better and his score showed he feels better. He hit 8 turkeys in the leg and I know that because I set them up. Windage is everything. Dave shot almost identical 39's in UAS to lead the pack in SB. Thanks to all who helped setup and tear down and that was almost everybody and thanks to Doug Lash for bringing the lunch.

We had some really great scores turned in at this match starting with Gordon Lash in SB UAS with a perfect 50. He ran all the shootoffs for a 40 and 10. Gordon Also edged Carl Skidmore by one in SB US.

On the other side of the match Carl got Jim Kesser by one in FP Prod and turned in a good agg in FP. Rich Baird got his perfect score in UFS and a leg into international.

Rich also got Jim Kesser by one in FP PAS, but the Agg went to jim with a 63. Doug Lash hit an amazing 4 shootoffs in FP PAS. Bob Hall and Doug Peters by to shoot a couple. Thanks to Bill Urbank, Jim Kemme, John Maple and all that stayed or came early to help setup and tear down.

CAMBRIDGE, ONTARIO CANADA
GALT SPORTSMEN'S CLUB
14th June, 2015
By Pete Durrant

The weather gods were not kind to us today, heavy rain to set up and tear down and showers through the match, target setters earned their money for sure. Despite this everybody seemed to enjoy the match, we had not had a half scale match since September 2013.

Tightest competition came in UASHS-AA where Lorena shot very well and got a leg into AAA with a fine 37 and Ric Olsen beat Gerald Catt by one critter!

Only 40 of the day was posted by Howard Sims in Small Bore UAS, nice shooting again Howard.

Half Scale Results:

UHS-AAA	Pete Durrant	TC22Hor	17

By Pete Durrant

This was our traditional "Fathers Day" big bore match and it was one of the best yet!

All week the so called weather "forecasters" had been predicting showers and thunderstorms for the day, well they got it totally wrong, sunny and warm with a gusty wind, never mind the wind a great day was had by all.

The turn out was good however the number of sons and daughters attending with their fathers is going down as they grow up and leave home, we did however get one son, father, grandfather combination on the line, and two father-daughter combos.

Highlights of the match were again provided by father-daughter combination Pete and Lorena, one animal separating them in Small Bore Unlimited AAA and a 40X40 tie in Big Bore UAS INT. Fittingly for Father's Day Pete took the one critter honours in SB and got 4 shoot offs to Lorena's 3 in BB. This was a repeat of last year's match! Someone mentioned that it was a Father's Day gift but anybody who knows Lorene knows that she just loves to beat the "old man" with his own gun and would never pull her punches!

WOWCC

Williamsburg, KS

6/7/2015

By Chris Dunlap

This was our first summertime match of the season, it made 90. We had a really good turnout today with 36 guns , plus one Junior with a rifle. Sam Fields shot a 32 for his first entry. Excellent score!

There was a tie in UAS that I did not notice until most everyone had gone home. Kent Lash and Rob Dunlap both ended up with 40+9 in UAS. We will sort this out in July.

We just had 4 40's this month with 2 in UAS and 2 more in PHSC. Chris Dunlap barely to PH with

John Weaver, Match Director

06/13/2015 – 6/14/2014

What a great match in June. The rain held off long enough to get in most of the guns everyone wanted to shoot. We were not able to get in a few shootoffs due to the rain. Frank and Rafael will shootoff for UAS .22 champion next month. Gary Bridges came in from Houston and Harry and Sharon Alder travelled from Missouri. Hope to see everyone July 11 and 12.

Our July match was a good one. Gary Bridges came to town and sacked up most of the big bore wins. Joe and Teresa Coleman won most of the .22 catego-

ries. I think that 40 Teresa shot in .22 UAS was her first. Congrats Teresa, great shooting. The new firing line cover is expected to be complete by next month. Thank you to Buddy Rhoads, Frank Davis and Ken Shilling for their hard work on the firing line cover. The Texas State IHMSA Championship will be held at CTSA in New Braunfels September 4, 5 and 6. Hope to see everyone August 8 and 9 to get tuned up for State.

RIFLE (Junior) Sam Fields 32

7/5/2015

We missed a few of our regulars this match. Maybe it will be cooler in August.

Rob Dunlap had a real good Sunday. He shot 2 40's, one in UAS with 8 shootoffs and one in UASF with 6 Fifth scale chickens at 100 yards. This was his first in Fifth scale out of AA class. An auto bump up to AAA with a leg in INT. Congratulations! This is the first fifth scale 40 in 3 or 4 years here.

The other 3 40's were in Practical Hunter with Bob Doherty winning with 40+10 shootoffs and then 7 turkey heads at 100 yards. Good shooting. Chris Dunlap got 40+9 and Fred Hornbaker shot 40+8 in PH22.

Sam Field keeps getting better. He shot 38 with his rifle. Way to go!

Small Bore:

IDAHO**Idaho Falls Silhouette Association**

April 18-19, 2015 Match Report

Idaho Falls, Idaho

Greg Merrell, Match Director

Great start for the silhouette season with lots of folks coming out and shooting. Aaron Fansler was signed up as a new shooter and shot an 11 in Field Pistol. Not bad since he had a new Ruger Hunter in 44 Mag to shoot. The Rams had to be clamped by 1100 a.m. as the usual weather pattern came through. Good to see the Utah folks and some old timey silhouette shooters that we haven't seen in a while come to shoot. Congratulations to our new Assistant Match Director, Dave, for capturing both the 3 and 4 Gun Aggregates. Can't wait for the May match. See you then.

Greg Merrell, Match Director
6/20/2015**

What a match. Plenty of shooters and wind to go around. Nice to have old faces out shooting again. Shootoffs went fine with Owen edging out Roger for BB-UAS-INT and Michael besting Bill SR for SB-UAS-INT. Bob Jeffery brought his cast bullets and shot well. And if you look closely you will see that many of our shooters shot in multiple disciplines which means lots of reloading and packing firearms to the range. All in all, a fun time. When new shooter Dave Harmer needed firearms I sold him my TC frame and 22 LR barrels. Now he is winning everything and I can't get my stuff back. I am not sure that I could even beat him in 22 anymore, good shooting Dave.

While the wind was howling, we have several intrepid shooters taking on 1/5 scale and what shooting. Michael Sussman is as usual, unfazed by just about anything and let fly with his Anschutz's to win two categories, not bad.

As always, we enjoy having the Utah shooters that make the long drive to shoot with us. Next month I will talk about some of our other shooters that are continuing to shoot well and in several categories.

**Idaho Falls Silhouette Association
July 18-19, 2015 Match Report**

**Idaho Falls, Idaho
Greg Merrell, Match Director**

What a great turnout for this match. Lots of great shooting, good scores and I lost the UAS-Int. shoot-off to Owen Fjeldsted. I think I need to get a better gun??? Many of our shooters are shooting nearly every discipline like Roger Wood (7 guns), Tom Tressell (6 guns), Dave Harmer (5 guns), and several others with 3 guns. We are all getting ready for the 3 day Larry Allenbaugh Memorial Lava Bed Shootout in August. Larry was a great competitor and friend to all of us. Hope we can do him memory justice. More next writeup.

NEVADA

**Desert Sportsman Rifle and Pistol Club
Las Vegas, NV
6/21/2015 and 6/28/2015
By Paul Habig**

There was some good news for the sin city silhouette shooters this month. Dean Baker is back shooting with us and he brought a friend who is adding some much needed excitement to our group. Caroline shot some pretty good scores for her first time and I'M sure she will be dragging Dean to the range for serious "cheatin"

In other News: Val Shaver, He hummed another 40 with his Anschutz. ANSCHUTZ? Custom Barrel, Trigger, stock and sigh but I guess we have to call it something. Debi Wright sand bagged a 37 in UAS after shooting a UAS 36 in BB last week. Saving the best for last, Joe Kennedy shot a UAS 38 barely missing 2 rams. Great shooting Joe!

I know the heat is keeping some shooters away and others from shooting an extra gun but that's our cross to bear. Still no matter how hot it gets—we never have to shovel it.

6/27/2015**

COMMENTS

Several regular AIR shooters were obligated to other activities; thus, the turnout was rather slim. Thanks to Paul for running the match while I was involved with Relay for Life.

Based on the scores, everyone shot well below their abilities for some unexplained reason. However, I am sure Paul relished beating Ron by one target in

US. Congratulations to Gordy for taking High Senior.

COMMENTS

It was a far better turnout than last Saturday. Gordy (the AAA shooter) ended up beating Paul (the INT shooter) in UAS & earning High Senior. It's always fun to see the AAA guy beat the INT guy. Then, to rub some salt in the wound, Ron took revenge on Paul for beating Ron last Saturday in US. Tom (for whom the Wednesday Tommy Gun match is named) took the USIS title.

Thanks to Gordy for helping to set up the range and to Paul, Ron & Tom for tearing it down.

COMMENTS

We were visited by Frank Kodl. He shot a revolver entry & had a good time; so, we are hopeful we'll have a new member shortly.

Lots of 38's & 39's but Charlie Dean shot the only 40 giving him the Unlimited title & High Senior. Charlie also took the Revolver title. Dave Whitman was our FP-P champion. Rick Redd took the Production title and shot an entry into the President's 3 Gun 100 Club. Rick was also the UASFS champion. He also shot his first leg into Standing International. Paul Hoadley took the FP-PAS title. Mike Abel was our UFS champion.

It was great having Rich Burket back with us, and Walt and Gavin Padgett are having a great father/son bonding experience with their Small Bore rifle.

Thanks to Dave, Charlie, Paul, Mike, and Rich for helping to set up and tear down the range.

COMMENTS

We were pleased to have Mike & Kay Barzee visit us from ID. They are considering moving to SW Oregon, and we look forward to having them as a part of our club. Mike also took the UAS title and shot a leg into AAA class...

Dave Whitman had a very good day. He took the Production, Revolver and Unlimited championships as well as High Senior. Mike Abel also did well taking both Half Scale titles and shooting an entry into the Half Scale UAS & Half Scale Aggregate records programs.

Rich Burket joined us and met his goal of shooting into the 30's with his Winchester model 94.

Thanks to Dave, Charlie, Mike, and Paul for helping to set up and tear down the range.

Paul Hoadley & Gordy Prudencio both had excellent days. Gordy shot his second leg into International shooting his first 40 in UAS. (His first leg was a 60 at our state championship.) Gordy was also our High Senior. Paul won both the US & UAS titles as Gordy had left early and was not available for shoot-offs. Barb Rodriguez was High Lady. I am still struggling with sight settings with my 747 after having it rebuilt.

Thanks to Gordy, Ron, Barb & Paul for helping to set up and tear down the range.

COMMENTS

Things started out slowly but shooters continued to show up, and we had a very good match. Charlie Dean came out of AAA class in FP PAS to take that title from Dave Whitman, but Dave came out on top on FP P. Dave was also our Fifth Scale champion. Rich Burket and Walt Padgett joined us with their .22 rifles. Walt continues to break out of the "34 mode" as he has shot that score 3 times in a row. Over on the Small Bore side, Rick Redd took the Production, Unlimited and Standing titles as well as High Senior. His combined scores gave him his second entry into the President's 100 Club. Charlie Dean was our Revolver champion, and Paul Hoadley took the US title.

Thanks to Dave, Charlie, Rick, & Paul for helping to set up and tear down the range.

COMMENTS

It was a rather small turnout as people were (1) cruising on a ship off the coast of Mexico, (2) recovering from the Internationals or (3) just considered it too darned hot. However, those of us who were there had a great time.

It was great to see Bob Geddis back shooting after a several year layoff. Hopefully, this will not be an anomaly and we'll see him more often.

Doug Hockinson was our Production and Standing champion today. Charlie Dean had a good day taking the Revolver, Unlimited, and Half Scale Any Sight titles along with High Senior. Rick Redd was our Half Scale Unlimited champion and missed the Half Scale aggregate by only 2 targets. He was also our UAS champion. Paul Hoadley shot a nice 32 in US to take that title.

Thanks to Charlie, Dave, Paul, and Rick for helping to set up and tear down the range.

COMMENTS

Gordy was our High Senior and UAS & USIS champion. Ron exceeded his goal of shooting 30 in US and won that title. Barb was our High Lady and she exceeded her score from last match. Frank Kodl attended, and we hope we can convince him to join us. Thanks to Gordy, Barb & Ron for helping to set up and tear down the range.

NORTH DAKOTA

Bismarck Mandan Rifle and Pistol Ass.

Bismarck, ND

5/30/2015

By Ray Utter

Another fun Day of shooting in North Dakota. A cool start at 42 Degrees, but only a 10 MPH wind into the shooting face. But no rain or snow so what more could you ask for. Dedicated group of shooters from around the state showed up. Sure would like to see more! Everyone left with a smile on their face at the end of the day from having a good shoot. See you on the Range!

Thanks to Claire, David and Jared for helping before, during and after the match!

6/20/2015

Had quite a storm the night before and had to navigate some standing water the morning of the match. But had a good showing of ND and MN shooters. The shooting was hard and heavy. Only had a lunch break for a stop in action. At the end of the day everyone was ready to go home with another day of shooting under their belt. Thanks to all the shooters for helping in resetting the targets during the match and cleanup after the match.

Really HOT DAY, for North Dakota, sure put a damper on the shooting. The bright spot of the day was having a new shooter that his spotter, Grandpa, Had a hard time keeping up. But it was really great having new blood shooting! As always we had fun. Thanks to all the shooters for helping with match setup, resetting the targets during the match and cleanup after the match.

North Dakota State Match

8/23/2015

We had a very rotten weekend for any kind of match let alone the first state match in North Dakota for about 5 years. We had rain and then wind and rain the day before the match making for an interesting match prep. The day of the match no rain, but 20 MPH winds with gusts to 40 MPH all day long! Oh yae, the days starting temp was 48 degrees, and only rose to 68 degrees for a high. Even with that we had a nice showing of North Dakota shooters.

Now to the match. Once everyone warmed up enough to want to shoot everyone shot as much as they could. At the end of the day everyone was wishing the match was longer so that they could shoot more. Maybe the hosting club will allow us to have a two day match next year. No great scores, but with the conditions the shooting was good.

It was great having Claire Stoner and David Hartsoch from Williston shooting. They are loyal North Dakota shooters that make putting on matches month after month a pleasure. Jared Richards from Jamestown has returned from Intl's and did a great job of shooting under the conditions. Was hoping for some support from other Region 8 shooters, but they were no shows.
