## June Kicks Off Huge Month for IHMSA

The first day of June saw the Oklahoma State shoot wrapping up with a significant increase in entries from last year. Over the course of the next few weeks, many great events and accomplishments had occurred.

- Kansas had gotten their state championship in the books;
- Wyoming had a solid increase in the number of entries in their state shoot from the previous year, with several youth and new shooters involved;
- the West Coast Championship celebrated their 14th year with another 200+ entry event;
- Harry Sharp became the first winner of the Ted Zysk "Dragonslayer" Memorial Trophy;
- IHMSA returned to North Dakota, as they hosted that state's first IHMSA match in a few years with the opening of their new silhouette range in Bismarck;
- a new range in Cecil, Wisconsin held a "practice match" in preparation for their first official matches on September 13th and October 11th;
- another new range in Holdrege, Nebraska is getting the finishing touches put on it and is about ready to host matches;
- qualifications for the "Richard Pattison Region 8 Shooter of the Year" award were announced;

Shirley Bakken of Canada collects another award for her great shooting skills.

- Joe Cullison broke what is considered to be IHMSA's final frontier in shooting the first perfect standing score in IHMSA—and he did it in a 60 round match:
- and the Region 8 Championship in Pringle, SD brought in 240 entries, making it the largest attended shoot of 2014 thus far.

In addition to these great events and personal accomplishments, Mike Bellm

has also agreed to be a contributor to the *IHMSA News*. Being one of the foremost T/C Contender experts in the country, it will be great to be able to pass along Mike's wealth of knowledge to IHMSA shooters.

It was truly a month jam-packed full of great shooting, camaraderie, and celebration for our organization. Please enjoy this month's edition as there are many articles dedicated to these various accomplishments in this issue.

Anthony Butler is a rising young shooter from Wyoming

The first annual Ted Zysk Dragonslayer Memorial Trophy was won by Harry Sharp.

Joe Cullison shot the first ever perfect standing score in IHMSA.

#### IHMSA's Final Frontier Broken—The Perfect Standing Score!

by Joe Frey

Congratulations to Joe Cullison of Oregon (and his World Champion spotter Tina Cullison) as he put in one of the greatest shooting performances IHMSA has ever known—shooting the very first perfect standing score! To top it off, he did not shoot a 40x40—he shot a 60x60 at this year's West Coast Championship.

Mr. Cullison had shot several 39x40's in the past, as have a few others, but never in any standing category has perfection ever been attained. Those who are familiar with Joe know his dedication not only to his personal shooting, but also to the entire sport of IHMSA, both in his work within the organization as well as serving

as a mentor to many shooters throughout the country.

Read all about it in Steve Ware's WCC report, as well as an article Joe wrote on his 18 year IHMSA journey which got him to this point. Congratulations again to Joe

#### **President's Column**

We are into summer now but a wet one. Here in Minnesota we have areas of flooding and roads are closed and some bridges are closed until the water crests in the rivers. But at least it is not snowing or below zero, which to me is worse.

To let you all know, Dave Smith, our current Region #8 Director has put his notification in to run for the position of VP. I for one will vote for him, I think he will do an excellent job. Make sure to send in your vote; it is very important that we support our organization.

By the time this issue comes out, our IHMSA World Championships will be done. To date we have 56 shooters and 477 entries. The entries keep coming in on a daily basis and I know we will have some walk on's. These numbers are down

from two years ago when we ended up with 93 shooters and 694 entries.

Until next time shoot safely and often.

#### **Deadline for IHMSA** News Submissions

Just for clarification purposes so everybody is on the same page, as editor I am required to have all submissions to Eido Printing a few days into the beginning of each month to ensure that the IHMSA News is in people's mailboxes by the beginning of the next month. For a while, it seemed the IHMSA News was showing up a week or so later in my mailbox, which as a reader, I really always looked forward to it being there at the beginning of the month. That delay sometimes meant that some of the information in the IHMSA News was already "old", such as something advertising an event that already happened at the first weekend of the month. So one goal of mine is to have it in people's boxes by the beginning of the month, with it being available electronically on the ihmsa.org website a few days earlier.

For that to happen, *if things get to me* by the first of the month, I can guarantee it will be in that next month's issue. If

things trickle in a couple of days late, I can usually make that work. After that, I will do my best to get anything submitted into the monthly issue it was intended for, but between work, parenting, and just daily life, sometimes that may or may not be possible. A lot of things take additional formatting and sometimes retyping to get it into a standard format for the paper, which takes time. With our travel schedule, I make sure I am available to check in electronically at the end/beginning of the month, whereas after that, I may not make the opportunity to get online (sorry, I'm not one of those fancy I-phone people who can be reached at any time, anywhere on the planet) - and yes, that is by design!

So if we can all shoot for the beginning of each month, then we can all ensure that each monthly edition has the information we want it to contain.

Thanks.

#### **Welcome New IHMSA News Contributor,** Mike Bellm!

In addition to our two great regular contributors to the IHMSA News in Ken Horowitz (The New Silhouetter) and Tom Acheson (Wildcat Corner), we are proud to welcome Mike Bellm to our publication.

For those of you, particularly our newer shooters, who may not be familiar with Mike, he is one of the (if not THE) utmost authorities on the Thompson Center Contender, G2, and Encore. A lifetime of work with this firearm through "Bellm TC's" has brought Mike decades of experience in working with this platform so commonly used in IHMSA. Mike's knowledge, along with the technical specificity he exemplifies in his writing, will be useful to many of

our readers.

Mike has agreed to allow the publicallon of many of his valuable past articles which he has posted on his website bellmtcs.com, as well as the possibility of new information as it comes about.

I must thank Troy Frey of Cheyenne, WY (thanks, bro!) for bringing up the suggestion of contacting Mike about making this possibility a reality. Many of the "old guard" of IHMSA know Mike's work, and may even know him personally. We look forward to the great wealth of information Mike has to pass along to our IHMSA

## he New Silhouetter

100 Yards v 200 Yards By Ken Horowitz

Keeping flexible is the key to continuing shooting during these uncertain times of supply. Following on previous statements in this regard, the shoot what you have (or can get) approach is much better than the "I'm not shooting because I don't have..." path. This is no more than an extension of everyday life. At a recent family restaurant outing, I didn't throw a hissy-fit because my first and second choices of dessert were out of stock in the kitchen. I simply went to my third choice and all was well with the world. I hear so many shooters complaining about what they don't have or can't get instead of happily using whatever is available.

On firearms, I have so many choices of what my State allows that I don't bemoan its uneducated passage of restrictions. I think many of the provisions are silly, arbitrary, capricious, etc. and strongly object to them from common sense and 2nd Amendment perspectives. However, when it comes to having fun at the range, I appreciate the variety of quite legal hardware from which to choose. While this in no way diminishes my support of gun owners' rights, there is still a lot of recreational fun to be had with what is perfectly legal. I suppose I would be less happy if I were involved in some of the combat sporting events where large capacity magazines are de riqueur. That's one of the reasons I object to dumb laws and regulations; while they may not directly affect me, they may affect another law abiding gun owner. Nevertheless, for the type of sport shooting I do, the presently legal hardware is

Beyond firearms and supplies, I showed up for a CMP match in May planning to shoot my M-1 Garand at 100 yards, as I've always done. All the black rifles were using the 200 yard course and I would have been the only one at 100 yards. Upon suggestion of the match director, I just moved my gear to 200 yards and had a ball. While I've always shot the Garand at 100 yards, this trial convinced me that my default will now be the 200 yard course. Just this week as I write this, I once again shot the 200 yard course.

While the rules for national matches are more rigid, the CMP regulations allow for local matches to adjust to the prevailing range conditions. Thus, even though the course of fire may call for 200 yards, a match may be conducted at 100 yards providing the target size is adjusted accordingly so that the sight picture is theoretically the same. This is the same process by which I shoot a 22LR course called Mini-Palma that has tiny targets, all at 100 yards simulating the sight picture of the larger Palma course that would have targets at 800, 900 and 1000 yards. Each of the relays related to the preceding distances has progressively smaller targets when simulated at 100 yards.

Targets set at half the distance of Big Bore targets should look the same as their full size siblings used for Big Bore. Anyway, that's the theory. However, there are fac-

picture. While there may be others, I find the most significant issues to be lighting (including color contrast) and of course, eyesight itself.

Starting with eyesight, I'll keep it short. Regardless of how theoretically alike targets are supposed to appear at varied distances, not all people have universal adjustability of their eyeballs to see things the same way. End of story. (Well, not really, but I'll elaborate on this at another time).

For lighting and color contrast, IHMSA Rule VIII.H.10 states "The recommended color for all targets is flat black; however, targets may be painted any color necessary to provide adequate contrast with the background and good target visibility. Once a match is started, target color shall not be changed."

At Falls Township Rifle and Pistol Association, Field Pistol Targets are painted black while Big Bore Targets are painted white. Our Field Pistol targets all have dirt or sand berms that contrast well with the black targets. However, our target positions for Big Bore do not allow for dirt or sand berms at all distances. For Chickens, Pigs and Turkeys, there is a steel plate backstop, angled down at approximately 45 degrees to drive bullets safely into the ground. It's very dark behind the targets and a black target would present practically no sight picture; therefore these targets are painted white. At the Rams, there is a dirt berm already in place; the rams are also painted white, the contrast depending on the weather and the time of day the rams are shot.

In early morning or on overcast days, the white Rams contrast nicely with the darker dirt background. If it's sunny, there's a different story. Until the sun rises high enough at our range, the white targets stand out against the darker berm. When the sun is high enough to light up the backstop, sometimes the Rams virtually "disappear." My best bet is to shoot Big Bore sufficiently early on sunny days to avoid this. Of course, my preferences are among those of other shooters and if I don't get to the match early enough, I lose my chance. Further, if I am shooting multiple relays of various Big Bore entries (for example, Big Bore and Half-Scale), one may be shot with better conditions than the other.

Under sunny skies, even if the lighting permits me to see the Rams, the shootoff targets are frequently lost. I find the worst situation to be when my turn at the Rams comes as the lighting is changing, with some part(s) of the target in shade and the rest in full sun; I don't like this condition at

One shooter I know once commented that we should paint the Rams white in ing back to my CMP shooting, our target stands use the same positions at 100 yards and 200 yards as are used for the IHMSA Field Pistol and Big Bore Rams. The backstops are not an issue since the targets are both black bullseyes on buff groundwood "target" paper. Overly bright sun or catching a relay when the sun is changing can equally destroy both sight pictures. All that being equal, the 200 yard sight picture seems to be better for my eyes.

On Big Bore v. Field Pistol at our club, there is another factor, namely the relative distances in our setup do not all reflect the half-scale relationship of the targets. Our Field Pistol targets are all set at yards. On Big Bore, the Chickens, Pigs and Turkeys are set at meters while the Rams are set at yards. This is a reflection of field conditions and all match attendees know about this. That means that while the Field Pistol targets at half-scale are set at half the distance of Big Bore targets, the other Field Pistol targets, while fabricated at half-scale, are set at slightly less than 46% of the Big Bore distances. That weighs in favor of the sight picture for the Field Pistol targets, but I'm not sure it's even noticeable compared with the other factors in

I've yet to show up at any range for any shooting discipline where I've decided not to shoot because I didn't like the sight picture. As far as changing from 100 yards to 200 yards or any other distance change, we don't always have that option. More often than not, it's a take what you get situation. However, given the choice as I have been for CMP, I'll take the 200 yard course. For IHMSA entries, I don't change the categories in which I shoot, but sometimes I can choose the sequence in anticipation of my feelings about changing lighting conditions. Of course, all of this is comes under the larger umbrella of each shooter's eveballs as to how things are seen at various distances in general, but as I said, that's a story for another time.

Among the other goodies I harvested this past Father's Day were the latest version of Shooter's Bible and Treasures of the NRA National Firearms Museum. was a bit disappointed in the new format of Shooter's Bible in that it no longer has the articles that were my compelling reason to purchase it on a regular basis in the past; it is now more of a directory of new and currently manufactured firearms and related products. While still a valuable resource for those items, I do miss the articles. As many of you know, I did have some articles published when Shooter's Bible was owned by Stoeger and later by Beretta.

Whatever disappointment there was in the new Shooter's Bible format was more than offset by the striking photos and information in Treasures of the NRA National Firearms Museum. If I were the kind of person who has so-called coffee table books sitting on the coffee table to impress company, this would be it. Even those who are not into firearms have got to be impressed by the art and artistry of the pieces shown. Having spent considerable time in the printing industry, the quality of the ink on paper is nothing short of superb. As far as the items themselves, I wouldn't know where to start. My best suggestion is for you to go to a Barnes & Noble or other bookstore the next time you're near one and pick up the tome. If I had done that before I received this as a gift, I would surely have bought it myself.

Some time ago, while in Washington, DC, I stopped at the NRA National Firearms Museum in Fairfax, Virginia on my way to tour the Manassas Battlefield (a/k/a Bull Run). If you are ever even close to the area, it's worth the side trip to visit the Museum. In addition to more pedestrian arms, you will see things there that you have never seen before or cannot see elsewhere. I certainly had my favorites but they may not be yours. The Museum is phenomenal and free. How often are those two words included in the same sentence? Just search www.nramuseum.org and you'll see why I'm such a fan.

## IHMSA Bulletin Board

#### Installment Plan Life Memberships

The Installment Plan for Life Membership allows you to purchase a Life Membership by making four monthly payments of \$105.00 each (a total of \$420.00), or in the case of a spouse two \$50.00 each (a total of \$100.00). When your last payment is received, Headquarters will send your Life membership card, certificate, and pin.

If you're in the middle of your membership year, you can purchase a Life Membership now and apply the unused portion of your current membership. Call IHMSA Headquarters at (801) 733-8423 to find out how much credit you'll received for your current membership.

Life Membership is a great way to enjoy IHMSA for years without the hassle of paying yearly dues and show your support of IHMSA at the same time . . . order yours today!!!

#### 2014 Rule Books

Dear IHMSA Members,

In an effort to keep costs down and with the only changes being the addition of the Practical Hunter category, Headquarters has been directed to not print the IHMSA Rule Book for 2014, but to send an addendum with these changes instead.

We understand that it is important for the membership to have access to the rules. Therefore, since the 2014 rule book is available on our website (go to <a href="https://inhus.org">ihmsa.org</a>, then click on the RULES link). Headquarters is being directed to only send rule books with New Memberships and upon request for replacement. If you need a rule book, please contact headquarters.

Thank you for your patience and understanding in this matter.

Nancy LaCroix IHMSA President

#### **Rules Addendum: Practical Hunter**

<u>Class Description:</u> All 3 classes are to be shot from any SAFE freestyle position including prone, kneeling, sitting, or standing.

The <u>Practical Hunter Long Course</u> will be shot on the 200 meter Big Bore range with the standard full size targets at their normal ranges.

The <u>Practical Hunter Short Course</u> will be shot on the 100 meter Field Pistol range with the standard targets at their normal ranges, using standard field pistol cartridges only.

The <u>Practical Hunter .22LR Course</u> will be shot on the 100 yard SB range with the standard Small Bore targets at their normal ranges.

Class Rules:

· Any hunting style handgun with

Phone - 801-733-8423, FAX:

a maximum overall length of 21 inches.

- Optics are allowed up to a maximum of 6x power.
- Gun must be as manufactured with only cosmetic modifications.
- Ported barrels are allowed as long as they are shot from a safe position.
- A rest such as a bipod or a sandbag supporting the barrel in a prone position may be used by a new unclassified shooter and by shooters in classes A and AA.

## Contender Misfires:

What Causes Them, and What To Do About Them by Mike Bellm

The Contender frame is one of the most misunderstood firearms components, but there is no need for the confusion that ex-

Hammer springs can be weak or broken and firing pins can be broken, but the most common cause of misfires is due to the frame doing what it is supposed to do... NOT FIRE IF IT IS NOT LOCKED UP PROPERLY.

Look at your barrel's locking bolts. That top surface must slide under its mating surface inside the frame in order for the barrel to be locked up and safe to fire.

Look inside the frame with the barrel off of it. Above and behind the top of the trigger is a little butterfly-looking plate hanging there at an angle. This is called the interlock. When the locking bolts engage the frame, they push back on the forward end of the interlock. On the back side of the interlock is a tab that holds the hammer block safety up when the barrel is open, OR, if it is not locked up sufficiently to be safe to fire. The hammer block is the wide, flat bar inside the frame in front of the hammer that slides up and down as the frame is cycled. It is NOT a transfer bar, in case that is what you think it is.

In order to fire, there is a chain of events that have to happen:

- 1. The locking bolts must engage the frame far enough to be safe to fire.
- 2. The locking bolts must rotate the interlock far enough that is FULLY releases the hammer block so that...
- 3. the hammer block is FREE to fall out of the way of the hammer when...
- 4. the striker hits the forward end of the sear, the sear rotates, and at the same time...
- 5. releases the hammer AND the upper arm of the sear releases the hammer block.

(Note that the upper arm of the sear holds the hammer block up at all times until the sear is rotated and the hammer block is released along with the hammer. But it is the interlock that also holds the hammer block up if the barrel is not fully locked up... or if there is no barrel on the frame, of course. Take some time playing with the frame, follow the sequences, and I think you will soon understand how it works. If you do, you will be one of the very few that do. A big percentage of Contender shooters, dealers, AND "gunsmiths" don't).

OK, so the locking bolts must engage the frame and release the hammer block. Fine. So what is happening when it won't fire? This assumes you can cock the hammer in a normal manner. Failure to be able to cock the hammer is another subject.

Two very simple things prevent the locking bolts from engaging into the frame far enough to release the hammer block

- 1. The top surface of the locking bolts is too high. This is just the particular tolerance variation in a particular barrel and frame combination. Older vintages of barrels and frames may be more prone to this problem, but it happens every day in newer version as well. It happens.
- 2. The cartridge case sticks out of the chamber too far, due 9 times out of 10 to the person resizing the cases not understanding how to adjust the size die to bump shoulders back on bottleneck cases. In firing, the frame stretches a bit. This stretch lets the case grow in length from shoulder to head. If this excess length is not removed, it interferes with the barrel closing-it is too long, too big. Make it right and it will work.

A third item has been mentioned, and that is a bent extractor, but I assumed that one would straighten or replace an extractor that was bent, especially if bent badly enough to interfere with closing the barrel.

What To Do:

If you close an empty barrel, cock the hammer, pull the trigger, and the hammer block does not drop, the locking bolts are too high and either need to be replaced with undersize locking bolts, or the top surface of the locking bolts must be lowered by proper metal removal. A Diamond EZ Lap is the best tool I have found for this.

But, even if the block does drop with an empty chamber, the end of the tab I referred to on the interlock may not be getting moved out of the way FAR ENOUGH to not rub on the hammer block and impede its fall.

Therefore... you should also ink the top of the locking bolts with a felt tip pen, then open and close the barrel several times to get a "signature" in the ink showing how far the locking bolts are sliding under their mating surface in the frame-called the locking table. The locking bolts should show the ink marred to a point about 1/32" forward of the "U" notch in the locking bolts. If they do not, then either get a set of TC undersize locking bolts or learn the correct way to dress down the top of the locking bolts, if you are up to doing it yourself. (Working down the tops of the locking bolts can be addressed at another time if

The No. 11F Diamond EZE Lap has many, many uses and is my favorite tool for dressing down, i.e. lowering, the top surface of the locking bolts engagement surfaces to permit adequate engagement of the locking bolts, and to ease unlocking of barrels that are exceptionally hard to unlock.

OK. You have addressed the lockup issue. Everything is fine, but you get misfires still. Remember the hammer spring. It should be replaced periodically anyway. If it feels even the least big soft or mush, definitely replace it.

Odds are you will immediately notice the hammer is much stiffer to cock! Meaning, you did not realize how much the hammer spring had weakened. This is a high stress spring that fatigues over time and

ammo, it has a harder primer and TC did not warrant the Contender to shoot it. It will when things are right, but normally, it may not. Make sure the firing pins look normal and are not broken. Push them forward through the breech face and exi.e. 5.56 NATO ammo. Commercial ".223 Rem" chambers have only about a .060" throat length. 5.56 NATO ammo requires about a .1" longer throat. If you want to shoot 5.56 NATO ammo in a ".223 Rem" barrel, the throat must be extended to avoid excess pressure.

#### Side Note: A Recent Discovery About Misfires:

I got my first Contender in about 1971 and have worked with it professionally since 1979, but only recently (2014) discovered that the vertical arm on the sear that holds the hammer block up until the sear rotates, releasing both the hammer and the hammer block, can drag on the BACK side of the hammer block if the "timing" is not quite right.

Removing a little material from the FRONT side of the sear's vertical arm, OR, removing some material from the BACK side of the HAMMER block to allow the block to drop freely may be required.

This is something that had slipped by me for all these years and was required to put a frame back into operation.

Editor's Note: Due to space restraints, this first submission by Mike Bellm is being broken up into two parts. This article should effectively address some of the most common problems for Contender misfires. Next month, we will feature the second part of this article, which addresses the barrel not closing all the way, which is a much less common problem, but one that does happen.

#### IHMSA News Online:

Thanks to the many people who have cancelled their paper copies of the IHMSA News now that it is available electronically on the ihmsa.org website. With the always increasing cost of postage, every little bit helps. So if you are satisfied with the elec-

tronic copy and no longer want/need the paper copy mailed to your door, please email Cindy Smith at Headquarters-it will save a few trees and a few bucks for IHMSA.

### History was made - - the first perfect standing score

#### The Road to a Perfect Standing Score

shortly after I started working at Nosler as a Tooling Engineer, designing tooling for making bullets. The first match I attended was outside Bend, Oregon. I watched the match director, Norm Rife, who was about 70 at the time, shooting his 4" Smith 44 on the rams. Norm hit at least 50 % and he took so long for the first shot I thought he would never pull the trigger. He got all of his very carefully aimed shots off in time. I decided right then and there I wanted to be like Norm.

I started out using what I had, which was a 14" Contender in 35 Remington with a scope on it. After about a year, I shot 5 perfect scores in a row and made Interna-

tional class, so I then decided to branch I started shooting IHMSA in 1996 out and try open sights. I slowly acquired a production barrel and stumbled into a deal on a Ruger .357 Maximum. I used that Max for both Standing and Revolver. I actually used it to make my first BB 100 club entry shooting a S-25, R-39 and (I think) a

I started shooting Field Pistol and decided that Norm was the guy to beat. Then Dwayne Hansen moved to town and I had a new goal. At that time we shot on Sundays so to reach my goals I would go to the range on Saturday and shoot a half match with each gun I was going to shoot the next day. This gave me practice time and made sure my sights were dead on. It did not always work but it was part of the journey.

#### Now taking orders for the **New Single Shot Model 2008**

#### Freedom Arms, Inc. **Bear Track Cases**

314 Hwy 239 Freedom, WY 83120 Phone (307) 883-2468 Fax (307) 883-2005 www.freedomarms.com www.beartrackcases.com freedom@freedomarms.com

real game in IHMSA was the standing categories. I started traveling so I could shoot matches out of town. One of those places was Douglas Ridge outside of Portland, Oregon where one of the best in the world shot. Ken Neill was a phenomenal standing shooter and deadly with his 7TCU in Production. Ken was regularly posting BB 3-gun agg scores that averaged around 109. That means if his freestyle was perfect he was averaging 29 in standing. I asked Ken a lot of questions about everything concerning standing. He taught me a lot and was very helpful with advice and information.

I kept on shooting and practicing and then Dave Whitman moved to town. Dave is an excellent all around shooter and was at the very first match where IHMSA was formed. I worked hard trying to outscore Dave. I finally managed that one, but it was no easy task.

Dave and Dwayne both taught me a great deal. I would watch them very closely as they shot and try to figure out what they were successfully doing that I could use to help me shoot better.

One day I went to a match and made an accidental discovery. I had made International class in BB standing but the highest I had ever shot was a 29. My average was much lower than that at 23.8. That day I shot a 36 Standing. I ended up shooting 6 guns that day after a trip home to get more! With that kind of a Standing score I had to go for all of the aggs. I was stumped at how all of a sudden my sights were steady, without the usual high speed tremors and large general wobble I was used to. And how did I ever shoot that much higher?

I thought about it for several days and decided that the most likely reason was that instead of a bowl of Fruit Loops like a normal match day I ate bacon, eggs and hash browns. Could breakfast make that big of a difference? Was Mom right about breakfast being the most important meal of the day?

The following Sunday I decided to try out the breakfast theory before the match in Grants Pass. It worked-I shot a 34 standing. Wow, something that simple? After thinking about it, it made perfect sense; instead of a carb spike and crash, I was getting a lot of protein to stabilize my blood sugar for the whole morning. I stayed with that plan and my standing average over the next year jumped up to 29.6 per match. That is huge. I also realized that before that fateful day, I had never considered myself a shooter capable of shooting a 30. I shattered that mental barrier and after that day I knew I was capable of shooting over 30 any time ! shot a match. Wow, what huge difference self-confidence makes. We should always think of ourselves as the class of shooter we want to be and not limit ourselves to our past or historical performance. In other words, believe in yourself and keep rais-

Along about that same time I figured out that there were a lot of trophies awarded that hinged on standing scores, namely, all of the aggs except 1/2 scale and later 1/5 scale. It was time to add another standing category; it was time to start shooting BB Unlimited Standing. I wanted the best shot at winning a trophy and the standing agg might be the one.

My first BB US barrel was a 14" 7TCU with a Ken Light 5" high rise and a BSA 6-24 rifle scope. The only trouble I had was the recoil. To have enough power to reliably take rams, the load would bounce the scope off of my glasses on each shot at the rams. A smack in the face is a little distracting so I had a muzzle brake installed. But the brake changed the barrel harmonics so I had to rework all the loads. I ended up using a 150 gr bullet with 12gr of Blue Dot for the C, P, and T and if I remember correctly something with AA2460 for the rams. The brake helped the recoil a bunch but then I had to make a forearm guard to

After a while I realized that, for me, the keep the particles out of my arm or protect my shirt in colder weather. The barrel worked well and shot great. I worked up to a 39 x 40 with it on at least one occasion.

> One day I saw a barrel I had to have, a 14" 300 Whisper. I was using the Whisper for my open sight Standing so it only seemed natural to have them be the same caliber. I could not justify having 2 US barrels so I sold the 7TCU; I still miss it, but the Whisper was a good choice. I had the same style of brake installed even if it was not necessary. I started out using 168 grain bullets for the C, P, and T and 180 grainers for the rams. I've never had any luck shooting bullets subsonic in any of my Whispers so I try to keep them around 1200 fps which could very well mean they are transonic before getting to the rams, but it works.

> Then I figured something out on my Standing gun that I was able to apply to US. On my Standing gun I used to use 200's on the rams and 168's on the closer animals. The 200's became really hard to get and after paying \$35 for 50 of them I switched to 180's that were more readily available. During one of the component crunches, I switched brands of 180's and they shot the same. I realized when I switched from 200's to 180's was that my ram scores actually went up a little. I started wondering why and it became clear that follow through was not as critical with the lighter bullets as the velocity was higher and the barrel time was reduced ever so slightly. The good thing is that all the time I was shooting the 200's I was training myself to have excellent follow through, so making it less critical was just a bonus.

> I figured if switching the Standing ram loads to a lighter bullet helped, perhaps a lighter bullet on the rest of the animals might help. I switched to 155gr bullets for the C, P, and T. I can't say if or how much it helped but it certainly did not hurt. I translated the idea to US knowing that it was possible to sling a bullet onto or off of the a target after the bullet started to move, with a 14" barrel. I've seen that one many times with both good and bad results. Yup, follow through is very important.

> These are the loads that I have been using for several years. For the C, P, and T, I use a Nosler Custom Comp, 155gr BT HP seated over 8.5gr of SR4756 and a WSP primer in R-P 221 Fireball cases. As a side note I never trim the fireball cases and many have pretty crooked necks. On the same note, I almost never clean the barrel either. (Seems like there are just not enough hours in a day.) For Rams I use a 180gr Winchester bullet over 11.5gr of AA #9 with a WSP primer and the same untrimmed 221 Fireball cases.

> I have shot at least a half dozen 39's with this set-up. I am still using the 5" high rise and a BSA 6-24x scope. I shoot the chickens on about 6x-8x, pigs on about 12x and the turkeys and rams I use around 16x to 18x as anything higher and the scope picture starts to darken. I have missed nearly every ram at one time or another, including the last one where I shot through the hole in the horn. My spotter asked me where it broke and when I said the head, he said, "Yup it went through the hole in the horn." That was a heartbreaker, so close to a 40.

> I tend to get very excited when I'm doing really good or when I'm approaching a personal best or approaching xx number of targets in a row. Sometimes I can't stand the prosperity. I love this game and that feeling of doing great is one of the things that keeps me coming back. That same excitement is also the very thing that I try to conquer as it most often ends up costing me targets on the last bank. As I get more and more excited, I shake more and more. The more times I get to that point in an entry the better I get at controlling the excitement but I still have not mastered it by any means. I have read books to help, I practice breathing techniques, left hand squeeze (look it up), self assurance and

anything else that might help.

One of those books talked about a technique that allows you to take your brain out of it and shoot with the subconscious. The subconscious, along with muscle memory, is capable of shooting perfect scores every time. Getting to the point where you can go on what I call "autopilot" is the real journey but very well worth the effort. I have been trying it for several years but the first time I was really successful was in OKC 2 years ago. I was totally exhausted from traveling and the 105 degree heat. I could barely hold up my US gun and there was no way I could hold the crosshairs in the animal. After several attempts at shooting drive-by style on Turkeys (pulling the trigger while the crosshairs fly across the target) I figured I needed a different plan. I told my wife that I needed to take my brain out of the process. She said, "Then just let it happen." I switched to autopilot where I took my active self out of the picture. I held the gun up and applied light pressure to the trigger until it went off, seemingly all by itself. It was my subconscious taking over and steering me toward success. I did not hit every target by a long way but I managed to shoot a 66x80, which was good enough for a tie for first place. It could have easily been a disaster.

This year I have a new challenge to deal with. My eyes are changing as I am now in my mid 40's. I have 6 pairs of eyeglasses in my shooting box with at least 5 different prescriptions (from up to 10 years ago) and a couple of pair with some kind of photosensitive shading. The newest prescriptions give me perfect animals but I can't focus on the sights so prescriptions from about 3-5 years ago seem to be the best compromise for clear sights and targets. But before each entry I have to try on several different pair to see which ones will work best for the current light and glare conditions. It is a pain but it is working pretty well. I do use a merit for all of my open sight entries.

So, with all of this background, now on to the latest chapter in this story, the 2014 West Coast Championship in Grants Pass, Oregon. I started the week shooting FP-P and did ok. Next up was FP-PAS. This entry went very well, I was able to switch to autopilot when my brain was preparing to screw me up. I ended up with a 57x60,

which was a personal best. Next up was Small Bore US. I started off the best I have ever shot hitting 48 of the first 50. Then I allowed my brain to enter the picture and I thought myself out of 6 rams in the last 2 banks. I was trying to actively pull the trigger with a wiggle that was larger than the animal. I should have stayed with autopilot but there is no guarantee.

So Friday of the West Coast comes along and my third gun of the day was my BB US gun. The mistake on the SB-US rams had happened on the first gun of the day and it was fresh in my mind. I did not want to do that again. In between guns that day my wife had me watch Mike Abel and to make note of how long he was taking to shoot each animal. The light conditions were causing serious contrast issues on SB turkeys and rams. He did not run out of time but he was making sure each sight picture was perfect. "Wait until each shot is right," she said. "You have plenty of time. Every shot counts."

And so, BB US begins. On the chickens the trigger was breaking well with nothing scary or too close to an edge. On pigs I had one shot go a little wild, it hit a pig on the backline and impacted the berm about 3 feet over the back, but it fell. All the other shots were solid hits. On to the Turkeys! Here things got a little exciting. My wiggle was as large as the target so I shifted to autopilot, holding the gun up with light trigger pressure until it went off, seemingly on it's own. I hit two turkeys at the top of the leg, one in the neck, another low in the breast near the edge but with a full bullet. At least one or two broke with the crosshairs 2 inches over the back but the hits were on target (I think my subconscious moved the barrel while the bullet was still in the barrel to correct for me). On one particular turkey my wife called center and then was a bit confused when I adjusted the scope. I explained to her after the bank that I had a really good trigger break that was halfway between the center and the right edge so I was printing a little left. We got through the Turkeys clean. Whew! Then Harry Sharp asked me how it was going. I told him this may have been the first time I was ever clean through the turkeys. Boy, howdy, if there ever was a statement that could jinx the rest of it, that

We moved to the rams, I really needed a pit stop but after moving positions, the target setters were flying and were already over half way done setting targets. My wife tells me, "You will have to hold it for now or you won't make it back in time." Ok, first bank of rams. Slow, steady, breathe, make every shot count, take your time, wait for it to happen, you can do this. Each target fell one at a time with solid hits. Not all near the center but each with at least a couple of inches of meat around them. Now I was off to the restroom! That was a real relief and also served to walk off a little bit of nervous energy. This is the point in an entry when I would really start to get excited and most likely to screw it up. My heart rate goes up and I really start to shake. I got back to the line for the 2nd bank of rams. I was very deliberate with my breathing, taking an extra breath after the first ram felk. I kept telling myself, "I do this all the time, no big deal, I can do this." Down goes #2, all is well, bang and down goes #3. On #4 the gun did not close quite right, I just didn't get the click when the action closed, I added a little extra pressure to the barrel to make sure it locked up. I lined up and "CLICK". Oops, I guess I was correct-it had not locked up. The crosshairs were solidly in the animal too, darn it. Ok, break the action, reset and oh my, I have about 30 seconds left for 2 shots. Then in my head I hear my wife's voice, "You have plenty of time, make each shot count." I took my normal breath and waited for the gun to go off, bang, clang and down goes #4. As I slip the last cartridge into the chamber I see there is 12 seconds left on the clock. Now there is no time to waste, a quick breath, up comes the scope I find the animal, crosshairs do a lap around the ram then start to slow down near the centerbang, clang and down goes #5 (#55 total) with a whole 2 seconds to spare.

Now my wife steps up and tells me to "take a walk". Off I go down along one of the other ranges. I walked to the other end and came back just before it was time to shoot. My wife gave me a big hug and told me, "You can do this." Later on she told me she could feel my heartbeat all the way through to her back. Naw, I wasn't excited at all. Yeah right!

The last bank went splendidly, the first 3 animals fell with seemingly little effort. There was a lot of deliberate breathing and self-assurance. When #3 went down I did that terrible thing where I remembered that I just tied the range record. Du-oh, not now. Concentrate, I can do this. The crosshairs came up on #4, wiggled around a bit and then bang and down goes #4. Last one, plenty of time, make it count, you can do this. The crosshairs wandered around the ram and bang, it went off. The crosshairs were centered firmly on the base of the neck area, not a perfect shot by any means but it should work. I still had the slightest doubt until I saw the target change from black to gray as it started to fall backward. Whoo-hoo! Got it! Now all I had to do was stay standing long enough to set the gun down. My wife was already jumping up and down by the time I got the gun in the cradle. I caught her and gave her a huge, "Thank you" hug. She did an awesome job keeping me straight, focused and calm (enough). Wow, did that just really happen?

There were a great number of people that helped me get to this score. First my wife for her never ending support and encouragement and her favored, although stolen line, (from Teresa Coleman) "FO-CUS JOSEPH". Ha, cracked myself up. Norm Rife who was my silhouette inspiration from Day 1. Dwayne Hansen, Ken Neill, and Dave Whitman who all set the bar so high that I needed to work hard and who all offered instruction and advice. Ted Zysk, Eric King, and Lon Pennington were all very helpful with information and advice as well as stiff competition. There were many other people along my 18 years of silhouette that helped and challenged me, all of them were important.

Handgun Silhouette is the friendliest sport I have ever participated in. The shooters are great, offering their best advice, tricks and support, always freely and always graciously. I have offered my best tricks in this story, I only hope that one of them can help someone, somewhere, pick up that extra target to help them achieve their goal.

Thank You. Joe Cullison, Oregon 541-408-6140 jcunclejoe@aol.com

#### **Marksmanship Competitions**

#### The Burris Cup:

Scoped .22 Long Rifle caliber handguns only. Your best 5-shot group at 100 yards or meters. Guns may be bench rested over any solid rest as long as the gun is not in a Ransom Rest, vise, or any other mechanical clamping device. Lying on your back in a scoped guns set up for creedmoor to better compete.

#### The Weaver Trophy:

Scoped centerfire handguns. Your best 5-shot group at 100 yards or meters. Guns volver, and Unlimited guns are allowed in the Burris, Weaver, and Merit classes. may be bench rested over any solid rest as long as the gun is not in a Ransom Rest, vise, piling sandbags by your body for support is legal. This will allow scoped guns set up for creedmoor to better compete.

#### The Merit Challenge:

Centerfire handguns with iron / open sights. Your best 5-shot group at 100 yards or bull zone.

meters. Groups must be fired from an IHMSA legal freestyle position. No benchrest or artificial support allowed.

#### The Daisy Avanti Trophy:

AIR Production guns with Iron/Open sights. Your best 5-shot group at 18 yards. freestyle position and piling sandbags by your body for support is legal. This will allow Groups must be fired from an IHMSA legal freestyle position. No benchrest or artificial support allowed.

General Rules: All entries must be shot with IHMSA legal guns. Production, Re-

Witness: Winning groups must be witnesses by an IHMSA or NRA member. Elior any other mechanical clamping device. Lying on your back in freestyle position and gible winning targets must be signed and dated by the shooter and witness. Also, please include the shooter's IHMSA number and the witness's IHMSA or NRA number by their name. A witness is not required to enter but is required to win.

Targets: Targets submitted must contain no more and no less than 5 shots in each

#### Marksmanship Program

There was some great shooting done this past month by Timothy Montgomery of Washington, Utah. Tim submitted four targets from four different guns this month. The best was a .752" group fired from a 10 inch Contender, using a 147 grain full metal jacket bullet pushed by W296. Then he had a Hornet, also in a 10" Contender, coming it at .808", using H4198 and a 52 gr. Speer HP. A 10" 7 TCU came in at 1.034" using H4895 and a 150 Hornady SP. And then there was an interesting one I had never heard of before — a .224 Montgomery in a 12" Bullberry barrel with a .890", using a 45 grain Sierra bullet with Vihtavuori 3N37 powering it. This wildcat is a 22/25 ACP. Great shooting,

Tim says he will be sending more, and plans to try to get in all classes of the Marksmanship program. We hope to see more great shooting from Mr. Montgomery. Thanks for taking the time to send these in.

Bob Smith of Colorado is still leading the back with that outstanding .471" out of a .22-250, so keep working on those loads everybody; it is going to take a great effort to top that. Until next time, keep shooting and keep getting better.

Weaver Hopily Otalianings.			
Name	Group	Gun/Caliber	Witness
Bob Smith (CO)	.471"	.22-250	Yes
Bob Smith (CO)	.697"	.223	Yes
Timothy Montgomery (UT)	.752"	.30 Carbine	No

## Records Program

#### Big Bore Records

By Joe Cullison

Summer is here and the scores are heating up.

John Richards (MN) shot a great entry and leaped into a tie for 2nd place in US with an outstanding 37.

John Zumwalt (CA) did some very good shooting at the West Coast Championship posting a S-39(26), P-59(39), U-58(38), R-55(36) and a US-52(34). These scores add up to a 3-gun 104 a 4-gun 140 and a Standing Agg of 60.

Bret Stuntebeck (WA) also did some fine shooting at the West Coast posting a S-37(24), R-58(38) and U-59(39). This gives Bret a 3-gun Agg of 102.

Joe Cullison (OR) shot a standing 45x60(30) and a Perfect US 60x60(40) (New world record) at the West Coast Championship to take the lead in the US category and raise the Standing Agg to a converted 70.

State totals for 2014 are: OR-5, CA-5, OH 3, SC-2, TX-2, MN-2, WA-1

Please bring at least one friend or acquaintance to every match. Together, we can keep IHMSA growing.

Please forgive me if I have left anyone out or made any other errors. Send me the information and I will make it right as soon as I can.

Thank you for your support of the BBRP.

Send entries to:
Joe Cullison,
28988 Berlin Road,
Sweet Home, OR 97386
or to jcunclejoe@aol.com.

#### **Field Pistol Records**

By Al Kuenn

We are starting to get many more Send your scores to scores in with some impressive shooting. Al Kuenn,

Paul Habig shot a 35 with his RPM-XL with a high rise mount and a Leupold 3x9 scope and a 29 in Prod with his BF, both in 22 Hornet. Nice shooting Paul!

Denny Nelson shot a 34 PAS and a 30 Prod to get on the list with a combined 64. Denny used a TC in 22 Hornet for both. Denny is our second Michigan shooter on the list.

Rich Baird missed a pig but still shot an excellent PAS score of 36 at Pickaway Co. in Ohio.

Dave Wood made the 60 club with a PAS 32 and a Prod 29. He used TC 22 Hornet and 270 Ren respectively.

Shoot well!
Send your scores to
Al Kuenn,

## Half-Scale and Fifth-Scale Records

June 2014 By Jim Harris

Congratulations to Gary Bridges for shooting his first Half-Scale UAS 40 of the year, winning the Texas State Championship and besting the prone positions shooters with higher power scopes. Gary used the traditional Creedmoor position. Nice shooting, Gary!

Mike Abel of Oregon shot his second Fifth-Scale UAS 40 of the year and joined the Fifth-Scale Agg with a nice 77.

Gary Crews of Oklahoma added a few more feathers to his cap. Gary added a Half-Scale UAS 40 which contributed to his posting a 119x120 Agg in Half-Scale.

Looking to reach to more entries as we

get into full swing for the shooting season! Send your records reports to me at <a href="mailto:harrisgrp@earthlink.net">harrisgrp@earthlink.net</a>,

#### Half-Scale and Fifth-Scale Report

July 2014
By Jim Harris
Entries are starting to pour in with records set in 40, 60 and even an 80-round match.

Congrats to Steve Soya for shooting the first 80x80 in Half-Scale UAS, winning the Region 3 Championship in that category

Also adding to the records are entries from the West Coast Championship for Joe Cullison (winning the Half-Scale UAS champion with a 60x60 and shoot-offs, and Dave Silva winning the Fifth-Scale UAS championship with 60x60 plus shoot-offs.

Congrats to Woody Liddell of Oklahoma, shooting his first ever 40x40 in Half-Scale Open Sights category!

Lots of entries, just like I said! If by any chance you find an error or omission in the standings, please let me know.

Thanks for your participation!
Send your records reports to me at <a href="mailto:harrisgrp@earthlink.ne">harrisgrp@earthlink.ne</a>t, or my home address:

#### **Match Publication Policy**

As we continually have new match directors, following is the IHMSA News' policy on publication of state, regional, and "specialty" match notices and match results.

Any IHMSA sanctioned club in good standing may publish a notice of their club's state or regional championship match at no charge for three months. State match notices are limited to 2 1/4 "x5". Regional match notices are limited to 4 3/4"x5". If a club is holding a "specialty" match and that match does not replace one of these championships, the *IHMSA News* will publish a 2 1/4"x5" notice at no charge one time. These notices will run in Section B only. The club may publish additional notices of the same size for \$45 per issue. Ads must be prepaid before printing. All payments are to be sent to IHMSA HQ, P.O. Box 22356, Cheyenne, WY 82003. The club may specify whether the paid notice is published in Section A or B.

State match results can list both first and second place finishes. Regional match results can list first, second, and third place finishes. "Specialty" matches replacing a state championship may publish first and second place finishes. "Specialty" matches replacing a regional championship may publish first, second, and third place finishes. All other match results wherein the total number of handgun silhouette entries exceeds 11 (including all IHMSA, NRA & non-member guests) can list only the first place finish. Matches with less than 11 total handgun entries as defined above can list all IHMSA handgun entrants and their place. Regardless of the above, all 40's, 60's, and 80's (depending on the number of rounds fired at the match) can be published from ANY IHMSA match.

An IHMSA club holding a dual sanctioned (IHMSA/NRA) match may submit a match report for publication in the *IHMSA News* containing both IHMSA and NRA results. The number of published NRA results may not exceed the number of published IHMSA results. **Publication is limited to IHMSA sanctioned handgun disciplines only.** 

Please address any questions concerning this policy to your Regional Director.

#### **GEORGIA**

#### GAINESVILLE, GEORGIA Cherokee Gun Club June 2014 by Ron Dixon

The June silhouette match was attended by seventeen shooters. And those shooters shot 36 entries. The weather was great and everyone took advantage of the beautiful day.

Kenneth Hale was a happy camper shooting 40x40 in UAS. This was his first perfect score in Small Bore, and he was more than happy to get the job done. Certaintly some credit has to go to his spotter, Mark Thrailkill who kept him on target and calm.

Another shooter who had a good day was Larry Davis. Larry was once again joined by his grandsons Dustin and Clay. Both of the lads shot the club gun. Dustin hit 39x40 while Clay hit 27x40. Good shooting fellows, those higher scores are just around the corner.

Caryl Barrett also managed a smile. We got Caryl set up on a bench with one of Dave Chanev's pistols, and she shot 37x40 for her first attempt at UAS in a long time.

We all try to shoot our best while we are on the line but many times we fall short of our expectations, however everyone's day is enhanced when someone does capture that white elephant. Come join in on the fun, we would love to have you. Field Pistol Results:

#### LINCOLNTON, GEORGIA Little River Gun Club May 28, 2014 by Robert L. Walker

Just another warm day in Georgia; a rather light turnout of shooters as matches go, but "it is what it is". There were a number of vacation and other events that held down attendance, and I hope this does not become a "trend".

A couple of bright spots for this match was the attendance of Andrew Kerlin of Grovetown, Georgia. Andrew has expressed an interest in participating in IHMSA matches and has made a great start just by making it to the match. His shooting was not bad for a first timer either, welcome Andrew. We also had the pleasure of having Henry Auman and Larry Elrod of Black Creek Gun Club (Patrick, South Carolina) join us for some shooting; thanks guys and you are welcome at any of our matches.

See you next week at Cherokee and next month here.

We had a very light turnout for today's rimfire silhouette match. Being Father's Day, I guess most of our regular shooters had other commitments today. John and Kathy Howard were able to come out, and so did Bill Parmley. We had a lot of fun and got to shoot a total of 9 entries for the day. Everyone shot well and continued to show improvement. Thanks for helping pick up the targets after the match was over. We'll take the next two months off and be back September 21st. Hope to see everyone there.

Elton Wood .

US-AAA

BRN . . . . . . . . . . .

The day started out very clear and bright with moderate temperatures and progressed to hot by early afternoon. For this match, we had 8 IHMSA members shoot 18 guns. Robert shot an International score for a leg up in Big Bore Prod. Great shooting!

Our target setters, Grayson and Jesse got a workout in the heat with all of the Big Bore entries and did a great job keeping the match moving. We had a few guests which is always nice since

Shooting steel is better with friends.

#### OHO

#### **BELLEFONTAINE, OHIO** Logan Handgun Association March 22, 2014 by Steve Powell

We had a very small turnout for our March match with less than 10 entries and a few brave souls to challenge the March weather in Ohio.

We are working to get the range back in shape after some major dirt work last fall, and should be back in shape next month along with some minor equipment improvements.

Thanks to all who helped out, and hope for better weather and more shooters next month. Big Bore Results:

#### April 26, 2014

Great weather for our April match with temperatures in the upper 60's, light wind, and floating light. We had just over 20 entries for the match and even a couple of new faces.

It was good to see our friend and former shooter Mike Miller back after several years to shoot some steel with us again. Bob Ochs started off with a bang this year with a 40x40 in Big Bore Unlimited, and Lynn Shultz edged out Craig Eagle with a 40x40 plus 8 of the little ones. Bruce Smith knocked out a nice 38x40 with his FA in Big Bore Revolver on the first time out this year.

Over all it was a good match even though attendance was a little light. A huge thanks to all who helped set up, tear down, and set targets this match because our target setters were unable to make it, but they will be back next

May 24, 2014 We had perfect weather for our May match with temperatures in the 70's, good light, and no wind. This match was the 35th year anniversary of IHMSA shooting for the Logan Handgun As-

sociation. 1979-2014 and still going. Thanks to Lynn for getting the word out to all our current and past shooters, and it was great to see some familiar faces from the past to join us and commemorate our 35th year.

We also had the local newspaper there doing a story on shooting sports, so we hope to see some positive in on competitive shooting in the near future.

Thanks to all who pitched in and helped out while a few of our regulars had other obligations.

Until next month, safe shooting.

Dave Calloway...

US-AAA

UAS-INT

Sorry I could not make another match but after July hopefully I will not miss a single one. Thank you to John Maple for running the match and allowing us to shoot silhouettes. He also got the scores for me!

Highlights I gather from the match. Welcome back Richard Baird who shot a perfect score in UASFS Fifth-Scale. There are only a handful of these shot every year, so my hat is off to Richgood job! He also shot a nice 36 in PAS. Good shooting also to Carl Skidmore who continues to shoot a 60 Club score regularly. He also hit

## Grants Pass, Oregon 97

JCSA Pistol Silhouette Club 19 Turkeys, Match Director June 17-21, 2014

First, I need to give two big thanks to (1) the JCSA club members who worked so diligently to prep the range before the match and to Paul for being the welder of broken targets throughout the week and (2) all the shooters who traveled so far, spent so much money to attend and who have supported this match for 14 years. We could not do it without your participation.

Also, thanks to Bret Stuntebeck (brewmeister, fisherman, chef) & Steve Parsons (sidekick, assistant chef, good friend) for the Wednesday fish fry & homebrew all week! And to all the other chefs who fed us all week, Karen Aber, Jo Barlett, Jerry & Pam Ray, Dave Silva, Cristine Abel, Eric King (margarita maker), and anyone else I may have forgotten. Shooting is

a small part of this match, and I often say guns are simply an excuse to get everyone together for a five-day party!

This was a very special match as it was the first one since the death of Ted Zysk. Thanks goes to Dan Hagerty for spearheading the purchase of a dragon to make the "Dragonslayer" trophy, to those that donated toward

that purchase & an Oregon shooter for the cash donation to pay for the making of the trophy. Also, thanks to JR &

#### Wyoming State Champio

Ally Walter gets help from Grandpa Joe Schlautmann Shooting Practical Hunter.

A great future for IHMS, picture, there were 4 pe or new shooters. Show Stoneking shooting his Butler shooting UAS, be her first silhouette matc

To say that last September's 2013 Wyoming State shoot was a disaster is no understatement—it really was! A natural disaster, to be exact!

Northern Colorado saw large-scale flooding which had never been seen before, cresting of on all days... Friday the 13th. Shooters traveling to Cheyenne,

WY from the south and some from the east simply couldn't get there, as Interstate 25 and many other roads were closed due to the floods. For those who were "lucky" enough to get into Cheyenne, they were pretty much relegated to watching rain fall. Very little shooting was done, as for most of the three days the rain simply made

#### AUGUST 2014

## 526 West Coast Championship Match Report

Pam Ray for the Ted Zysk t-shirts we wore on Friday night.

Match note: We ran this match all from the Big Bore range for the first time, and it was a major improvement! Thanks to everyone for your understanding as we sorted through the details of transitioning from Small Bore to Big Bore. In discussing this with several shooters, we decided that we will run 22 entries/day next year which will allow us to increase the number of entries by over 50 guns. We will have 11 Small Bore/Field Pistol relays in the morning and 11 Big Bore in the afternoon. Our two match callers and all our target setters worked industriously to get us out on time or ahead of schedule daily. Excellent job guys!

The AIR Pistol events were shot outdoors for the first time. The indoor range was closed due to failing roof trusses and safety. It was an interesting experience to say the least and a major challenge for the Standing shooters as those targets are in boxes that are elevated. Even with interior lighting, the targets were difficult to see with peep on peep sights! Congratulations to Ron Sprafkin for his excellent 59x60 in UAS and Paul Hoadley, our US champion.

There were several accomplishments of note on the Big Bore side. First, Joe Cullison fired a perfect 60x60 in US. We believe that is an IHMSA record. Harry Sharp took the Production title handily with a 60 + 4 shoot-off targets. Harry was also our Unlimited champion. Dan Hagerty and Joe Cullison had to shoot off for match champion in Revolver with Dan taking that title in two rounds of shootoffs. And noting a major accomplishment in Revolver, Dan Bucks fired his first International score to take first place in AAA, Dave Silva was right behind him with a 57 also making a leg into International. Joe Cullison was our Standing champion. Of special note, Weston Horne spent some time with us and fired his first IHMSA entry in 15 years! It was great to see him again, and we hope to see him getting back into the sport. Rick Redd and Mike Abel had a great shoot-off for the UAS title. It took fifteen shots with Rick ending up at the top of the heap!

To no one's surprise, Joe Cullison took both the P & PAS Field Pistol titles. And on the personal accomplishment side of things, John Zum-

walt fired a leg into P International and Steve Parsons shot a leg into AAA.

In the "tiny target" disciplines, Dave Silva was match champion in UASFS and Harry Sharp took the UFS title. Joe Cullison was our UASHS champion and Jim Harris took the UHS championship. And, this was the first year of a very special award, the Ted Zysk Dragonslayer Memorial Trophy. This trophy is a traveling trophy that will be awarded to the high UHS/ UFS aggregate. Our first winner was Harry Sharp – congratulations Harry! Of note, Tyler Abel fired a 58 in UHS jumping him into AAA with a leg into International!

We had entries into Practical Hunter .22LR & Long Course. Congratulations to Lee Markham & Dan Bucks for those championships.

Lots of familiar names were at the top of the heap in the Small Bore disciplines. Harry Sharp was our Production and Unlimited champion & Eric King took Revolver. Of course, Joe Cullison was our Standing and Unlimited Standing champion. Dave Silva was our UAS champion. Vince Leete shot a leg into AAA in Standing, and Marvin Wahl shot a leg into A Stand-

We only award trophies for the four gun aggregates, but the three gun aggs are published. Joe Cullison took the four gun Big & Small Bore, Standing & Field Pistol aggregates as well as Iron Man. His Small Bore Standing agg tied the 60 round world record also shot at the WCC in 2012. Harry Sharp won the Half and One-Fifth Scale aggregates.

Again, thanks to all who came and shot with us and to the JCSA club members for the many hours of labor donated to put on this match. Next year will be our fifteenth anniversary year, and we will have something special for each shooter. You'll want to be here!

**Congratulations** to all who participated and thanks for shooting **IHMSA** 

#### nship Goes Much Better Than Last Year!

A --though you cannot make all of them out in this ople lined up in a row who were eigher youth and/ n in the front is HS student Ally Walter, next is Brent irst IHMSA match, then recent HS graduate Anthony yond him is 11 year old Meghan Frey, also shooting

shooting impossible.

Fortunately, this year was a much better situation! The state shoot was moved into June to avoid the unpredictable September weather that Wyoming seems to often have. People traveled from Wyoming, Colorado, Nebraska, Kansas, South Dakota, and Canada to attend this year's

The firing line at Wyoming was full most of the time.

match. Weather cooperated fully, as the firing line was most often full. Two people. Brent Stoneking and 11 year old Meghan Frev. shot their first official IHMSA match. 2013 HS graduate Anthony Butler recently completed trade school in auto body and just got his first career job, but fortunately he was still able to make it down with his

father Joe Butler to get in some shooting. Anthony started shooting IHMSA a couple of years ago, and boy has he gotten good fast. Joe Butler will be making his first trip to the World Championships this yearbest of luck to him. Representing Region 8 this year in OKC will be Dave Smith, Cindy Smith, Troy Frey, and Joe Butler of

Clear weather made for great shooting conditions at the Wyoming State Championship.

Wyoming; Russell Plakke and Joe Frey of Colorado; and Graham and Shirley Bakken from Saskatchewan.

A huge thanks goes out to Dave and Cindy Smith for putting on a great shoot, as well as putting on great feeds at their house in the evenings.

#### Continued from Page 9

Field Pistol Results:

4 shoot-offs with his PAS gun. Bill Urbank and I are going to take Bob Ochs under our wings and make him shoot some .22 Standing so he can put his terrific scores together for a 100 Club score!

Once again, thanks to all who bust their rear setting up and tearing down. It is appreciated much more than you know. I will see you all in August for sure.

#### ONTARIO

#### CAMBRIDGE, ONTARIO, CANADA Galt Sportsmen's Club June 15, 2014 by Pete Durrant

Another great day for weather and attendance for our Father's Day match, some good scores posted too. We had to have shoot-offs in Big Bore UAS again as Lorena and her Dad Pete both got 40's, Pete beat Lorena by getting all ten shoot offs, Lorena missed one. Someone said to Lorena that she let Pete win because it was Father's Day, she replied that there was NO WAY she would do that!!

Murray Anderson posted a better score this match with his Freedom Arms having tightened up all the loose screws that he found after last month's match!

#### **OKLAHOMA**

#### 2014 OKLAHOMA STATE CHPSHIP Oklahoma City Gun Club May 30, 31 and June 1, 2014 by Jim Fields

With the weather cooperating with cool temperatures and light winds, our state match was a huge success with 158 entries.

Some great scores were shot but the good news was everyone had a great time shooting steel, no matter what their score was. The cookout on Saturday evening was great with head chef Loyd Taylor doing the honors with the hamburgers and brats. Loyd has been handling the cooking for our state and regional matches for a lot of years, and Loyd, we appreciate you

We had a total of 19 perfect 60x60's shot in this match which was a little down from previous years, however 19 wasn't bad. Here's an odd statistic-there were ten 59x60's shot, go

figure!

Folks shooting perfect 60x60 scores were: Gary Crews (2), SB UAS and UASHS; Jim Fields (3) BB UAS, AIR, and SB UAS; Kent Shomber (1) SB UAS; Larry Curts (1) SB UAS; Harry Alder (1) BB UAS; Wayne Hott (1) BB UAS; Woody Liddell (1) SB U; Dave Stone (1) AIR UAS; Jackie Brown (1) SB UAS; John Blue (2) BB UAS and AIR UAS; Jack Tessman (2) BB UAS and SB UAS; Scott Thompson (3) SB UAS, BB UAS, and BB U. Great shooting everyone.

Our AIR match featured three 60x60's, with John Blue winning the shoot-off between Jim Fields and Dave Stone.

Austin Hoover was our high junior in U-AAA SB with a 31x60 with the open-sight gun. Great shooting, Austin. Austin is Gary Crews' grandson. Gary, by the way, was our 500 meter winner. Good shooting, Gary.

High Junior in UAS-AAA SB with a 58, UAS-FS-AA 51, UAS-AAA AIR 52, UAS-AA BB, and UASHS-AA was Ryan Schuff, my grandson. Great shooting, Ryan. Ryan will be 13 years old on July 19th, the second day of the Internationals. Grandpaw is quite proud of this young

Debbie Tessman was high lady in both SB and BB. Congrats Debbie.

We appreciated all of our out-of-state shooters who attended this match, including Joe Frey from Loveland, Colorado. Joe is our new IHMSA News editor, and yes, Joe took home some wood from this match. Joe is a very good shooter in our sport. We appreciate all the work Joe will do as editor of our IHMSA News.

Lever gun winners were as follows: SB Lever Don Faulkenberry, 47x60; Pistol Cartridge, Dan Zimmerman 41x60; Big Bore Lever was Glen Ring with a 48x60. Fantastic shooting.

We had a great response from some of the manufacturers and dealers for our sport of silhouette shooting, which included Midway, Sierra Bullets, CHP's Choice, Brownells, Starline, Benelli, and of course Shilen barrels. Shilen has really been good to us over the years, donating a barrel of your choice for many years. Tony Smith won the Shilen barrel, and Dave Stone won a gun safe-wow! I think everyone won something. Our appreciation goes out to all who donated their products to our state

Our target setters did a great job of moving the match along all three days, thanks guys! My thanks also goes out to all who helped me make this match a total success, including my comatch directors Dave Stone and Jackie Brown who donated their time calling the line, and Larry Curts for trouble shooting our auto-reset system, which we have had very few problems with since we installed it two years ago.

Speaking of our auto-reset system, we just completed the Field Pistol-Lever Gun range which is now on auto-reset along with our Big Bore range out to 200 meters. Push one remote wireless button and 5.000 pounds of targets pop up out to the 200 meter ram and shoot-off line. All controlled with a 9-volt Duracell battery. Thanks to everyone who donated their time on this field pistol range project.

We average 25 relays per day during this 3-day match. Wow! That is a bunch of relays per day.

Those helping with the noon meals were Debbie Tessman and Paula Hott. Paula is the better half of Wayne, and they are all from the great state of Kansas.

See all the results accompanying this match. Shoot safe, shoot straight, and wee you at the next match

#### SWEETWATER, TEXAS Sweetwater Rifle and Pistol Club June 7, 2014 by Janie Porter

Our sport will grow when it is introduced to new shooters. Warren Alkire and Wayne young each brought 2 shooters to our June matchcomplete with wind and clamped targets. Those four guys shot 6 guns and I think we will see them again. Once you shoot steel, paper is kind of boring! As always, thanks to everyone who helped out with the match.

#### WISCONSIN

#### HOLMEN, WISCONSIN Holmen Rod and Gun Club June 7, 2014 by Glenn Tullius

Well, once again the Big River Runt shoot got put into the books-well barely! The morning started out calm, which of course, was just before the storm. We managed to get a bunch of scores in before a short storm hit around noon, so not all was lost. Despite the "only 40% chance" prediction, it really came down for a half hour or so. John Richards and his wife stopped by on the way back to MPLS from a motorcycle trip, and Steve Martens came down from western Minnesota as well to tune up on the Runts before the Internationals. Our regular traveling die-hards from the Marathon, Wisconsin area (Chris and Jim Bung) were not afraid, and packed up their guns and traveled over as well. Myself and match director Dan Rentschler joined the bang and clang chorus also. No 40's on the little devils, but John and Steve got a bunch with some good scores, considering the breezy conditions after the storm.

#### **HUBERTUS, WISCONSIN Daniel Boone Conservation League** May 11, 2014 by Martin Sutliff

Excellent weather for the first match of the year. Don Uerlin showed up, came from "Up Nort" to shoot alongside of the regular suspects. Forties alluded all attendees but some excellent 39's made a showing. The range was in great condition following the annual club clean-up day on Saturday. Don managed a great 39 in UAS, along with Joe Lipp in Unlimited, as at least one of the targets jumped or ducked as the shot went off. There is plenty of room for any traveling shooters to join us this summer should you be traveling to the beautiful southeast Wisconsin area during one of our Sunday matches.

We had very strong winds, and we shouldn't have even had the match, but we did anyhow. We were missing a few shooters, and the guys usually shoot 2 or more guns. We had 3 entries in Field Pistol, and 3 in Small Bore. Thanks to all who came out, and thanks to Steve Manigault for his help on the range. Come on out next

#### REQUEST FOR NOMINATIONS FOR ARIZONA STATE DIRECTOR FOR IHMSA, INC.

This is a request for nominations for individuals to serve as the Arizona State Director. If there is more than one nomination, a ballot will be placed in the July IHMSA News.

Any member in good standing, who is a bona-fide resident of the State for which they nominate, is eligible to stand for election. A bona-fide resident is someone who has resided in the particular State for a period of not less than six months immediately prior to the election.

Members that have been residents of Arizona for at least 6 months and who are interested in serving as Arizona State Director are encouraged to nominate themselves. All nominees require the endorsement of 2 other IHMSA members. Use the following form to submit the nomination.

The Secretary/Treasurer must receive nominations no later than the 31st of August 2014. Candidates will be declared in the September edition of the IHMSA News and a ballot will appear in that edition if more than one nomination is received.

Each nominee may provide a statement of claims of not more than 500 words that cites why he/she should be elected to the office for which he/she is being nominated. Said statement of claims will be published in the IHMSA News if an election is required. To be published in the IHMSA News, the statement of claims must be received by the publishing deadline of August 31st, 2014. Therefore, candidates should submit the statement of claims with their nomination.

NOMINATION FOR THE OFFICE OF ARIZONA STATE DIRECTOR FOR IHMSA, INC.

l do hereby declare my in-
tention to stand as a candidate for the election of the office of Arizona State Director for IHMSA, Inc. I hereby endorse that my name be placed in nominations for said office, and attest to being a member in good standing of the IHMSA, Inc.
Signed:
IHMSA #:
We, the undersigned financial members of IHMSA, Inc. do hereby endorse this nomination of the above member for the office of Arizona State Director for IHMSA, Inc.
Signed:
IHMSA #:
Signed:
IHMSA #:
The bylaws of IHMSA. Inc. require nominations for this office be submitted on this form or

a facsimile thereof to Secretary/Treasurer, Warren Alkire, 1917 Shoreline Drive, Abilene, TX 79602. The Secretary/Treasurer must receive nominations no later than the 31st of August 2014.

#### Idaho Falls Silhouette Association's 2014 Lava Bed Shootout August 15, 16, and 17

#### 40x40

IHMSA: Big Bore, Small Bore, Field Pistol, and Half-Scale.

NRA: Cowboy Lever Action, Pistol Cartridge Cowboy Lever Action, Smallbore Cowboy Rifle, and Smallbore Hunting Rifle.

Friday: Small Bore and Field Pistol categories only. 8:00 AM start. Last gun goes on the line at 4:00 PM.

Saturday: 8:00 AM start. All categories. Last gun goes on the line at 4:00 PM.

Sunday: 8:00 AM start. All categories. Last gun goes on the line at 1:40 PM.

#### \$9.00 for each entry.

BBQ dinner on Saturday evening in our IFSA Range Building, 6:00 PM. Bring your own meat. All else will be provided, including beer from Marcellar's.

GUN RAFFLE: To Be Decided (TBD).

PRIZE DRAWING: Numerous door prizes donated by local dealers. One drawing ticket per shooter.

For the door prize drawings, shooter must be present at dinner to win.

### LAS VEGAS, NEVADA Desert Sportsman's Rifle and Pistol Club May 18, 2014 by Paul Habig

At least the Sin City Silhouette Shooters are back to shooting Big Bore. After cancelling for 6 months in a row, we showed a lot of rust. Val Shaver did quite well in UHS with a 38 but most everyone else needs to get their sight settings again. No offense guys! Shoot well, take care.

Half-Scale R	lesults:	
UHS-AAA	Val Shaver	XP22PPC 38
	May 25 201/	1

The Sin City Silhouette Shooters showed up in big numbers and shot some stuff we have never shot before. Bob Rousseau shot our first ever Practical Hunter Short Course in Field Pistol with a .38 Special revolver and cross sticks, and Andy Willey shot Practical Hunter on the .22 range.

Linda Rousseau shot a very nice standing 15, giving her a leg up into A class. Joe Kennedy shot a disappointing Field Pistol score, so he shot US on the .22's and shot a 37. We had an International class UAS shooter not do that well. Speaking of Pete, he was cruising to another 40 until he shot under 4 of his first 5 rams, and he cheated this month (practicing).

Mel Douglas slipped this month but I've already caught him cheating as well, so I'm sure he'll be fine in July.

Gene Buczak is awaiting new glasses so he couldn't shoot this month, but Robert Knowles would have made him work in Field Pistol. I just wish Robert would shoot that beautiful FA .41 Mag he won at the Internationals a few years ago. If he'd let me shoot it, I'd shoot Field Pistol every month.

Debi and Don couldn't make it this month, but I'm sure Debi would have beaten Don somewhere

Gary DeCoster cheats with me on a regular basis and I don't know why he struggles come "match day". There's always. "next time". Shoot well and take care.

#### CALIFORNIA

#### LOS ANGELES, CALIFORNIA Los Angeles Silhouette Club May 10-11, 2014 by Jim Harris

Wind! Sunday was basically blown out by wind, and Saturday was no picnic. Once again, thanks to our valiant target setters. The target setters worked hard to reset targets knocked down by the wind. But in the end, sand was being blown into actions as well as targets falling down.

Congrats to Jerry Napier, shooting his first perfect score in Big Bore Half-Scale Unlimited Any Sight. The Courage Award goes to Steve Hannawacker for his revolver entry in that awful wind!

No shoot-offs this match, so I'm awarding Ted Matthies the Big Bore match winner due to his terrific 40 in Production, plus a 40 in Unlimited. Congrats, Ted! Small Bore had no Open Sight entries, so there is not a match winner.

Mark Woss was the top score in Rifle—congrats Mark!

Hopefully the June match will have kinder conditions for the competition. This will be the last chance to tune-up before the West Coast Championships at Grants Pass, Oregon.

#### NASHINGTON

#### PUYALLUP, WASHINGTON Paul Bunyan Rifle Club June 7, 2014 by Bret Stuntebeck

We had 4 shooters this month putting 14 guns across the line. Weather was excellent. As usual for this time of year, a little weed eating needed to be done, or should I say A LOT. The weeds and grass had taken off since the last match and was several feet high on top of the pig berm, obstructing the turkeys. Chicken, pig, and ram lines also need a little grooming. All part of living in the evergreen state, I guess. The evergreen in this case was grass and weeds. Ha ha ha.

Onto the results of the match. There were no BB 40's this month. In fact there were only two BB entries shot and two Half-Scale entries shot. Everybody was tuning up the Small Bore guns this month for the up coming WCC in Grants Pass. Vince Leete posted an excellent P-Int, 39 and I posted a US-AAA, 29 for BB entries. I did really well on the chickens, pigs and rams knocking down 10, 9, and 9 respectively, which means I only got ONE TURKEY!! I just could not find them. I had 10 rounds left in the box and between relays I fired those 10 rounds at the turkeys to try to figure out what happened. With

the same settings I got 7. Go figure. In Half-Scale Vince Leete fired a UHS-AA,

24 and Joe Stumpf fired a UHSAS 28. On the Small Bore side was where all the action was this month. Vince Leete fired another UAS-INT, 40. Nice shooting, Vince. Joe Stumpf posted a UAS-AA, 36. One more and you would have had your second leg into AAA. Way to knock 'em down Joe. Steve Bishop posted a P-AAA, 31. Looks like he is figuring out that new

We had four entries in Standing this month. Vince Leete took the top spot posting a S-AA, 22, followed by myself with a S-AAA, 21, Joe Stumpf a S-AA, 19, and Steve Bishop a S-A, 10. There were two Field Pistol entries by myself

with a PAS-AAA, 29, and a P-AAA, 20. Our target setters once again did a fantastic

job. Until next time shoot straight and be safe.

#### SOUTH DAKOTA

#### **REGION 8 CHAMPIONSHIP** PRINGLE, SOUTH DAKOTA Southern Hills Silhouette Club July 3-6, 2014 by Richard Pattison

Another Region 8 match is in the books. We had a great turnout with 240 entries crossing the line, and shooters coming from 8 different states as well as Canada. States represented were South Dakota, Wyoming, Colorado, Nebraska, Kansas, Missouri, Minnesota, and California, as well as the Canadian province of Saskatch-

As is often the case, Joe Frey was the first person to the line waiting for the match to start and the last one off of it as the match ended. Having to spend a day in Deadwood cut into his entries as he only was able to get in 18 guns this time-but you have to keep your spotter happy too! Chris Lewis got her first 5 chickens standing, then her loving spotter Jim helped her out, noticing the ground wasn't level where she was standing. He grabbed a shovel and leveled it out-however, that didn't allow her perfection to continue much longer

We had great weather and took full advantage of it, with cookouts on Friday and Saturday, the usual cleanup of leftovers on Sunday, and lots of great fun and conversation.

We really appreciated the large number of women shooters at our match as well, and they put up some great scores. Our lady shooters included: Chris Lewis, Shirley Bakken, Ally Walters, Vicki Schlautmann, Pam Frey, Meghan Frey, Linda Lanning, Jean Scoggin, Cindy Smith, and Sherri Johnson.

We hope everyone can come out and join us for our South Dakota State Championship August 28-31st. We will be celebrating 20 years of shooting at our range in Pringle. Please come out and join us for some great friends, food, and of course, shooting!

#### **BISMARCK, NORTH DAKOTA** Bismarck Mandan Rifle & Pistol Assn. June 21, 2014 by Ray Utter

The first North Dakota match in a few years had 6 shooters from across North Dakota and a few from Minnesota. We had 17 guns at the line. The shooters had typical North Dakota weather to deal with - a little wind, some sun, mix of sun and clouds to help with sight setting, and then topped with a little rain to get everyone running to cover guns and supplies. But I think everyone had a good time shooting again in North Dakota!

#### Two Days Into the World Championship, Scores Were Soaring!

by Joe Frey

By Wednesday July 16th, shooters, campers, tents, and helpers were already starting to show up in numbers at the Oklahoma City Gun Club, in preparation for the beginning of the IHMSA World Championship that would begin on Friday July 18th. Unfortunately about that time, the rain decided to show up as well!

Wednesday and all day Thursday saw a steady and sometimes heavy rain fall, though it did bring cooler temperatures with it as well. The truck delivering "port-apotty's" got stuck and had to get pulled out with a skid loader. A large RV got stuck... and wasn't able to get pulled out until the next day, despite the efforts of that skid loader plus another tractor. Things were starting to look messy for the target setters as the red clay on the downward slope of the range continued to have pools of water develop.

Timing is everything though, and the rain stopped just in time for the 38th Annual IHMSA World Championship to get going, and it kicked off with a roar. Several 80x80's were shot on the first day, including two in Unlimited Fifth-Scale Any Sight. It is believed that prior to 2012, nobody had ever shot an 80x80 in UFSAS, when two people did it at OKC that year. Now, two people did it in just in the first day—Woody Liddell of OK and Steve Martens of MN! And there are several days with lots of great shooters still to come.

Speaking of 80's, has anyone out there ever heard of a 12 year old shooting an 80x80? Well, Ryan Schuff did it (on his last day of being 12 years old, by the way—his 13th birthday was celebrated on the range the next day). He had shot his first 40 at his previous match. That is some incredible shooting by a great young man.

Both Big Bore & Small Bore UAS 80x80's are then followed by five preliminary shoot-off targets, thus to cut down on the extensive amount of shoot-offs on the final day. After the first two days, Luis Britez of Paraguay had scored an 80+5 in Big Bore UAS, as had Barry Whitford, Jackie Brown, Joe Frey, and Brett Dunlap. Sebastian Gorostiaga, also of Paraguay, shot his first 80x80, and then got the first 4 shoot-off targets... but it wasn't meant to be

Small Bore UAS had even more excellent shooting, with 15 80x80's in the books, including 80+5's by John Anderson, Dave Silva, Kevin Murata, Scott Thompson, Woody Liddell, Chris Dunlap, John Blue, and Jackie Brown. Luis Britez just missed matching his Big Bore performance with an 80+4, as did Jim Fields, Joe Coleman, and Dave Stone.

Woody Liddell (shown standing in foreground) kicked off the first day with a perfect Fifth-Scale score.

OKC Firing Line: (bottom picture). From Day One, the firing line saw a lot of action.

Joe Cullison followed his 60x60 performance at the WCC with a fine 74x80 in Big Bore Unlimiting Standing to set a high early bar for that category. There are some fantastic standing shooters here, and with the low wind conditions we've had so far, it will be fun to see people try to surpass that great standing score—it's going to be tough!

With the normal deadline for the IHMSA News being well beyond this typical date, we want to thank Eido Printing for their flexibility in allowing us to get just a brief mention of the kickoff of IHMSA's signature event, the World Championship. There will be much more to come in the September edition as this 8 day event unfolds. For those of you that can't wait for next month's issue, you can go to the ihmsa.org site and find some information about it under the "The World Championship" heading.

Richard Pattison (left) with Region 8 Director Dave Smith. Dick Pattison has been instrumental in encouraging silhouette shooting in the Rocky Mountain West.

## Qualifications for Region 8 Shooter of the Year Announced

At the awards of the Region 8 shoot on July 6th, the qualifications for the "Richard Pattison Region 8 Shooter of the Year" were announced.

First of all, for those that don't know Dick Pattison, he has been the SD State Director plus match director for 30 plus years. The gem of all Region 8 ranges is a privately owned range, owned by Mr. Pattison, which he continues to put countless hours into. Automatic reset targets, electric & water camping available--this place looks like an RV park as many people keep their campers there during the shooting months, and some leave them year around. There is always an open invitation to anybody to stay there, as he lives in Rapid City, about an hour or so away. Mr. Pattison represents everything that is right with IHMSA and just life in general, which is why this award is named after him.

So here are the parameters for being named the "Richard Pattison Region 8 Shooter of the Year":

- Must reside in Region 8.
- Must shoot at least three different ranges, two of which are Region 8top scores don't have to come from all three, but you must have shot at least three different ranges--it is good to get out and meet the many great people we have in IHMSA.

- The award is based on cumulative top scores from 4 guns in a calendar year--P, U, R, and S. Can be either BB, SB, or a combination of both (for instance, you could put in your best standing and R score from SB with your best U and P score from BB). Submit your best score in each of these four disciplines.
- It is based on a calendar year (January 1-December 31).
- Overall scores must be submitted by January 15th of the following year to the Region 8 director, Dave Smith.

This award has several intents. It is meant to encourage to get people to go to other ranges and to expand the number of guns they shoot. It will also then recognize great shooting. And most of all, it will give appropriate honor to a great IHMSA icon in Richard Pattison.

We are just halfway through the year, so there is a lot of great shooting to be done. Keep track of your best accomplishments of P, U, R, and S as the year progresses, get them to Dave Smith by January 15th of 2015, and you may be the 2014 "Richard Pattison Region 8 Shooter of the Year". Good luck to everyone, and most importantly, keep shooting!

## IHMSA is Growing Because of . . .

New silhouette ranges, such as the one at the Bismarck Mandan Rifle and Pistol Association in North Dakota. On June 21st, shooters from across North Dakota as well as a few from Minnesota kicked off the first sanctioned IHMSA match in North Dakota in a few years.

Several years ago, North Dakota had silhouette ranges in Williston, Dickinson, and Bismarck. Then a flurry of events occurred which drastically affected silhouette shooting in North Dakota. The driving force for matches in Dickinson had stopped shooting and matches stopped there. About the same time, the IHMSA Chairman for the Bismarck range passed away. In 2011, the Williston range was washed out in a flood, and then the IHMSA targets were stolen in 2012.

Fortunately for North Dakota shooters, IHMSA is up and running again in Bismarck. Early in 2013, new match director Ray Utter moved to Bismarck from Williston, and went to work to get silhouette shooting back on track in his state. Starting from almost nothing and working on scheduling matches at the busy outdoor range proved to be challenges, but those efforts came to fruition this past month. Ray says there were a couple of minor problems that showed up with this first match, but nothing that won't be fixed by the July match.

Other matches in Bismarck for this

year are scheduled for July 20, August 24, and September 27. If you find yourself traveling through that area, pay Ray Utter and the Bismarck Mandan Rifle & Pistol Association a visit. IHMSA certainly appreciates the volunteer efforts of all of our members, and this is just another great example of how we can keep this sport growing.

A big thanks, and congratulations, to match director Ray Utter and all of those who worked to help make this new silhouette range a reality in North Dakota.

## Change of Address:

Cindy at HQ has several members for which she does not have a current address for, as she has gotten

"Return to Sender"

on some items.

If you have moved recently, please email (preferred) or call her and update this information.
