

The East Coast Championship has really set the bar high as we enter the heart of the silhouette season. A total of 223 entries were shot at this year's event, which is in just its second year of existence. That is a significant increase over the 153 entries pulled in last year. The fact that there was that big of a jump in entries is even more impressive when you factor in the less than ideal weather, which varied from rain, strong winds, and changing cloud conditions.

Shooters from as far away as New York converged to Lawrenceburg, KY for this event, and there was some impressive shooting on display. Several people made legs into their next class, and two jumped class. Jim Kesser shot an impressive 54x60 in Big Bore Unlimited Standing. I'm not sure what the World Record for a 60 round match is in BB US, but I know the Small Bore record is 57x60, so that is a heck of a performance by Jim. In addition, three people broke into the 3-gun Presidents 100 Club.

A big congratulations goes out to Greg Rhineheimer and all of the people involved in making the ECC a rapidly growing event in IHMSA. For full details on the ECC, please see this month's match report.

President's Column

Well it appears I was a little early in claiming Spring was here in Minnesota. It snowed today; of course, it didn't stick, but with the rain came snow. We did however get to hold our 25th IHMSA Shooting Clinic this year. Ken and Tom Acheson have been very faithful to scheduling and putting on this clinic. Thank you both for all your support.

We are fast approaching the World Championships set for 7-18-14 through 7-25-14, if you haven't already, be sure to sign up for shooting times. To date, we have 20 shooters and 170 guns scheduled.

Again, I think that change is good; Cindy and Dave Smith have already come up with some cost savings ideas. Some require IHMSA Board approval, so we will be tackling those items at the annual IHMSA Board Meeting. I will put an agenda for this meeting ready for the next issue of the *IHMSA News* so you can all see what is being discussed.

So if there are items you wish to have changed get them to me as soon as you can and they will be presented to the IHMSA Board.

I also want to thank Joe Frey for taking over as *IHMSA News* Editor and tackling the job of getting it on the IHMSA Website to save costs.

Please note that Steve Marten our current Vice President will not be pursuing this position after his term ends this year. Look for the nomination form in the last issue and this issue, we need someone to step in and volunteer.

Until next time, shoot often and safely.

REQUEST FOR NOMINATIONS Office of Vice President of IHMSA, Inc.

Article VII, Section 1 of the IHMSA bylaws state the following. "The officers of the corporation shall consist of a President, Vice President, and Secretary/Treasurer. Officers shall assume their official duties following the close of the annual meeting and shall serve for a term of three years or until the election and qualification of their successors. To ensure stability, the term of office of the officers shall be staggered."

For 2014, the office of Vice President of IHMSA, Inc. is scheduled to be filled by election of the Membership held prior to the 2014 annual meeting. The individual elected shall serve a three year term ending in the year 2017.

Candidates for the office of Vice President should use the nomination form provided below to declare their candidacy. The nomination must bear the signature and endorsement of the nominee and signatures of two other financial members of the corporation.

The Nominations Officer must receive nominations no later than the 31st of July 2014. Candidates will be declared in the September edition of the *IHMSA News*.

Each nominee may provide a statement of claims of not more than 500-words that cites why he/she should be elected to the office for which he/she is being nominated. Said statement of claims will be published in the September edition of the *IHMSA News*. To be published in the *IHMSA News*, the statement of claims must be received by the publishing deadline for the September edition which is August 2, 2014. Therefore, candidates should submit the statement of claims with their nomination.

Nomination for the office of Vice President of IHMSA, Inc.

do hereby declare my intention to stand as a candidate for election to the office of Vice President of IHMSA, Inc. I hereby endorse that my name be placed in nomination for said office, and attest to being a member in good standing of IHMSA, Inc.

Signed:_____

IHMSA #___

We, the undersigned financial members of IHMSA, Inc. do hereby endorse this nomination of the above member for the office of Vice President of IHMSA Inc.

Signed:	
IHMSA #	
Signed:	

IHMSA #____

The bylaws of IHMSA, Inc. require nominations for this office be submitted on this form to Nominations Officer, Dell Taylor, 8899 Midvalley Drive, West Jordan, UT 84088. The Nominations Officer must receive nominations no later than the 31st of July 2014.

IHMSA is going electronic Read all about it on pages 8-9

June 2014

By Ken Horowitz

While it's fun to shoot my S&W Model 629 Classic, full house 44 magnum loads aren't fun for very long. After about 25 rounds in a session, I've had it. It's much more pleasant to shoot this gun with "light magnum" loads or 44 Special cartridges. Like the ubiquitous 357 Magnum/38 Special combination, many shooters like me favor the lighter 44 of the 44 Magnum/44 Special combination.

For people who do not reload, one of the further features of using factory 38 Special cartridges over 357 Magnum cartridges is pricing. 38 Special cartridges are significantly less expensive than comparable 357 Magnum loads and there are promotional 38 Special loads (during "normal" supply/demand times) that are even less costly. This is not the case with the 44 Special v 44 Magnum choice, the former being considerably more expensive and the choices quite a bit fewer.

For reloaders, the cost of brass is about the same for either the 44 Magnum or 44 Special, comparing brand to brand for the different cases. However, due to the sheer number of available spent 44 Magnum cases, mostly my own, I have no need to buy cases, just recharge them. While I have had many hundreds (I don't think thousands, but maybe) of 44 Magnum cartridges and cases pass through my hands, the number of 44 Specials has been minimal. At my most recent reloading session, as typical, I had only empty 44 Magnum cases and no 44 Special cases at all. Having a sufficient supply of full 44 Magnum loads, my goal was to go to the light side on loading.

The options are to trim the 44 Magnum cases to 44 Special length and use published loads for true 44 Special performance or approximate 44 Special performance by loading full length 44 Magnum cases with adjusted load recipes. Unfortunately, there is not very much reliable source data for loading the larger cases to true 44 Special performance. The exception is for some publishers' data for lead bullets in Cowboy Action shooting, as for example, that published in Hornady's Reloading Manual. I have yet to trip over similar data for jacketed bullets. It may be there but I've yet to see it.

The extra bit (approximately 1/8") of case length of a 44 Magnum case over a 44 Special case creates enough increase in case capacity to affect actual range results – not better, not worse, just different. I don't usually like to fiddle with published data and wish the powder, bullet and reloading manufacturers would publish "Safe Squib Loads for the 44 Magnum," but I do have enough experience to accomplish my goals safely. Besides, for all the labors of reloading that I enjoy, the one that I really don't relish is case trimming. Whether with manual crank or motorized, taking a full 1/8" off a lot of cases, then chamfering inside and outside the mouth, is not for me.

44 Special loads or loads that approximate 44 Special performance are quite suitable for Field Pistol. While 44 Magnum loads are Field Pistol legal, the battering that a shooter will take is unnecessary for the task at hand. My very first IHMSA competition back in the last Millenium was entered using the aforementioned S&W Model 629 with Magnum loads. I shot one entry in Big Bore Standing and one in Field Pistol. Those 80 rounds (why bother with the shootoffs since I hardly hit anything in Big Bore anyway) were 55 more than my stopping threshold of 25 rounds. At that point, I knew I had trajectory problems with Big Bore and I was way overpowered for Field Pistol. On the positive side, my appetite for IHMSA was whet and here I am today.

Graduating to more IHMSA suitable guns and cartridges, I don't use the 44 Magnum for Big Bore Standing anymore. At our range in Falls Township Rifle and Pistol Association, the baffles that cover the top of the range to prevent flyers from leaving the grounds are too low to allow for the trajectory at the 200 yard rams. The only way for me to clear the baffles while holding over on the rams is to bend my knees to lower myself a few inches. That's hardly the way to establish a good firm shooting stance. While I could shoot Big Bore from a Creedmore or other grounded position, there are much better choices than the 44 Magnum.

Having experimented with various 44 Magnum loads over the years ranging from 180 grain to 300 grain bullets, the trajectories are reasonable out to the turkeys, but all drop a nominal three feet from the turkeys to the rams. Some are as "flat" as 32" or so and some go as high as around 40+" so I've lumped them all into about three feet. I run out of clicks for that kind of drop, so my options are guessing the holdover which totally blocks out the rams, or using a separate front sight that easily pops into the spring-loaded detent of the barrel. Neither of these choices is ideal and I'm not sure, one way or the other, if changing the front sight in the midst of a relay is IHMSA legal. I can't find a rule that holds against it, but it just doesn't smell right to me.

On the other hand, at Field Pistol distances, the 44 Magnum is not affected by the ridiculous drop at Big Bore distances. However, switching to 44 Special performance levels also results in reasonable drop and keeps the power and recoil to an also reasonable level. Hence, that's what I've been shooting for Field Pistol lately.

Right now I'm reloading a lot of 302 mixed cases, all of which have been prepped through the cleaning, polishing, sizing, decapping, and belling phase. For bullets, I have both jacketed and lead on hand. Either way, I'll go with a standard weight 240 grain bullet and the choose a powder charge that covers all 302 rounds. Regular large pistol primers have worked just fine for me with all the powders I've tried. However, I do have one partial box of CCI 350 Magnum primers on hand for which I have no other use, so in these days of iffy supply, I will use them up on some of the cases. Since the 302 cases cover several brands, I'll only use the Magnum primers on a few of them, separating the final loaded rounds by headstamp. The largest sub-lots are Federal and PMC, covering almost 200 of the overall quantity;

-these will get regular CCI 300 primers. After that, I'll choose a safe powder and charge from my dwindling supply, keeping in mind that the hotter Magnum primers will give different results for those cartridges in which it is used.

Recently, a very knowledgeable IHMSA shooter and reloader reminded me of the sometimes wide disparity of data even when using only those sources that I would deem reputable. It is always best to check several sources before proceeding to reload. If there is ever any doubt as to the safety of a load, there should be no choice in the decision to be made. Simply don't try it. Just as there are too many reputable sources to necessitate the use of data from lesser known sources, there are too many well established safe recipes to negate the use of any that are suspect.

Practical Hunter - A Great Starting Point For New Shooters

Though it has been an official category for a couple of years now, there seems to be a lot of questions or simply a lack of knowledge of Practical Hunter. This is a shame, because this is probably the best event IHMSA has to offer for the new or inexperienced shooter.

in a nutshell, there are three Practical Hunter classes, one each for Big Bore (called Practical Hunter Long Course), Field Pistol (PH Short Course), and Small Bore (.22LR Course). Each are shot at the same targets and distances as any other event within that discipline—i.e. PH Long Course is shot at Big Bore targets and distances, PH Short Course is on the Field Pistol range, and so on.

Here is what makes Practical Hunter different from other offerings in IHMSA. First of all, the beginning shooter can shoot off a rest, such as a bipod or sandbags. This in itself is a fantastic way to get an inexperienced shooter started, as it is much safer than using your body for support, and the shooter can focus on foundational principles of shooting such as sight picture and trigger while simply getting comfortable with not only the firearm, but also range commands, timing, and sight adjustments. Once the shooter exceeds A & AA (A=0-15, AA=16-25), then

they can no longer use the bipod or bags, and are left to the same requirements as any freestyle category as far as support is concerned. But by this point, they have gotten some trigger time and familiarity with the firearm as well as how a match runs, so they have had a good introduction in which they also were able to have had some success in hitting targets.

There are a few other key differences with Practical Hunter. There is no designation between open sights or scopes, but there is a limitation of 6x for those using scopes. There is no barrel length restriction, but overall length of the firearm cannot exceed 21 inches. This eliminates some of the unlimited guns, thus making this more of a production-type event, which was part of the intent with installing this category.

Rules for Practical Hunter are printed monthly on page 3 of the *IHMSA News*, so if this is a category you haven't heard of or tried, cut it out and put it in your shooting box. Maybe your local range or club isn't aware of it, but since there is no extra target setup needed, there is no reason a club couldn't or shouldn't offer the category. For new or less experienced shooters, this is a great way to get them started in IHMSA.

Installment Plan Life Memberships

The Installment Plan for Life Membership allows you to purchase a Life Membership by making four monthly payments of \$105.00 each (a total of \$420.00), or in the case of a spouse two \$50.00 each (a total of \$100.00). When your last payment is received, Headquarters will send your Life membership card, certificate, and pin.

If you're in the middle of your membership year, you can purchase a Life Membership now and apply the unused portion of your current membership. Call IHMSA Headquarters at (801) 733-8423 to find out how much credit you'll received for your current membership.

Life Membership is a great way to enjoy IHMSA for years without the hassle of paying yearly dues and show your support of IHMSA at the same time ... order yours today!!!

Aliseffects

Headquarters Phone Number 801-733-8423

SANCTION FEE NOTICE

Please make every attempt to send in your Sanction Fees promptly as the Sanction Fees help us pay for the printing of the Match Results.

Infrequently we have a club(s) that does not remit sanction fees for a match held. We understand club officers are busy, so we just send a gentle reminder. Still failing to receive the fees, a second notice is forwarded.

A final notice is sent if fees are still delinquent. After the final notice, the match dates will be deleted from the match schedule and the club's sanction will be withdrawn until the fees are received.

New IHMSA Practical Hunter Classes

IHMSA is proposing to add 3 new Practical hunter classes on a 2 year trail basis to start Jan. 1, 2011 and end Dec. 31, 2012. These are optional classes to be offered at the discretion of the local match directors. They not required to be offered at any State, Regional, or World Championship match. The purpose of adding these classes is to offer new shooters with hunting style handguns a place to compete with like style

handguns in IHMSA. New Class Names

Practical Hunter Long Course Practical Hunter Short Course Practical Hunter .22 LR Course

Class descriptions

All 3 classes are to be shot from any SAFE freestyle position including Prone, Kneeling, Sitting, or Standing

The Practical Hunter Long Course will be shot on the 200 meter Big Bore range with the standard full size targets at their normal ranges.

The Practical Hunter Short Course will be shot on the 100 meter Field Pistol range with the standard targets at their normal ranges. The standard FP straight wall car-

The Practical Hunter .22LR Course will be shot on the 100 yard Small Bore range with the standard full size targets at their normal ranges.

Class Rules

Any hunting style handgun with a maximum overall length of 21 inches.

Optics are allowed up to a maximum of 6x power.

Gun must be as manufactured with only cosmetic modifications

Ported barrels are allowed as long as they are shot from a safe position.

A rest such as a bipod or a sandbag supporting the barrel in a prone position may be used by a new unclassified shooter and by shooters in classes A and AA.

Classification Scores

4	0-15
٩A	16-25

Follow-Up to Ken Horowitz April Article

by Bill Farone

I wanted to give Ken Horowitz some feedback on his very nice article in the April issue. It is always good to have points regarding loading, reloading and appropriate cartridges in this sport because of the difficulties compared to simply putting holes in paper.

The reliance on properly published data is very good advice. Some of the people putting loads information on the Internet are way out of line. There is

another point, however, even among the "professionals". There is a wide difference of opinion on loads among the equipment manufacturers. Lee, for example, is way on the end toward safety while Lyman is on the end toward performance. Richard Lee, in the Modern Reloading book does not recommend the use of any magnum primers yet the data shown for the .357 Magnum taken from Hodgdon and others was determined with magnum primers. If

Letter to the Editor

To IHMSA.

I have been a life member for 30plus years and have enjoyed the sport of shooting steel for a long time. It is my hobby along with other aspects of shooting, reloading, and tinkering. I will soon be 72 and my eyes are not what they were, but thanks for this new class Practical Hunter. I have a new lease on the sport. I would not have ever guessed how difficult this game is shooting with a scope on a production gun. That is difficult for me.

I understand times are tough so what I am going to do is send membership dues at \$50 plus the \$20 for the IHMSA News (I do not do computers!!!) and I will do this

every year for as long as I can lay down and hold that gun and be able to get up again.

Maybe I should make this a challenge to other life members. I have been truly blessed and this outlay of extra cash won't hurt. Besides this is a sport I truly love so I must support it.

Thank you to all at Headquarters, all match directors, and all who have worked so hard so others can enjoy a mighty good sport.

Sincerely, Larry Fobes 1682 L you want an extreme example of how the professional advice can vary, here are a few. These came to my attention because I recently purchased a Henry Big Boy .44 to go with my Ruger .44 Magnum Super Blackhawk.

For a 200 grain lead bullet, Lee gives a starting load of 6.2 grains of IMR4756 and a maximum of 7.0. The maximum value also agrees with IMR data for a Cast LRNFP. For the same 200 grain lead bullet (Cast LP), Lyman gives a starting IMR 4756 load of 12.3 grains and a maximum of 15.5! These differ not by a few grains, but by a factor of 2. A similar situation exists for IMR 800-X, where Lee gives the starting load as 5.2 grains and the maximum as 5.9 while Lyman gives 12.0 and 15.1 grains respectively.

I have over 50 years behind me with this stuff, but I think we must admit that to a newcomer the above professional sources will cause great confusion. The Lee loads give velocities in the 700 fps range while the Lyman loads are in the 1100 to 1200 fps range. The Lee Power Factors are 145-162 while the Lyman are 196 to 268. It appears those powders work over a very wide range for this weight of bullet. The Lyman loads are definitely the more useful for IHMSA. The Lee loads might scare one off using those powders.

Mr. Horowitz also mentions in the article the "high pressure with low load" phenomena. I desperately tried, with no success, to find the reference that I have among my books. But I distinctly recall that a Department of Defense Laboratory did testing and was able to reproduce the phenomena if you loaded the 2.7 grains of Bullseye many times in enough cartridges. It does happen, as cataloged by some of the more "famous" folks like Ackley. As Ken pointed out, most times it is double charge but not always.

I happen to be interested in such stuff

as I am a Ph.D. Physical Chemist which is why I recall it, and the science underpinning this kind of thing is well known. We all know that if I tap the cartridge on the base before I put it in the gun and fire it I will get a much higher velocity than if I tap it on the nose and fire it. The distance to the primer matters.

Now suppose, for the sake of explanation, I put half the powder next to the primer and the other half next to the bullet. They ignite at separate times and create separate pressure waves. Pressure waves, if the powders were compact enough, behave like "solitons". A soliton is a wave that is somewhat like a "particle" because it keeps its shape and amplitude. These two waves in the confined space of the cartridge are headed in opposite directions. They reinforce somewhere between the two points and the pressure spike becomes real. This has been demonstrated with water many times and you may know the effect in plumbing by the term "water hammer". Usually this is caused by someone shutting off a valve abruptly and creating back flow waves which then hit water heading in the direction toward the valve. It can burst pipes. Apparently the similar phenomena, although rare because you have to have the powder in just the right place, can burst cartridges.

Because this effect can be reproduced to a certain extent if you try over and over again, I am of the opinion that there is a very small but real risk to low loads in big cases. This may be emphasized if one uses magnum primers with a low load.

I generally get as much data for a given powder from all reliable sources and put it in a table. Many of us do this I am sure so one can see the anomalies. Since they are all "good" and "professional" sources they are not "right" or "wrong", but simply cover a wide range of purpose.

To Friends of Betty Tolbert For those who are acquainted with phone calls, visits, and prayers, with a Betty Tolbert of Cheyenne, WY, she wanted to pass along some information to

her IHMSA family. Betty has suffered from a recent illness, but she is back home now and doing well. She wants to send a big thank you out to everyone for all of the support, cards,

special thanks to her children, Nancy LaCroix, Lorene Thompson, and Dave & Cindy Smith. She said all the support from her IHMSA family has helped so much.

This information is being passed along with love from Betty Tolbert.

Final Farewell - LEFT THE RANGE

David McGowen

It is with great sadness that I have to relay the news of the death of my father, Dave McGowen. He passed away on April 14. 2014.

Dad was a lifetime member of IHMSA and still had his membership card in his wallet when he died even though he had not been able to compete in sanctioned matches for many years due to his health. He loved all shooting sports but he especially loved IHMSA. My brother and I could get into the Creedmoor position before we could walk. We logged many, many miles with him going to matches.

Even though he could no longer compete, he still did a lot of awards for IHMSA in recent years as the owner of Dave's Shirt and Trophy. My mom, Dwana McGowen, will still be running 🍒 the business in his absence. Dad made a lot of lifelong friends through IHMSA.

Thanks,

Now taking orders for the **New Single Shot**

Model 2008

Freedom Arms, Inc. **Bear Track Cases**

314 Hwy 239 Freedom, WY 83120 Phone (307) 883-2468 Fax (307) 883-2005 www.freedomarms.com www.beartrackcases.com freedom@freedomarms.com

MARKSMANSHIP COMPETITIONS

The Burris Cup:

Scoped .22 Long Rifle caliber handguns only. Your best 5-shot group at 100 yards or meters. Guns may be bench rested over any solid rest as long as the gun is not in a Ransom Rest, vise, or any other mechanical clamping device. Lying on your back in a freestyle position and piling sandbags by your body for support is legal. This will allow scoped guns set up for creedmoor to better compete.

The Weaver Trophy:

Scoped centerfire handguns. Your best 5-shot group at 100 yards or meters. Guns may be bench rested over any solid rest as long as the gun is not in a Ransom Rest, vise, or any other mechanical clamping device. Lying on your back in freestyle position and piling sandbags by your body for support is legal. This will allow scoped guns set up for creedmoor to better compete.

The Merit Challenge:

Centerfire handguns with iron / open sights. Your best 5-shot group at 100 yards or bull zone.

meters. Groups must be fired from an IHMSA legal freestyle position. No benchrest or artificial support allowed.

The Daisy Avanti Trophy:

AIR Production guns with Iron/Open sights. Your best 5-shot group at 18 yards. Groups must be fired from an IHMSA legal freestyle position. No benchrest or artificial support allowed.

General Rules: All entries must be shot with IHMSA legal guns. Production, Revolver, and Unlimited guns are allowed in the Burris, Weaver, and Merit classes.

Witness: Winning groups must be witnesses by an IHMSA or NRA member. Eligible winning targets must be signed and dated by the shooter and witness. Also, please include the shooter's IHMSA number and the witness's IHMSA or NRA number by their name. A witness is not required to enter but is required to win.

Targets: Targets submitted must contain no more and no less than 5 shots in each

Marksmanship Program

Records Program

Bob Smith of Aurora, CO is on the board! Bob is the revolver guru of Region 8, and Competition bullet. It's a work in progress... is one of the top all-around shooters in that region.

Bob turned in a .697" target that he shot with a 14" scoped Contender in .223, using IMR 3031 and 50 grain Hornady bullets. I thought that was pretty good shooting by Bob

Well, that didn't last long. A couple of days later, there was another submission in my mailbox from Bob. This time it was an XP-100 chambered in .22-250, with a combination of IHR 3031 and 55 grain Hornady's. I don't recall exactly what I said when I opened the envelope, but I do remember hearing my daughter in the other room say, "Dad! Language!" This 5-shot target measured in at .471". Not to be a woulda-coulda-shoulda type, but 4 of those shots were at .278! Congratulations Bob, this is excellent shooting.

So now I'm kind of embarrassed to mention my submission next to Bob's accomplishments, but I finally was able to get out to the range with my new Bullberry .300 Whisper and had a 1.121" group with that, using H-110 to push a 168 Nosler Custom

	<u>Weaver Trophy Standings:</u>	
Name	Group	<u>Witness</u>
Bob Smith	.471"	Yes
Bob Smith	.697"	Yes
Joe Frey	1.121	No

Targets can be sent to the address below. If you desire to have targets back, I can certainly return them to you. Be safe, and keep shooting.

by Joe Cullison

Another slow month but we did have some fine scores come in. Still no entries into the 4-gun (140) club though. And the US (35+) is still up for grabs.

Jim Kesser {OH} shot a very nice S-30, R-39, U-33 and a US-31 to post a 3-gun 102 and a Standing Agg of 61. His S-30 also gets Jim into the standing 30+ category as well as giving OH the state total lead with 3 entries. Nice shooting Jim. I'm certain you are not done for the year.

State totals for 2014 are: OH 3, CA-2, OR-2, SC-2, TX-1

BBRP.

Send entries to:

Joe Cullison, 28988 Berlin Road, Sweet
Home, OR 97386 or to jcunclejoe@aol

By AI Kuenn

We are still off to a bit of a slow start. We did get one other entry into the records program for 2014 and that was from Carl Skidmore.

Carl shot a PAS 31 and a Prod 32 for a combined 63. It was his first match of the season, so that's a very good start. Carl used a T/C 22 Hornet and shot his match at the Circleville Pickaya Co. Sportsmans Club.

I am hoping to get more scores in now that spring is finally getting here.

Shoot well!

Send your scores to

Half-Scale and **Fifth-Scale Records**

By Jim Harris

We have our first 60-round records entries for 2014! Congrats to Jim Kesser of Ohio and Mike Graves of Virginia for their perfect scores in Half-Scale UAS!

Jack Tessman of Kansas (shooting this entry in Oklahoma) joins the Fifth-Scale UAS club for the year with a nice 40 in windy conditions.

Scotty Thompson and Gary Crews both added their names to the Half-Scale UAS Standings shooting 40's at an Oklahoma match.

Looking forward to a big acceleration in entries now that the weather is turning nice around the US.

Good luck everyone! Send your records reports to me at Tyler Abel, OR1

by Charles Nickolson

Congratulations to Bill Shade and Dylan Gruber. Bill shot his second 40 to make it into International class. My grandson Dylan Gruber shot Half-Scale for the first time. I had him shooting up some scrap 7BR loads. He hit 10 chickens, 10 pigs, 9 turkeys, and then had to use a different load at 200 and only got 4 rams. He is not happy with my loads! Way to go Bill and Dylan! Big Bore Results: UAS-INT Bill Shade. 40 Half-Scale Results: UAS-INT 39 UAS-AA Dan McDonaid... 36 UAS-AA Dylan Gruber, Jr. . 33 Small Bore Results: UAS-INT Charles Nickolson 40 + 7Bill Shade. GAINESVILLE, GEORGIA Cherokee Gun Club April, 2014 by Ron Dixon

For our April match we had pretty much the same shooters in attendance, as well as the addition of Herb Dalton. It has been a while since Herb could make it to the range, so it was a real pleasure to have him there. We had 10 shooters firing 30 entries. The weather was great, and the lunch Dave Chaney fixed was both appetizing and healthy.

David Cote started the day off right by going 40x40 with his UAS gun. Richard Slaton out of Tuscaloosa, Alabama jumped class with two guns. He shot a 25x40 in Field Pistol production, and a 34x40 in Unlimited Fifth-Scale. Mark Thraikill got a match leg in Small Bore standing with a score of 24x40. And Dave Chaney got a match leg in unlimited Fifth-Scale by shooting a 27x40.

We will be holding the Georgia State Small Bore and Field Pistol match at Cherokee Gun Club on May 1-3. That will be Thursday through Saturday. Unfortunately that means the 200 yard range will be closed on those days. The general purpose range will be open as usual. If you are in the area, come on down and watch for awhile. Maybe we can get you hooked on our game. Rora Reculte

Well, it's over. We fired 222 guns for score, and had one re-entry, for a total of 223 entries. 19 Turkeys doesn't like weather in the match reports, but it was the common denominator this match. It rained almost every day. There were some gale force winds. When it didn't rain, the clouds changed target visibility by the minute. But all in all, some pretty impressive scores were shot.

There were 8 people who got a leg up into the next class. There were two people who jumped class-Dave Chaney in UHS, and Darrell Holcombe, who shot a fine 36 in Production Field Pistol. Jim Kesser complained about the light conditions all week, then proceeded to shoot a 54 in BB-US on Monday. David Wood fired a fine 58 in UFSAS. There were three 100 Club scores-Jim Kesser, Melvin Calliham, and Robert Walker all shot scores which converted to 102.

David and myself want to the thank the shooters for coming. Without your support, it just would not be this much fun. We want to thank our wives for putting up with this. My wife Kathy and David's wife Kim ran our stat house wonderfully. Thanks again, girls.

We want to thank the sponsors who sent door prizes, and we hope you continue to support those sponsors. A huge thanks also goes out to Luann, our wonderful cook, who made breakfast each morning. Where else can you go shoot and get that?

On to the scores. Because it was a dual match, someone could be the champion in ECC and Region 2. Remember when looking at the scores-this was a 60 round match. That score is listed first; the second is the 40-round conversion.

on publication of state, regional, and "specialty" match notices and match results.

Any IHMSA sanctioned club in good standing may publish a notice of their club's state or regional championship match at no charge for three months. State match notices are limited to 2 1/4 "x5". Regional match notices are limited to 4 3/4"x5". If a club is holding a "specialty" match and that match does not replace one of these championships, the IHMSA News will publish a 2 1/4"x5" notice at no charge one time. These notices will run in Section B only. The club may publish additional notices of the same size for \$45 per issue. Ads must be prepaid before printing. All payments are to be sent to IHMSA HQ, P.O. Box 22356, Chevenne, WY 82003. The club may specify whether the paid notice is published in Section A or B.

State match results can list both first and second place finishes. Regional match results can list first, second, and third place finishes. "Specialty" matches replacing a state championship may publish first and second place finishes. "Specialty" matches replacing a regional championship may publish first, second, and third place finishes. All other match results wherein the total number of handgun silhouette entries exceeds 11 (including all IHMSA, NRA & non-member guests) can list only the first place finish. Matches with less than 11 total handgun entries as defined above can list all IHMSA handgun entrants and their place. Regardless of the above, all 40's, 60's, and 80's (depending on the number of rounds fired at the match) can be published from ANY IHMSA match.

An IHMSA club holding a dual sanctioned (IHMSA/NRA) match may submit a match report for publication in the IHMSA News containing both IHMSA and NRA results. The number of published NRA results may not exceed the number of published IHMSA results. Publication is limited to IHMSA sanctioned handgun disciplines only.

Please address any questions concerning this policy to your Regional Director.

ANSWER THE CALL

BlitzKing

Sierra Varminter and BlitzKing bullets are the world's most effective bullets for predator and varmint hunting. A thin jacket provides outstanding accuracy and the explosive expansion you need to call with confidence.

Contact your favorite dealer for the complete line of Sierra bullets or visit www.sierrabullets.com.

by Steve Ware

The SHOT Show is simply too large to comprehend it unless you are there. 67,000 people from over 100 countries flooded Las Vegas this past January, a record attendance. Physically, it consumes virtually all of the Sands Expo Center spilling over into the Venetian, and you will walk over 12 miles if you walk down every aisle. Trust me, you will walk much farther than that, because you double back a lot even with a substantial amount of strategic planning. The SHOT Show app is invaluable in keeping you organized and on track. There were over 1,600 exhibiting companies consuming 635,000 square feet of floor space.

No question the SHOT Show is about guns - all kinds of guns from black powder to machine guns mounted on SWAT type vehicles and everything in between. You can drool over spendy guns (how about a 1911 starting at \$5,750 and going up from there?) or inexpensive guns. You have your choice of black powder, no powder (air guns) or smokeless powder firearms. Then there are the accessories - clothing, reloading equipment, reloading components, ammunition, tactical and police equipment and even cases for your iPhone or iPad. Then there is a plethora of hunting equipment, ATV's, tree stands, blinds, calls, decoys, and even equipment to cook that game on or in, plus seasonings to make everything yummy. And I doubt that I have mentioned all the types of goodies you would want to add to your wish list. Last but not least by any means is getting to see old friends such as Carroll from Sierra Bullets, Pat from Leupold, and Bob and his dad at Freedom Arms. The bottom line is that it is impossible to see everything; so, you need to pick & choose your interests and plan carefully. Then, you will get sidetracked because you'll walk by a booth with things that peak your interest and you'll spend time exploring. But, heck, that's half the fun of SHOT!

In addition to the show itself, I attended the Media Day at the Range the day pri-

or to the show. This is where manufacturers allow media to actually shoot the new stuff. The one gun that I shot that drew the most attention was the new Glock model 42, their .380 pocket pistol. I think Glock really got this one right. It is somewhat larger than most pocket .380's like the Kel-Tec P3AT but smaller than compact 9mm pistols. This one fits in your back blue jeans pocket nicely but also fills the hand much better than the smaller pistols. Plus, if you are already

carrying a Glock, you are familiar with the Safe Action trigger. At an MSRP of \$475, this one deserves a look.

Attending SHOT as media also brings other perks such as invitations to attend some quite informative and educational presentations. The two that I found most

Updated Information from Headquarters and the Editor

by Joe Frey

The new IHMSA Headquarters has transitioned quite well as Cindy Smith has taken over this position on a volunteer basis. A huge thank you is deserved for Cindy as she is single-handedly saving IHMSA well over \$30,000 annually by taking over this position. Anyone who is acquainted with Cindy and her husband Dave knows the dedication to IHMSA the Smiths demonstrate. Dave serves as the Wyoming state director as well as the Region 8 director, and even prior to those appointments, Dave & Cindy offered significant amounts of time assisting former director Jim Tolbert. The fact that Cindy has volunteered to take over IHMSA HQ. while also working a full-time job and continuing all the work she does for IHMSA on a local, state, and regional level shows the type of incredible dedication she has for our sport.

send files electronically, Microsoft Word is the best format to use—this saves a lot of time in reformatting or retyping things to be sent to the printer. If that doesn't work for you, that is fine—we can make it all work out.

The *IHMSA News* is also now available electronically through the IHMSA website. Go to <u>www.ihmsa.org</u> and then click on the *IHMSA News* tab. There will be the monthly issue available, just click on it and download the file.

Please feel free to contact Cindy or I on any questions you have. Email is probably the best manner of contacting either of us. Remember, we both work full time jobs and families, so if we don't always get back to you in an hour or two, don't think that we're ignoring you or slacking!

1400 West Henry Street Sedalia, MO 65301 Tech support: 1-800-223-8799 Other calls: 1-888-223-3006 As Cindy has settled into the HQ position and I have stepped into the role of *IHMSA News* editor, here are a couple of items of clarifications which may make things easier and more efficient for all of us.

Match reports, schedule additions & changes, and anything desired to go into the *IHMSA News* can come straight to me. Match recaps, membership items, and basically everything else related to IHMSA most likely goes to Cindy. For people who

- - World Championship Oklahoma City, O

IHMSA News

Show – A Review

informative were put on by the National Shooting Sports Foundation (owner of the show) and Howard Leight by Honeywell, manufacturer of hearing protection.

The NSSF presentation gave a state-by-state review of the economic impact of sport shooting. If you ever needed ammunition in a discussion with anti-gunners, being able to inform them of the value of the shooting sports to their particular state should get their attention. While they may not like guns, I bet they like money and jobs!

The Howard Leight seminar was presented by Lt. Col (Retired), USAF, Theresa Y. Schulz, Audiologist and Hearing Conservationist. She explained the compounding of repeated noise on hearing loss and demonstrated the proper method of inserting soft, disposable ear plugs. Theresa explained that the majority of people do not insert them correctly. Step one is to roll them as thin as possible making sure there are no wrinkles in them. Why no wrinkles? She rolled one with wrinkles and inserted it into a funnel then poured in water. It leaked. When repeated without wrinkles, no leaks. Step two is to reach over your head with the hand opposite the ear you are inserting the plug into. The key here is to grab and pull your ear at the right place to open the ear cannel. Most of us grab the top of the ear, wrong place. Instead grab slightly behind the top. As Theresa explained, grab your ear like your mother did when she pulled you by the ear. Step three—insert the rolled plug down into the ear cannel holding it until it expands. To check if you did it right, look straight on into a mirror. You should not see the plug.

The disposable ear plug is a critical part of protecting your hearing. Properly inserted, Howard Leight plugs have a noise reduction rating of 30. This is substantially greater than most muffs. However, the best protection is plugs and muffs. The issue I have

(with a hearing disability) is being able to hear with both plugs and muffs. However, that has been solved nicely. After the seminar, a drawing was held for 3 pair of Impact Sport electronic muffs, and I won a pair. I have been using plugs

and muffs at matches since January, and this system works exceptionally well. Noise is reduced to a much more comfortable level yet I can hear range commands and conversations. Plus the Impact Sport muffs are very thin and are not in the road when shooting in the Creedmoor position. Please consider making this investment to protect your hearing!

Three products I really like involve food preparation. I am a barbecue fanatic and enjoy great kabobs. However, I have yet to find skewers that work well. Generally speaking, veggies tend to fall off or the skewers take up too much room on the grill. FireWire has two great products out that eliminate these problems. The first one is their double prong stainless steel

skewer. These neat guys come in four packs; which allow you to create individual kabobs with meat and veggies for each person or better yet, put meat on two and veggies on two. That way you can control the cook time and not over cook the veggies or under cook the meat.

The second product is the FireWire flexible stainless steel skewer. These come in two packs. They are flexible cables; which allow you to wrap the skewers around the edge of your grill saving the middle to cook meats or other items. The skewers have a metal tab with a hole in it allowing you to thread the needle end into the hole making a circle so the contents of the skewer are secure and won't fall off

The final cooking product I have been using is Seth McGinn's CanCooker. Being single, I bought the Junior model, and it is certainly large enough to feed at least 4 people. The easiest way to describe the CanCooker is that it is a low tech steamer. You can cook a whole meal of meats and vegetables in less than an hour. It works great when you don't have 7 or 8 hours to wait on your slow cooker. The one caveat I will give is to not use softer vegetables

such as broccoli. Stick with potatoes, carrots, onions and other similar vegetables. The softer ones tend to not hold up well. An advantage of the Can-Cooker is that it can be used with any heat source, and I will be taking it camping.

Hopefully, this gives you an idea of the variety of products on display at the SHOT Show. It is without a doubt a shooter's/outdoor person's hog heaven!

IHMSA News Now Available on Internet

Bob Dylan went electric in 1965 at the Newport News Festival. Now almost 50 years later, the IHMSA News has gone electric as well-it is now available electronically on the Internet! To access the IHMSA News, you can go to ihmsa.org and then click on the "IHMSA News" tab. From there, you will see a tab for the issue, click on that and download the file. You can then save it to your computer so you don't have to keep downloading

Page 9

In this day and age, many people prefer to get their newspapers and periodicals electronically, so please try it out and see if it works for you. If you decide you prefer it in this manner and no longer need a paper copy, please contact Cindy at Headquarters and she can take you off of the mailing list.

There are several advantages to this electronic format. First of all, this could become a significant savings to IHMSA by helping lower our printing and postage expenses. In addition, the IHMSA News will be available online to be read a few days before the paper copy arrives in people's mailboxes.

A big thank you needs to go out to Jeff Bell for his assistance in making this happen.

Go to ihmsa.org try it out, see if it works for you and your computer, and let me know if you are having any problems. There may be a few glitches along the way, but I'm certain the IHMSA News going electric won't be nearly as controversial as when Dylan did!

July 18-25, 2014 klahoma

IHMSA is Growing, Because of...

... a lot of reasons, and a lot of people. This volunteer organization has some of the greatest people you may ever met, and the common theme we hear from people traveling around is that it is those people that keep us spending the gas, food, and lodging to continue to log those miles so we can experience those events.

A new column that is going to appear with regularity in the IHMSA News is this-IHMSA is Growing Because Of... And this is where people out there will send in a great story, or a person or club of significance, to reflect something of greatness out there that is going on in our sport. Yes, know that participation in IHMSA has declined in recent years. I'm not naïve. Some people may focus on that decline, and that is not a bad thing-we need to evaluate ourselves and take a look at that, just as any business would. We can't bury our heads in the sand.

But at the same time, there are too many great efforts going on out there to now in its second year, and what a great job it sounds like those folks have done to make this a viable event. North Dakota has a new range back in operation and in place this year-I'm sure we would love to hear their story. So often we hear of range closures. It would be great to hear their story about how they got a new silhouette range in operation.

For this month's edition of IHMSA Is Growing Because Of ..., we want to recognize the Pueblo West Sportsman's Association in Pueblo, CO. Matches there were postponed for the last half of 2013 due to a conflict of range use and an issue with the local county government. Happily, match director Bill Gartner has informed me that they have been given permission to host matches again. They held a match there in March of this year, which for anyone who knows the Colorado weather, March is early for silhouette to start out in the Rocky Mountain west.

Matches will be held on the third Saturday ignore. The East Coast Championship is of each month. Match dates are now posted on the IHMSA calendar. Bill Gartner and Flip Phillippi could have easily hung it up-there are two other IHMSA ranges within a couple of hours of them. But they didn't. Due to their efforts and others, people in southern Colorado will shoot again. Because of them, people in that region that want to shoot three weekends a month instead of two will have the opportunity to do so. Because of them, IHMSA is a little stronger than it otherwise would have been. Thank you to the Pueblo West Sportsman's Association, and particularly Bill and Flip, for "sticking to your guns" with your support of silhouette shooting.

If you have an experience which you think deserves recognition, please drop a line to me at ihmsaeditorjoe@gmail.com so we can let others around the country know about it. Or call me at 970-667-4968. There are too many great efforts going on around this sport to not let it be acknowledaed.

PADUCAH, KENTUCKY Jackson Purchase Rifle and Pistol Club April 20, 2014 by Lee Jackson

We shot our first Rimfire match of the year today. It was a perfect day to be at the range too, with mild temperatures, mostly sunny skies, and not much wind at all. What more could we ask for? Maybe a few more shooters would have been nice but today was Easter Sunday, so that might have kept some of our shooters away. Hopefully they'll be back next match. Several good scores were turned in today-maybe the long winter break didn't hurt everybody too badly! Hope to see everyone at our next match. Small Bore Results:

VIRGINIA

GORDONSVILLE, VIRGINIA **Piedmont Sportsman Club** April 6, 2014 by Michael Graves

This was our first match of the year and my first match as Director. We had a total of 14 guns entered into this match. We had Big Bore and Half-Scale as well as Small Bore. We had a couple 40s shot in BB UAS by Michael Crews and Michael Kirchner. Steve Cole brought along a guest whose name is Trent Mallory and Trent

did a great job his first time out by shooting an
eighteen in BB Unlimited. I was lucky enough to
shoot a 40 in UASHS.
Our Junior Shooter, Malichi Crews shot a 28

in SB UAS. Big Bore Results: R-AA Thom Thomas Boergert RUG44MAG 13

LOUISIANA

в

REQUEST FOR NOMINATIONS FOR LOUISIANA STATE DIRECTOR FOR IHMSA, INC.

With the unfortunate passing of Mrs. Ginny West, the position of Louisiana State Director has become vacant. This is a request for nominations for individuals to serve as the Louisiana State Director. If there is more than one nomination, a ballot will be placed in the June IHMSA News.

Any member in good standing, who is a bona-fide resident of the State for which they nominate, is eligible to stand for election. A bona-fide resident is someone who has resided in the particular State for a period of not less than six months immediately prior to the election.

Members that have been residents of Louisiana for at least 6 months and who re interested in serving as Louisiana State Director are encouraged to nominate themselves. All nominees require the endorsement of 2 other IHMSA members. Use the following form to submit the nomination.

The Secretary/Treasure must receive nominations no later than the 31st of July 2014. Candidates will be declared in the August edition of the IHMSA News and a ballot will appear in that edition if more than one nomination is received.

Each nominee may provide a statement of claims of not more than 500 words that cites why he/she should be elected to the office for which he/she is being nominated. Said statement of claims will be published in the August edition of IHMSA News if an election is required. To be published in the IHMSA News, the statement of claims must be received by the publishing deadline for the August edition which is July 31, 2014. Therefore, candidates should

OHIO

CIRCLEVILLE, OHIO Pickaway County Sportsmen Club April 2014

First match of the year and some real fabulous scores turned in. Yes, that is a perfect score with iron sights in unlimited for Bob Ochs. All 40 targets and all 10 shoot-offs. Most people only dream of a score like that with a scope, and he did it with iron sights and will tell you that he can't see because of all the floaters! We will offer him some cheese with that whine!

Bill Urbank really got a hold of one with a 30 in Standing .22. He went on to score a 39 Unlimited and 36 Production for a score of 105 in the 100 Club. Great shooting, Bill! Dave Calloway had the other 40 in UAS in a re-entry. Carl Skidmore gets the award for most improved shooter of the last year and a half. Carl shot a 32 in Field Pistol Production and a 31 in PAS for a fantastic President's 60 Club score of 63. Yours truly just squeaked into the 60 Club with a 61.

Turnout was pretty good for a first match with 13 shooters and 21 registered scores. Thank you John Maple for making it possible for us to shoot silhouettes at Pickaway. Next time bring a gun but I will not leave a door open! Thanks to all who set up: Carl, Jim Lejman, John, Isaiah, Bob, and anybody else we missed. And thanks to all who stayed and helped tear down.

KANSAS

LINWOOD, KANSAS Tri-County Rod and Gun Club April 13, 2014 by Bob Curry

March was a rainout. So was April, according to everyone's telephone. Fortunately, everyone's telephone was wrong, and although we stopped a couple of times to let the lightning pass, everyone managed to get their guns shot efore the heavy rain set in about 4 o'clock.

SWEETWATER, TEXAS Sweetwater Rifle and Pistol Club April 5, 2014 by Richard Porter

Typical April match-cold, damp, and windy! Targets had to be clamped, but shooters still had fun and were helpful in setting targets. Thanks to Mondo for calling the line so Janie and I could shoot. This reports is late so I have a chance to honor one of our best friends in IHMSA, Dave McGowen. We will miss our friend of 34 years. Our sympathy goes out to his family.

said, "No, I can't!" But I'm easily impressed, because I stink on a good day. Fantastic demonstration of, "Gun Control Is Hitting What You're Aiming At". Great job, Joe!

The rest of us were not guite so lucky. Poor Paul Frank, no doubt he heard about it over and over all the way home with Joe! Ha ha ha ... just kidding. Thanks to everyone for coming over to the first shoot of the year, which is usually a shake down cruise for me, as well as Steve Call. who said he was shooting leftover test loads in his Hornet. Nice to see a former silhouette from a few years ago, Pat Seale, stop in and get all fired up again. Blow off the dust Pat and get 'em out! So here are the results-some good, some bad, some ugly. Thanks to our host, the Holmen Rod and Gun Club, and a huge thanks to Dan Rentschler and Steve Call for their unwavering set-up and take-down support. Field Pistol Results:

HOLMEN, WISCONSIN **REGION 5 AIR PISTOL CHAMPIONSHIP** Holmen Rod and Gun Club March 28-30, 2014

by Glenn Tullius

After working diligently on redesigning and constructing new pellet traps for the range, we were excited and ready to host the Region 5 Championships! The modular design of the white boxes and new lighting turned out great! Putting recesses lights in coffee cans in front of the sighter-swingers was frosting on the cake. No shadows in the boxes at all. We received many positive comments from all the shooters on the target definition. Some excellent scores were shot in all classes, including a perfect 60x60+15 shoot-offs by Mr. Steve Martens in UAS

We had some nice laser cut and laser engraved fluorescent plastic rams for class winners that looked great as well. Fortunately the weather cooperated for the out of town folks-FINALLY! A pleasant surprise was a couple of people who stopped by to see the match and what it is all about. They were very interested, and thought those little chickens looked awfully small! We did our best to promote it, so we might even get some new shooters for the outdoor matches, and maybe air pistol next season. It was a great time, and hopefully we can hold it again next year.

As expected, a 60 round match negated some of the usual ties and subsequent shootoffs. The only tie was in Unlimited, between Steve Martens and Bug Schroeder. Had I not "coughed" on a chicken, I could have joined them with my best effort of the year-rats! Steve won that 13 to Bug's 7, and was actually very close, with Steve getting 3 or 4 of the little buggers with a half pellet hit or less. Let's get him next time Bug!

Speaking of close, Steve's great UAS score was followed by the Senior Mr. Ken LaCroix's 59, missing the very first chicken, and my 59, missing one of those darn turkeys. With the exception of John Richard's outstanding 57 in USIS, all the rest were just one animal separating the scores. John followed that up with an excellent 55 in US, and a 46 in Standing to win the Three-Gun Standing Aggregate trophy. Steve won the 6-gun total overall Ironman as well. Truly very good competition throughout! My thanks to our hosts, the Holmen Rod and Gun Club, and especially Dan Rentschler and Steve Call for all their help on the new range. It is really a fun course to shoot, so come join us! **AIR Pistol Results:**

Rich Schroeder CROS1701P.... -CHP Steve Martens CROS1701P. P-INT 58 If it wasn't below zero, it was snowing or vice versa, or both! The upside is we had time to rebuild our entire AIR Pistol range with modular wood boxes for storage that have individual lighting inside, and the whole thing is painted white! The sight picture is now excellent, with no shadows, and the animal definition is fantastic. It looked so good, Dan put a leg on his USIS score, and classed up in US! We were hoping to get the new traps done before the upcoming Region 5 Air Pistol Championships, and it appears we will. To that end, only three of us managed to get a match in, with some qualifying scores for the Region 5 match upcoming. Thanks to Dan and Steve for all the help with

the new range!

TUCSON, ARIZONA Tucson Rifle Club February 15, 2014 by Bill Robbins

Tuscon IHMSA is now under new direction. We will be offering all categories IHMSA has to offer. New policies will include enhancing our relationships with our host range, and building our membership by encouraging new shooters and offering more classes to shoot in. We are also working on NRA affiliation. Come on out and join us!

Fifth-Scale was offered at this match. Many eyes were opened when Bill Robbins soiled 22 of those little targets! Half-Scale targets to come, AIR Pistol was available but there were

no takers for this match as there was a fair amount of wind today. No Field Pistol entries either

IDAHO

IDAHO FALLS, IDAHO Idaho Falls Silhouette Association April 19-20, 2014 by Richard C. Martineau

It has been years since the Idaho Fall Silhouette Association (IFSA) has had a successful April match. Typically, the days of an April match are defined by wind, rain, and/or snow. A few years back, we even had a rapid sow melt over frozen ground that turned the entire range into a lake with the shores of lake IFSA on the firing line. Last year, the April match had snow and wind with six guns coming to the line. Not good for a two day match with the overhead costs. This year, we had sunny skies, light winds, and sixty-one entries. It was really fun. Thank you Lord.

Even though the weather was good, there was plenty of winter rust to shake out. When it's been seven months since the last match, there is a little bit of re-introduction to the game going on. Thus, nobody was really at their best. Fortunately, there some good scores fired. Michael Shaltry fired a 21 in FP-P, which is a big leg into AA class. Steve Randolph fired a 38 in HS-UAS for a leg into AAA. Roger Wood and Tom Tressell got into a shootoff in Big Bore UAS after firing their 40s. Tom ended up with the most shootoff targets. Here in the IFSA, we only shootoff ties with perfect scores. Reverse ram count is used to break all other ties.

We signed up three new members to IHMSA, Chris Behm, Joe Jameson and Greg DeField. Please welcome them to our game.

Thanks Dell Taylor and Black Bear Pendleton for making the trek up to Idaho Falls from Salt Lake.

IHMSA lost a good friend on April 10th when Larry Allenbaugh passed away. He was a good mar

WISCONSIN

HOLMEN, WISCONSIN Holmen Rod and Gun Club April 19, 2014 by Glenn Tullius

Here we go-let the summer games begin! Well, almost... the weather, 67 with a warm southerly breeze... NOT! The breeze was gusting to 35 mph, but that didn't bother Joe Lipp from Oak Creek, WI. No siree, as Joe shot two personal bests in Field Pistol with a production score of 33, followed by a superb 34 in PAS! Standing straight as a yacht sail, he just kept hammering them one by one until he stopped. With a huge smile from ear to ear, he said, "Can you believe that?" I was just as stunned and

HOLMEN, WISCONSIN Holmen Rod and Gun Club Winter AIR Pistol March 1, 2014 by Glenn Tullius Well, it has been the worst winter in years, and it always seemed to be on match weekend. IHMSA: Big Bore, Small Bore, Field Pistol, and Half-Scale.

NRA: Cowboy Lever Action, Pistol Cartridge Cowboy Lever Action, Smallbore Cowboy Rifle, and Smallbore Hunting Rifle.

Friday: Small Bore and Field Pistol categories only. 8:00 AM start. Last gun goes on the line at 4:00 PM.

Saturday: 8:00 AM start. All categories. Last gun goes on the line at 4:00 PM.

Sunday: 8:00 AM start. All categories. Last gun goes on the line at 1:40 PM.

\$9.00 for each entry.

BBQ dinner on Saturday evening in our IFSA Range Building, 6:00 PM. Bring your own meat. All else will be provided, including beer from Marcellar's.

GUN RAFFLE: To Be Decided (TBD).

PRIZE DRAWING: Numerous door prizes donated by local dealers. One drawing ticket per shooter.

For the door prize drawings, shooter must be present at dinner to win.

NEVADA

LAS VEGAS, NEVADA **Desert Sportsman's Rifle and Pistol Club** March 23, 2014 by Paul Habig

The Sin City Silhouette shoot had their best turnout in quite some time, running 26 guns through the line today. It was a crazy daysome good, some not so much.

Val Shaver had a Fifth-Scale Aggregate of 77. Don Wright shot a nice UAS score but still not good enough to beat Debi, who also turned in a nice US score.

As for the other side of things: Mel Douglas shot better with open sights than with his scoped gun. Joe K. shot Revolver Class Standing with a 6" barrel Smith & Wesson and shot a 15-1 didn't have the heart to tell him that I once shot a 16 with a 2" S&W... shhhhh! Gary D. reminds me of my golf game-really good when practicing, but not so much when shooting for score. Last, but not least, Marc Pinjuv was swearing at his loads because he used some old powder and it didn't shoot the same as before; then after the match, he realized he used the wrong sight settings. Yep, crazy day!

Shoot well and take care.

US-A

Our target setters, the Young Marines, were terrific again. Please tip these kids generously, as they do a wonderful and trouble free service to the shooters and their organization's fund raising efforts. Special thanks to Dan Bucks for making the trip down again from the Bay Area to join us. And thanks to Val Shaver for driving over from Las Vegas area.

Out of a lot of rifle entries, Boris Sorkin again posted the High Rifle score of the match. Dennis Edwards was Small Bore Match Winner with the only perfect score in Unlimited.

Steve Hannawacker continues to rampage with the Revolver, shooting another 40x40, this time in Revolver category (instead of in Unlimited last month). He had some other fine scores, including a Standing re-run of 31x40.

When the shoot-off at the end of the match came, it was Val Shaver's 40x40 in Production, Jerry Ray with his Unlimited gun, and Steve Hannawacker with his Revolver 40x40. In the end, Steve got 5x10 to take Match Winner over JR's 3x10 and Val's 1x10. Congrats Steve!

See you at the next match!

GRANTS PASS, OREGON JCSA Pistol Silhouette Club April 26, 2014 by 19 Turkeys

We were a little light on shooters today, but those of us who were there had fun! Team Medford went head-to-head in UAS. Both Dave and Ron were tied with 40's. Ron ended up at the top of the heap with 7x10 shoot-off targets to Dave's 5x10. In typical IHMSA fashion, Dave bemoaned the fact that Ron beat him with the gun Dave sold to Ron. Oliver was right behind them with a 39. That elusive 40 is right around the corner I am sure

Thanks to Ron, Ron, Dave, and Oli for helping to set up and tear down the range!

WASHINGTON

PUYALLUP, WASHINGTON Paul Bunyan Rifle Club April 5, 2014 by Bret Stuntebeck

We had 4 shooters this month putting 14 guns across the line. Weather was pretty decent with only a brief 30 minute shower around 11:00, after that it guit raining and we had overcast skies for the rest of the day.

No 40's this month. Joe Stumpf removed the scope from his XP in 7TCU and posted a U-AAA 29. Since removing the scope from my XP in 6TCU last match, I thought I would try it in HS. I managed to eek out a UHS-AAA, 33. Richard Nicol tried his XP in 221FB on the full size targets and found out it might not be enough gun posting, a UAS-AA score of 27 with guite a few ringers on pigs, turkeys and rams. Richard did post a very nice P-AA, 35 giving him a leg into AAA. Nice shooting, Richard.

On the Small Bore side of the house, Vince Leete posted a U-AAA 35 as well as a UFS-AAA, 32. Vince also posted a S-AA 21. Nice shooting Vince!

On the Field Pistol side, Joe Stumpf posted a PAS-AA, 20 along with a P-AA, 16. Joe and I talked Vince Leete into shooting Joe's 22 Hornet in PAS and Vince proceeded to post and outstanding first entry of PAS, 34 placing him in AAA. Way to go Vince!! I managed a P-AAA, 26 using my little Hornet.

job. Until next time shoot straight and be safe. ig Bore Results

COLORADO

FORT MORGAN, COLORADO Morgan County Gun Club April 12, 2014 by Ron Schott

We had a light turnout but great weather for the April match with several 40's being shot. We had a total of 20 regular entries and 3 entries in the Bordello fun match. Bill Stark took 1st place in the Bordello with a score of 31. The next match in Ft. Morgan is scheduled for Mother's Day, May 11th. Hope everyone can make it out.

LOS ANGELES, CALIFORNIA LASC April 12-13, 2014 by Jim Harris

Overall we had some pretty good weather for the match and the scores and participation reJosephine County Sportsman's Association Grants Pass, Oregon June 17-22, 2014

60 Round Match

Big Bore, Small Bore, Field Pistol, Half-Scale, Fifth-Scale, and AIR Pistol

Camping is available at the range with water and electric hook ups.

Typically fantastic shooting conditions and weather, and always great food!

Contact Steve Ware for more information Phone: 541-660-8852 Email: steve@sworegon.com

April 26, 2014

WYOMING

The first match of the year featured a nice reunion of old friends returning to Cheyenne, Wyoming. Long-time member Steve Pose has moved back from Minnesota. It was a special treat to get to see Dan Meserve and Patrick Surline make the long trip out to shoot. And Russell Plakke came up from Colorado. Great way to kick off the year! REQUEST FOR NOMINATIONS FOR NORTH DAKOTA STATE DIRECTOR FOR IHMSA, INC.

This is a request for nominations for individuals to serve as the North Dakota State Director. If there is more than one nomination, a ballot will be placed in the June *IHMSA News*.

Any member in good standing, who is a bona-fide resident of the State for which they nominate, is eligible to stand for election. A bona-fide resident is someone who has resided in the particular State for a period of not less than six months immediately prior to the election.

Members that have been residents of North Dakota for at least 6 months and who are interested in serving as North Dakota State Director are encouraged to nominate themselves. All nominees require the endorsement of 2 other IHMSA members. Use the following form to submit the nomination.

The Secretary/Treasure must receive nominations no later than the 31st of July 2014. Candidates will be declared in the August edition of the *IHMSA News* and a ballot will appear in that edition if more than one nomination is received.

Each nominee may provide a statement of claims of not more than 500 words that cites why he/she should be elected to the office for which he/she is being nominated. Said statement of claims will be published in the *IHMSA News* if an election is required. To be published in the *IHMSA News*, the statement of claims must be received by the publishing deadline of July 31st, 2014. Therefore, candidates should submit the statement of claims with their nomination.

NOMINATION FOR THE OFFICE OF NORTH DAKOTA STATE DIRECTOR FOR IHMSA, INC.

do hereby declare my intention to stand as a candidate for the election of the office of North Dakota State Director for IHMSA, Inc. I hereby endorse that my name be placed in nominations for said office, and attest to being a member in good standing of the IHMSA, Inc.

Signed:

IHMSA #: _

We, the undersigned financial members of IHMSA, Inc. do hereby endorse this nomination of the above member for the office of North Dakota State Director for IHMSA, Inc.

Signed:

IHMSA #: _____

Signed: _____

IHMSA #: _____

The bylaws of IHMSA, Inc. require nominations for this office be submitted on this form or a facsimile thereof to Secretary/Treasurer, Warren Alkire, 1917 Shoreline Drive, Abilene, TX 79602. The Secretary/Treasurer must receive nominations no later than the 31st of July 2014.

IHMSA News

JUNE 2014

2014 IHMSA Banquet & Delegates Meeting The 2014 annual IHMSA banquet will be held Wednesday, July 23rd at 7:00 pm and the delegates meeting will be held Thursday, July 24th at 7:00 pm. Both of these will be at the Oklahoma City Gun Club.			ly25th, 2 A CITY,	201			ATIO World		npions Send ma IHMSA % Ken 13880 Su	ship ail entrie World C LaCroix Innyslop	hampions	hip
The following are the hotels that are in Edmond, OK which is the closest city to the Oklahoma City Gun Range. We have contacted each hotel and the room rates will be available for the following dates:	Last Nam		LEARLY!		First Name				/ISA Numbe	r		
July 16, 2014 through July 26, 2014	Address						Р	Jur hysically Cha	ior 🗌 La allenged: Sh		enior	
Each of these hotels offers a continen- tal breakfast included with these rates,	City				State		()		()			
these rates and a block of rooms will be held until 6-30-14. When you call them	Country		Pos	stal Code			Day Phone		Night P	hone		
ask for the IHMSA World Championships rooms. The rooms vary in King, Two Dou- bles and a Suite as noted for the Fairfield Marriott only. If you have special needs, you will need to ask for that at the time of your booking. NOTE: The Holiday Inn Express would not block rooms for us but they did give a rate.	PREFER entry is so (25th) Sh switch gu	Visa or Master Card #Expiration DateCheck or Money Order #Signature if Card UsedPREFERRED SHOOTING TIMES: Leave at least 1-1/2 hours between entries (recommended). Each relay will be 20 min. Each entry is scheduled to last 80 minutes. A total of 24 relays are scheduled each day, Friday (18th) through Thursday (24th), Friday (25th) Shoot-offs. If you want to coordinate your times with your spotter, please send in your registration forms together. You may switch guns, but not times or disciplines. Shooting starts each day at 8:00 AM and runs to 3:00 PM each day. Air will be Sunday (20st) & Monday (21st) 7:00 PM- 11:00 PM as time is needed.

m™ Case Trim ee Tri a NEW

Trim-To-Length Your **Case Locking** Shellholder Pilot Device

Factory pre-set, trim-to-length pilots assure precise case length with any popular shellholder. Installed on the system's hand operated cutter head, the pilots stop the cutting action at the correct overall cartridge length. In addition, a power adapter is included for use in a standard electric drill to speed case trimming.

• Rifle 5 Pilot Multi-Pack Set: .223, .243, .270, .308 & .30/06.

• Pistol 6 Pilot Multi-Pack Set: 9mm, .38 Spec., .357 Mag, .40 S&W, .44 Mag, .45 ACP.

• Pilotless Universal System can use: .204 Ruger, .223, .22-250, .243, 25-06, 6.5 x 55, .270 Win., 7 x 57, .7mm Rem, .30-.30, 300 AAC Black-Out, .308 Win., .30-06, .300 Win. Mag., 300 WSM, 7.62 x 39, 303 British, 8 x 57, 338 Win Mag, .45-70, 380 Auto, 9mm, .38 Spec, .357, .40 S&W, .44 Mag, .45 ACP, 45 Colt. Pilots sold separately. Power Adapter Included
