## Legends of Silhouette #5

**David Bradshaw**

**by The Old Guy**

Like each of the four previous shooters I have told about in earlier columns, David Bradshaw has a number of really impressive achievements to his credit, but unlike the others already profiled, all of today's IHMSA shooters owe a major debt of gratitude to David Bradshaw. I want to mention the reason for that first.

David joined IHMSA in 1977 and has membership number 547. He was active in the very early administration of IHMSA as the head of the Safety Committee. It was he who convinced the late Elgin Gates who was then President of IHMSA that we needed a rule that required all shooters to wear eye and ear protection when taking part in IHMSA matches. Now more than thirty-five years later it is assumed that such a rule is very important, perfectly reasonable and logical, but older shooters can remember a time when such a rule was considered an imposition on the freedom of shooters. It is hard to imagine this today, but back then a lot of old timers resisted this rule. It was different from how it always had been, and old timers are very reluctant to accept new things, changes in the way things always have been. Those old timers who are still around today are all at least partially deaf, and whatever hearing they have left is thanks to David Bradshaw who convinced the Board of Directors to put through the rule requiring eye and ear protection. Today's younger shooters have no such problems also thanks to David's initiation of this rule. And this is not just about ear protection. I personally know of at least two catastrophic gun failures at IHMSA matches where someone would have been blinded if they had not been wearing eye protection. Thank you, David.

David Bradshaw was primarily but not exclusively interested in revolvers, Rugers, Dan Wessons, Smith & Wessons, Colts. If it had a cylinder that turned, David wanted to try it and see how good it was. He lived in northern Vermont, and after he joined in 1977, he heard about the upcoming 1977 Internationals out west in Los Angeles. Participation required the entrant to have shot three times in each category he or she wanted to enter, so he drove up to Maine and shot his 7 1/2" Ruger Blackhawk in the roll over prone position popular at that time. He shot 28x40 and won the match. He got in his old 1964 Dodge Coronet with the Slant 6 engine and drove all the way across the country to Los Angeles where he met John Adams, Col. Jeff Cooper, and Ray Chapman among others.

At this time there was no separate Revolver category, and he had to compete against shooters using single shots that were more powerful and more accurate, but he began lobbying the Board of Directors to institute a separate Revolver category. After

they did, in 1980 at the Internationals in Massachusetts (He did not have to drive 6,000 miles to participate in that one.) he won the Revolver category the first time it was offered. His score was 73x80. His load back then was a 240 grain Sierra over 21.0 grains of 2400 with Winchester brass and CCI 350 mag primers.

He continued to shoot this combination in local matches and started trying what I believe is one of the unusual things for which I believe he qualifies as one of the Legends of Silhouette. He shot all four categories with a revolver. In 1983 he did this using only a Ruger KS411N 10 1/2" Stainless Blackhawk .44 Mag with an untapered barrel and a screwed on front sight. He named it the Silver Hornpipe. He is the only person ever to shoot 140x160 four gun aggregate using only a revolver. He shot a 34x40 Standing en route to the 140. What makes this 140x160 even more impressive is that he did this in the old days with full foot rams that were very hard to knock over. Even with the 240 grain Sierra moving over 1,300 fps at the muzzle, he still had several ram bites, so he actually hit 142. If this was not enough, in 1984 shooting a Dan Wesson .357 Super Mag with an 8" barrel, he shot a 143x160. This was after a 28x40 Standing so his other scores had to have been a lot better than they were in 1980. His load here was a 200 grain Speer over 21 grains of IMR 4198 (That's right, IMR 4198. It is not what you might expect, but it worked.). This produced a muzzle velocity of 1250 fps. Again his actual hit count was 2 or 3 higher. He just lost them to ram bites. Remember this was long before the topple point rule. If someone complained, the official mantra was "Bigger bullets, more powder." At this time the four gun aggregate record with four different guns was only 146x160, so he was not far from that record.

There is something else David Bradshaw achieved that as far as I know he is the only one ever to accomplish. There are only a handful of IHMSA (or NRA shooters for that matter) who have gotten a Grand Slam Standing, but unlike all the others, David Bradshaw managed it with a revolver. For those of you who do not know what a Grand Slam is, it is having shot and knocked down ten in a row of each animal on different occasions. Think about it. He was able to stand up on his hind legs and shoot a revolver held out at arms length and was steady enough to run ten in a row of each animal including ten in a row of the turkeys. Furthermore it was a revolver with enough knockdown power and the accompanying recoil to take down ten full footed rams. That is quite an achievement.

Is it possible that his 34x40 Standing with a revolver also is a record? I wonder. Does anyone know of anyone who has beaten that?

Congratulations, David. You're one of the Legends of Silhouette.

## **2016 World Championship State and Regional 5-gun Team Competition**

At this year's 40<sup>th</sup> annual World Championship we are going to offer a new free team competition. It is a mix of the Traditional 4-gun aggregate with the addition of the popular UAS category.

There will be separate Small Bore and Big Bore teams.

You may sign up on one State team and one Region team in both SB and BB. You must sign up your team in the club house before the first member of your team fires his team entry score. There can be multiple teams from the same State or Region but you may be on only one team. The teams will consist of a minimum of 2 competitors if both are seniors or a minimum of 3 with one senior. A senior may shoot a max of 3 entries for the team. A non-senior may shot a max of 2 entries for the team.

The total of 5 categories will be shot. The categories are Production, Revolver, Unlimited, Standing, and UAS.

The total of the 5 categories will determine the winners of the team competitions.

*We would like to thank our industry friends for their continued support of our sport.*

## Installment Plan Life Memberships

The Installment Plan for Life Membership allows you to purchase a Life Membership by making four monthly payments of \$105.00 each (a total of \$420.00), or in the case of a spouse two \$50.00 each (a total of \$100.00). When your last payment is received, Headquarters will send your Life membership card, certificate, and pin.

If you're in the middle of your membership year, you can purchase a Life Membership now and apply the unused portion of your current membership. Call IHMSA Headquarters at (801) 733-8423 to find out how much credit you'll received for your current membership.

Life Membership is a great way to enjoy IHMSA for years without the hassle of paying yearly dues and show your support of IHMSA at the same time . . . order yours today!!!

Neither the *IHMSA News*, the contributing shooters or the writers or IHMSA, Inc. assumes any responsibility for the safety of any reloading data published in the *IHMSA News*. Neither IHMSA, Inc nor the writer has control over the firearms or components used, or the manner in which they are utilized. Therefore, no liability is assumed by either IHMSA, Inc, the writer, the contributors or the *IHMSA News* for any damages that result from any reloading information printed. Always consult standard reference manuals before duplicating loads or attempting any reloading procedures.

### R & S ENTERPRISES

Silhouette In-A-Row Pins - Custom Patches  
Sport & U.S. Flag Pins

Send S.A.S.E. for more info to:  
P.O. Box 1136, Congress, AZ 85332  
Phone 928-427-3045 - Fax 928-427-3041  
[roysansom@rsent.net](mailto:roysansom@rsent.net)

IHMSA Headquarters has changed. Headquarters has been split into 2 locations:

**For all Membership renewals, Membership information and Financial functions, Please send to:**

**IHMSA Inc.  
3061 Sand Hill Road  
Bismarck, ND 58503-6437**

**For Match results, Sanction fees, match package orders, Etc Along with anything for the IHMSA News, Please send to:**

**IHMSA Editor  
ATTN: Daniel Hagerty  
971 Mocho Street  
Livermore, CA 94550**

All forms, Etc are presently being updated and will be available in the next 2 weeks. The following 40 round score cards are available:

Big Bore  
Smallbore/air pistol/1/5<sup>th</sup> scale  
Practical Hunter  
Field Pistol/ half scale  
Ultra500

60/80 round cards are being updated now and will also be available for all categories.

And Last, With this edition, you should have received a new 2016 rule book along with the new membership card. The new card has been updated and air pistol and practical hunter inserts are no longer required.

## SANCTION FEE NOTICE

Please make every attempt to send in your Sanction Fees promptly as the Sanction Fees help us pay for the printing of the Match Results.

Infrequently we have a club(s) that does not remit sanction fees for a match held. We understand club officers are busy, so we just send a gentle reminder. Still failing to receive the fees, a second notice is forwarded.

A final notice is sent if fees are still delinquent. After the final notice, the match dates will be deleted from the match schedule and the club's sanction will be withdrawn until the fees are received.

# THE NEW SILHOUETTER

## Hodgdon 2016 Annual Manual

By Ken Horowitz

Once again, Hodgdon brings us this valuable and informative source for our reading and reloading pleasure. It is much more than a typical magalog highlighting a manufacturer's products. Each article can be a standalone feature in a quality publication and some are much more worthy than what I have found in some mainstream magazines. Add to that the reloading data including updates for 31 rifle and pistol cartridges and the \$8.99 newsstand price is a great bargain. For not much more than a run of the mill gun rag, you get a quality magazine plus the updated data.

Since the Annual Manual's inception, I've always been pleased with the breadth of the topics covered, some of which are ones of direct interest for the kind of shooting I do and others which I don't do, sometimes even more so. Take for example the article on Elk loads by John Taffin. I don't hunt elk (in fact, I don't hunt at all), and the .454 Casull is too much gun for me. Nevertheless, I sat glued to this article, immediately captured by Taffin's homespun style and buildup to the main purpose of the article in building a favorite handload for the 454.

Loading the 300 Blackout, an article by Patrick Sweeney also fascinated me. I have no interest acquiring a firearm in 300 Blackout or its predecessor, the 300 Whisper. Further, the likelihood of suppressors ever becoming legal in my home state is slimmer than the side view of a piece of paper. It is also a mystery to me as to why satisfactory results could not have been more effectively developed with recipes for the 30 TCU, now about 35 years old. Despite all these "however's," or perhaps because of them, I've been keeping track on much of the 300 Blackout hype out there and this article adds new perspective.

One thing I don't need is a new hobby and to date I've been successful at ducking black powder. However, I am always interested in history and physical sciences and the article on Olde Eynsford for Black Powder Cartridges by Ross Seyfried has both of these elements. His touches on regulation of double barrels is something that needs to see ink more often. While the article addresses rifles, I've most often encountered errors by armchair gun philosophers on double barreled shotguns, where adamancy and loud voices trump facts. I appreciate the facts. Also new to me was how highly developed black powder was "back in the days." Until I read the article I had never given much thought as to carbon being the wildcard of quality but now understand why it was. As an aficionado of pre-circuit board mechanics, the descriptions of the two rifles used in the article took me over the top.

Just when you might think that all that can be written about a cartridge well into its second century has already been written, An All-Around 30-06 Load by John Barsness dispels that. To date, the only 30-06 loads I've ever loaded have been for my M-1 Garand for use in High Power and CMP matches. Loads suitable for the Garand are limited to those that create enough gas pressure to cycle the action without damaging the operating rod. (Because of their unique shape, these operating rods are seldom repairable if damaged, getting pretty pricey and even worse, becoming short in supply.) So why would I be interested in the 165 grain bullet recipes loaded with IMR 4350 and H4350? Enter coincidence.

Somewhere along the line, I've accumulated a few hundred various factory rounds of 30-06 cartridges that are unsuitable for my M-1 Garand. Usually I just give ammunition that I don't use to friends that can use it but for some reason I've accumulated these over the years. Just weeks before I received the 2016 Annual Manual, I decided the best way to address these rounds was to send them downrange so I ordered a 30-06 barrel for my T/C Encore. It's a 24"

stainless barrel and I'm still thinking about which scope to mount on it. Now that I can fire any 30-06 load, I'm looking forward to using some of Barsness' recipes. I already have plenty of brass and some 165 grain bullets; all I need to get are a few pounds of 4350 and/or H4350.

Handloading the 223 Remington for ARs and Bolt Actions addressed the more usual approach than the one I used. In Lane Pearce's opening he states the article is intended for those who have been handloading for bolt action rifles and now are seeking to load for AR semi-autos. My relationship with the 223 Remington and 5.56mm NATO started with loads for the Ruger Mini-14 followed by my Bushmaster CMP Competition AR-15, which had been sanitized such that it met ownership requirements in my home state. It was quite a while afterwards that I loaded any 223 Remington for a TC Encore barrel.

Since I already had been loading for the requirements of AR cycling, the obstacles correctly noted in the article are inapplicable to me; I am going in the opposite direction. Even so, or perhaps especially so, the pressure differences between the SAAMI 223 Remington and its NATO cousin are exceptionally important and any reloader assembling cartridges for both firearm types would be well advised to become familiar with the differences.

New Trends for the 45 ACP by Charles Petty also tweaked my interest in an oddball way. I load quite a bit for this chambering but unlike the emphasis on the venerable Model 1911, I hurl my .451 bullets through a S&W Model 625 wheel gun. When I first got into handgunning of any type I couldn't get myself to like the 1911 although I have nothing against it and have shot several over the years. In quite unorthodox fashion, I adopted the round before I bought any gun chambered for it. Before any hate mail floods me, note that I have nothing against the 1911; I just prefer revolvers to semi-automatics. That said, I probably will break down some day and buy a 1911, although if I can get my hands on one in 38 Super, I may go that way. Several years ago, I shot a Colt Gold Cup chambered for the 38 Super and it has remained the most accurate 1911 I ever fired. I don't know if it is mostly because of the chambering or that it was a Gold Cup but the accuracy sticks in my mind.

Back to the article, it gave me considerable new load data and I was especially pleased for all it had on 185 grain bullets. My most accurate loads for my Model 625 come from 185 grain bullets including the Hornady 185 grain HAP. Within the Petty article's numerous loads, there are quite a few based on 185 grain bullets, including a dozen based on Hornady's 185 grain XTP. According to Hornady, its HAP bullets are modeled after the XTP bullet design, further refined into the perfect competition projectile. My experience with the 185 grain HAP has been great and I welcome these new loads from the article.

Reloading the 28 Nosler was interesting. Although pretty good money could be bet that I will never reload this cartridge (as you know, I don't hunt and I don't like recoil), I learned a lot. I'm still pondering why the 28 Nosler is so much easier to reload than the 26 Nosler. Also, the comparative gains/losses in velocity using a longer 26" barrel in the article than 24" test barrel used for Hodgdon's load development re-emphasizes how we should follow reliable recipes and limit experimentation at the bench. Predictions and expectations are not always followed by results. Why some velocities increased while others decreased once again shows that reloading is not a 5-decimal place accurate science.

I used to save every shooting magazine until I decided to stop the clutter, pass them on to others or the recycling bin. While that process went into effect decades ago, I still hang on to the

Annual Manual, at least until the next issue publishes. After all, when I'm through reading the articles, the reloading data follows. Even in this day of digital data, I work with paper at the bench and that's where the Manual resides until it is replaced by a newer issue.

Overall, the 2016 Annual Manual is a pleasure to read and chock full of great info. Most likely, if you pick up and go through a copy, you'll be back for the issues in 2017, 2018, 2019 . . . .

# RECORDS PROGRAM

## MARKSMANSHIP COMPETITIONS

### The Burris cup:

Scoped .22 Long rifle caliber Handguns only. Your best 5-shot group at 100 yards or meters. Guns may be bench rested over any solid rest as long as the gun is not in a ransom rest, vise or any other mechanical clamping device. Lying on your back in a freestyle position and piling sandbags by your body for support is legal. This will allow scoped guns setup for Creedmoor to better compete.

### The Weaver Trophy:

Scoped centerfire handguns. Your best 5-shot group at 100 yards or meters. Guns may be bench rested over any solid rest as long as the gun is not in a ransom rest, vise or any other mechanical clamping device. Lying on your back in a freestyle position and piling sandbags by your body for support is legal. This will allow scoped guns setup for Creedmoor to better compete.

### The Merit Challenge:

Centerfire handguns with iron/open sights. Your best 5-shot group at 100 Yards or Meters. Groups must be fired from an IHMSA legal position. No benchrest or artificial support allowed.

### The Daisy Avanti Trophy:

AIR production guns with iron/open sights. Your best 5-shot group at 18 Yards. Groups must be fired from an IHMSA legal position. No benchrest or artificial support allowed.

### General Rules:

All entries must be shot with IHMSA legal guns. Production, Revolver, and Unlimited guns are allowed in the Burris, Weaver and Merit classes.

### Witness:

Winning groups must be witnessed by an IHMSA or NRA member. Eligible winning targets must be signed and dated by the shooter and witness. Also, please include the shooters IHMSA number and the witness's IHMSA or NRA number by their name. A witness is not required to enter but is required to win.

### Targets:

Targets submitted must contain no more and no less than 5 shots in each bull zone.

## Big Bore Records Program (BBRP)

By  
Joe Cullison

2016 is off and running. The Big Bore records program entries are starting to come in as the weather warms up and ranges start to shoot after the long winter.

Robert Walker (GA) is off to a great start this year shooting a S-32, P-40, R-37 and U-40 for a 3-gun 112 and a 4-gun 149 not to mention a Standing 30+ entry with the very nice 32. I also heard that Robert shot a **fantastic** Small Bore standing score but you will have to check the Small Bore records to see that one.

Joe Cullison (OR) shot a S-31 and a US-39 in January for a standing agg of 70. Joe shot again in February and managed a S-32, U-40, R-40 and a US-35 for a 3-gun 112 and a 4-gun 147.

State totals for 2016 are: OR-5, GA-3

Please bring at least one friend or acquaintance to every match. Together, we can keep IHMSA growing.

Please forgive me if I have left anyone out or made any

other errors. Send me the information and I will make it right as soon as I can.

Thank you for your support of the BBRP.

Send entries to:

Joe Cullison, 28988 Berlin Road, Sweet Home, OR 97386  
or to [junclejo@aol.com](mailto:junclejo@aol.com). 541-317-8801 evenings

Thank you.

### Standing 30+

Robert Walker (GA)	32
Joe Cullison (OR)	32

### Unlimited Standing 35+

Joe Cullison (OR)	39
-------------------	----

### Standing Agg 60+

Joe Cullison (OR)	70
-------------------	----

### Presidents 100 Club (3-gun)

Robert Walker (GA)	112
Joe Cullison (OR)	112

### Presidents 140 Club (4-Gun)

Robert Walker (GA)	149
Joe Cullison (OR)	147

## SmallBore Records program

By Dan Hagerty

2016 is already going to be an interesting year for the small bore records!

Robert Walker of GA shot an outstanding standing score of 35x40! This missed the record by only 2 targets. With a little coaxing, I got him to provide me with his aggregate score (3-gun) of 104 (S:35,P:37,R:32).

Joe Cullison of OR shot his second ever revolver 40.

### Please send your reports to:

Daniel Hagerty  
971 Mocho Street  
Livermore, Ca 94550  
Phone: 925-321-8407  
Email: 22records@bleedinedge.com

## 2016 scores:

### 100 club

Joe Cullison, OR	108
Paul Habig, NV	108
Robert Walker, GA	104

### 140 club

Paul Habig, NV	147
Joe Cullison, OR	144

### 40-Standing (30+)

Robert Walker, GA	35
Joe Cullison, OR	32

### Revolver 40x40

Paul Habig, NV	2
Joe Cullison, OR	1

---

## ½ and 1/5 Scale Records

April 2016

By Jim Harris

Entries into the ½ and 1/5 records program are a little sparse so far, but I expect lots more as the season becomes more “seasonal” in the spring and summer.

Please send your records to me at harrisgrp@earthlink.net, or my home address: 1567 Bridget Ave., Simi Valley, CA 93065. Or give me a call at (805) 581-0009.

½ Scale UAS (Any Sight)

40-round match

Charlie Dean, OR 1

1/5 Scale UAS (Any Sight)

40-round match

Val Shaver, NV 2

Paul Habig, NV 2

Jerry Ray, CA 1

Dennis Edwards, CA 1

ASCENSION SILHOUETTE

GONZALES, LA

JANUARY 3, 2016

BY: CHARLIE BRAUD

Our first match of the new year was somewhat thwarted by weather but a few brave souls showed up to make the match a success. It was cold and lightly raining so I sent my wife Carolyn home and did the target setting myself. I'd like to welcome two new IHMSA members in attendance today. Sal Molea and Ellis Sisk. Both had sampled our sport last year and were eager to get scores on their new cards. Sal shot a Practical Hunter entry using a borrowed Ruger Charger and managed a 36X40. He then re-entered in the same category and got his first 40X40. Ellis also shot Practical Hunter using a Taurus Tracker with a red dot sight. His final tally was 23X40. Philip Braud shot his usual 40X40 in UAS with his Ruger Charger. The rest of the match was consumed by NRA Cowboy Lever Action shooters who share the range with us on match day. The highlight of the match was the performance of Dustin Flint who shot a 39X40 in Cowboy Smallbore and then aced a 40X40 in Cowboy Pistol Cartridge. My thanks go to all who helped pick up the range at the end of the day.

**ASCENSION SILHOUETTE  
GONZALES, LA  
FEBRUARY 6, 2016**

**BY: CHARLIE BRAUD**

We had a very light turnout for our February match. Philip shot his usual UAS 40X40 with his Ruger Charger. I had a poor showing with my High Standard in UAS. The turkeys just would not cooperate and I settled for a 36X40 in UAS. Ellis Sisk managed a 20X40 in Practical Hunter 22LR using a Taurus Tracker revolver. We had one non-IHMSA member shoot a respectable 27X40 with a FA revolver. We did have several NRA Smallbore Cowboy Rifle shooters share the range with us but I don't have their scores. After our usual match, we reset the range and shot an unsanctioned big bore swinger match alongside the NRA Cowboy rifle shooters. I did manage a UAS 40X40 with cast bullets using a XP100 7BR

**ASCENSION SILHOUETTE  
GONZALES, LA  
MARCH 6, 2016**

**BY: CHARLIE BRAUD**

Today we had the best match we've had in quite some time. Fifteen entries were fired along with 11 NRA Smallbore Cowboy Rifle entries. We were glad to see Allen Gaskin catch a break from his busy work schedule so he could attend today. His Freedom Arms revolver delivered a 34X40. He added an Unlimited 37X40 and a UAS 34X40. Richard West dropped by and fired a couple of UAS entries. First a 33X40 with his Volquartsen Ruger MK, then he re-entered with his Shilen Anschutz and finished with a 38X40. David Heintz had two entries, a UAS 38X40 and a UASFS 29X40. In spite of the brisk winds today, my brother Philip and I each shot UAS 40s. I tried my hand at Practical Hunter Short Course using an iron sighted Contender 22 Hornet. The result was a 37X40. Other PH entries included Philip's 39X40 with his scoped 22 Hornet, Cliff Johnson's 39X40 with a new-to-him Magnum Research 1722, Ellis Sisk's 30X40 with a FA Revolver, and a pair of entries by Sal Molea, a 31X40 and a re-entry 37X40. At the end of the match Philip and I had a UAS shootoff to decide our matching scores and I somehow managed to best him by a couple of targets. The weather was great today and a good time was had by all. A big thank you goes out to everyone who helped with target setting today, giving myself, and even more so my wife Carolyn, a much needed break. And thanks to David Heintz for remaining after the match to help pick up the rails and targets.

**SMALLBORE RESULTS**

**BY: CHARLIE BRAUD**

This could have been the shortest match report I've ever written so I think I'll add some details to help explain. I am match director at both of these venues in the north part of our state and they require a drive of about 245 miles, one way, from where I live in the south. Since I am retired, I usually make the trip a few days early, in this case 10 days early, so I can prepare the ranges at a leisurely pace. I have accommodations on some property I own in the area and this allows me comfort for my stay. On the day of the drive, the weather forecast predicted a couple of days of heavy rain (somewhat of an understatement). Some of you may have seen the reports of record flooding that resulted from this rain event in northeast Texas, most of Louisiana, and into Mississippi. I was literally trapped at my location for 3 days because of flooded roads. Within a 15 mile radius of my location at least two people perished in the flood. I was finally able to prepare for my scheduled matches but didn't really expect much participation. But I had traveled all that distance and as the waters started to recede, I was determined to make the matches happen. Several people assured me they would make an effort to shoot but in the end, there was only me. I fired some token entries and below are my scores. I have combined both matches into one report.

**Cherokee Gun Club  
Gainesville Ga  
Region 2**

Our first match of the year was held on February 6<sup>th</sup>. The weather was a bit cold as one might expect for a February match. But we still had several shooters come out to knock the rust off the targets and their shooting form. It sure was good to see all our friends and make some new ones.

Perhaps all that rust got in the way of anyone shooting a perfect score. Maybe it was the extra clothing, or even too many Christmas cookies. To the uninitiated when shooting freestyle in our game many of the shooters shoot from what is called the Creedmoor position. Here the shooter lays on his or her back with their feet down range.

You then raise your knees keeping the feet flat on the floor. Then you brace the handgun on your right or left leg depending on which side your dominate eye is on, align the sights and press the trigger. Easy-peasy nothing to it! If you have done your job right you are rewarded with a ding when you hit the target.

To our new members in our game we shoot at metal targets from 25 to 100 yards with handguns. The rules for our game can be found at [www.ihmsa.org](http://www.ihmsa.org). The disciplines we shoot are Field Pistol, Small bore and Air pistol. We usually start around 9:00am and shoot until around 4:30pm. Matches are held the first Saturday of the month, and you are welcome to watch or step up and shoot the club gun. We have a Ruger Charger outfitted with a Nikon scope and ammo that you can shoot. After 100 shooters try the gun we will give it to one of them. So for \$10.00 you get to shoot a gun that somebody else has to clean and get a chance to win it. Sounds like a win win.

Our next match will be held on March 5<sup>th</sup>. Hopefully we will see you there!

I see Dave Wood made the 60 club for Field Pistol with a 62.

I want to thank everyone that helped put the match on. Dave Herget and Perry Brown (And I) set up on Saturday. Mike Lawson called the line so I could shoot a match. Dave wood, Perry Brown, Mike Slusher and Hunter put things away while I did the bookkeeping. If I have overlooked anyone, Please accept my apology.

## KANSAS

### WOWCC

Williamsburg, KS

11/1/2015

By Chris Dunlap

We had a very good turnout for our last match of the year. Maybe the chili feed had something to do with it.

There were only 4 40's shot today. Larry Jackson and Jack Wade tied in UAS with 40+6. The second shoot off had Larry winning by 6 to 3. Bob Doherty got the only 40 in PHSC. Jack Wade shot the only 40 in PH22 for the win.

	John Richards	Pardini	31
HSUAS	Steve Martens	Steyr	40

11/14/2015

We Had three 40x40's at this match, but the most impressive scores were a 38x40 and 39x40, shot by John Richards who shot all 3 standing disciplines. John shot a standing 32, an Unlimited Standing 38 and an unlimited standing iron sights 39. He won the Standing aggregate with a score of 71. He also won the 3 gun aggregate with a score of 109.

11/28/2015

A.J. Richards was home from Iowa State University and came to the match. A.J. Had an outstanding match, shooting three standing entries. He shot and Unlimited standing 34, a USIS 30 for a leg in AAA and an International standing score of 35 to jump class from AA into AAA. Good shooting A.J.! There were two shootoffs at this match. In Unlimited, Steve won with 12 targets to Dan's 10. In UAS Ken won with 8 targets to Rick's 4 targets.

**By Paul Habig**

It was another small turn out for thr sin city silhouette shooters. Val did very well considering he is changing bullets and powder between animals and had no sight settings. At Least he had a great spotter. Debi had an off day which means she will probably flirt with a 40 next month.

**BIG BORE:**

P-INT	Val Shaver	TC6.5TCU	37
R-INT	Val Shaver	FA44M	37
UAS-AAA	Debi Wright	XP7BR	31

10/25/2015

First and foremost, I owe Joe Kennedy a giant apology. Joe is one of the nicest sin city silhouette shooters and I feel I took advantage of him. Joe showed up fighting both a cold and the medication and I talked him into shooting two guns despite the watery eyes and being drowsy. I had never beaten him in both standing categories before and I am I will pay for it next month.

Mel Douglas has been out "cheatin" and it showed with a nice 38 in UAS. When he learns how to hold his toungue just right he will be shooting 40's. In FP, Val found out how tough it can be without a little "cheatin". He shot a PAS 26 4 months ago, so how

tough can it be? Back to the drawing board Val!

**FIELD PISTOL:**

1/17/2016 and 1/24/2016

The Sin City Silhouette Shooters have taken an oath never to mention the BB fiasco that was the BB match in Jan. of 2016. Shhhh. Debi Wright did okay with a UAS-34 but Val says he may or may not have been there. Shhhh.

SB Sunday was a lot more fun for all. Val shot a 40 scoped on the little guys then tried FP. You know how I always say Val moans about shooting standing but does quite well? Can't say that anymore. He finally had the kind of day he talks about. Debi had hoped to get her next UAS-40 and don't know what went wrong, and neither does she but that wasn't close. She'll be back next month. As for our Miss Susie. She found out that PH w/o the bipod is a lot tougher. She'll be back next month with a target fore end on her Charger and we'll see what happens. It was nice to see Art Cheshire healthy enough to come back and join us. His score showed some rust but he seemed to enjoy himself.

**BB scores**

**February 2016**

**by Paul Habig**

February was one heck of a month for the Sin City Silhouette Shooters. Everyone was sick or out of town for the BB match and the SB match had it's up and downs. On the down side I missed 2 pigs with my revolver and only shot a 36. The other 8 pigs were center punched??? Debi slipped a little with her UAS gun and didn't get the next 40 she was looking for and Gary D found out just how much he has missed practicing. On the up side Val Shaver shot a UASFS-40 with 3 of the most marginal hits I've ever seen. Fortunately it doesn't take much to knock those little guys

down. Saving the very best for last, after several modifications to her Ruger Charger Sue Redhead(name, not description) shot a UAS 40 the first time out and is our newest INT class shooter there. Now she needs to start working on the little chickens at 100 yds. I think she'll do just fine. She also wants to start shooting 1/5 scale and I think she'll do well there also.

Mel Douglas is about ready to start traveling the USA and I hope he can shoot some matches while he's out there. I hope he gets that elusive 40 before he leaves but I think he'll only get one more chance. Also, Joe K is struggling. I know when he only shoots one gun that he is in pain. We are getting old but still giving all we have. The problem is we don't have so much to give anymore.

#### Grants Pass, OR

### 19 Turkeys, Match Director

1/6/2016

For a while, I thought the "match" would be just Frank & myself, but Tom & Gordy came a bit later & we had a good time. One thing about AIR is that it doesn't take too many entries to have a successful match and it's not too labor intensive! Frank did well at his first official IHMSA match. Tom was our High Senior.

Inclement weather caused December to be a bust – no Small Bore or Big Bore matches. What a difference a month made; we started 2016 off with 30 entries! We welcomed Marla Smart, Levi & Tammy Lee & Joe Cullison back after several months absence.

Dave Whitman had a pretty good day taking the Field Pistol – Production class with his S&W revolver & the Fifth Scale championship. That darned turkey kept him from a 40 in FS however. Paul Hoadley shot a great 30 in Field Pistol – PAS for that championship.

We had a huge number of rifle entries, 6. Rifles are certainly welcome and it does add to the IHMSA paid sanction fees which is good for the organization. Congratulations to Rich Burket for shooting a very nice 32.

Over on the Small Bore side, Joe Cullison had a great day taking the Unlimited championship in a two round shoot-off with Charlie Dean, winning the Production and Standing titles, and shooting into the President's 100 and 140 Clubs. Charlie Dean shot a very nice Revolver 40 to take that title and High Senior. Levi Lee took the UAS and US titles, and Marla Smart was our High Lady.

Thanks to Dave, Paul, Charlie, Rich, Joe, Levi, & Walt for helping to set up and tear down the range and clean up the office.

1/17/2016**

To quote Edgar Allen Poe, "Once upon a midnight dreary" we held a pistol match. It was a dark day with high fog, and it rained buckets every second. The target setters were soaked by the end of the day even with rain gear. Thus, attendance was understandably low. But, there were some bright spots.

Joe Cullison had a great day taking Production, Unlimited Standing (with a 39), and Standing plus shooting into the President's 100 3 Gun and 70 Standing Aggregate Clubs.

Charlie Dean & Joe both tied in Revolver with 36's, but Joe finished at the end of the day and neither wanted to shoot off the tie. Thus, Charlie took the title with reverse animal count. Charlie also took the Unlimited and Half Scale championships plus High Senior.

Rich Burket brought his Winchester Model 94 chambered in 25-35 and just met his monthly goal of shooting a 30 or better.

Thanks to Joe, Charlie, Dave, Paul & Rich for helping to set up and tear down the range. Hopefully, February will be drier!

Thanks to all who came and shot with us and to everyone who tore down the range as I had to leave for a dentist's Appointment.. I contribute my terrible score to the "shoot & skoot" mode and the stress associated with a dental visit.

Congratulations to Ron & Tom for their wins. Ron took the US title and Tom took the UAS & USIS title and was High Senior.

As always, we look forward to the friendship of fellow shooters.

2/14/2016**

Our wish for a dryer match was granted this month – perfect weather with a decent turnout. It was great having Mike Abel back after a knee injury, and son Tyler also came from Dundee. Father & son had a Standard Pistol contest with Tyler's new Gold Cup in Field Pistol with Mike coming out on top. However, Dave Whitman took the FP-P title with his Standard Pistol entry. (As an aside, Mike said he could hit a 4 foot square piece of steel at 600 yards with Tyler's pistol in no more than 10 shots. Two witnesses agreed he hit it in 7.)

The rifle entries are growing with 4 this month. Rich Burket and Walt Padgett both shot excellent scores.

Charlie Dean had an excellent day taking the FP-PAS, SB U & R titles as well as High Senior. Paul Hoadley took the US title. Thanks to Dave, Mike, Tyler, Charlie, Rich & Paul for helping to set up and tear down the range.

Turnout was a bit slim today due to illnesses, injuries & other unforeseen circumstances. Also, we had to be a bit creative at the beginning of the match. I believe the photo will explain things. After Charlie & Joe shot chickens & pigs with their US guns they broke out their Unlimited guns and shot chickens and pigs. Fog had lifted enough by then that they could shoot their U guns through. Two 40's gave us a great shoot-off with Charlie whacking 5x5 with his home rolled cast load to Joe's 3x5. That also gave Charlie the High Senior title.

But, Joe continued undaunted and fired a great Revolver 40 at the end of the day and took the US & S titles. That gave him entries in the President's 100 Club, 140 Club and 60 Standing Clubs.

Paul was trying a new load in his Standing gun and Charlie shot his Model 57 in Standing for the first time.

Rich shot 2 rifle entries. His tried and true 25-35 gave him a great score of 33. He shot his 03-A3 for the first time getting sight settings. I'm sure that rifle will be shooting better soon!

Thanks to Paul, Joe, Charlie & Rich for helping to set up and tear down the range.

It was good having Barbara back shooting with us again. She took High Lady. Gordy took the UAS title and High Senior. There was a close race in US with Paul setting the bar at 29, but Ron came along and hit 30 taking that title.

Thanks to Frank, Ron, Barbara & Paul for helping to set up and tear down the range.

We had 6 shooters this month put 16 guns across the line. It was sunny, dry and cold this month. When I got to the range it was hovering right around 20 degrees. Good thing we have the wood stoves. They were a very popular place through out the day. On to the results of the match.

Only one 40 this month shot by myself in U-Int. followed by Steve Bishop firing an U-AAA, 34. Steve Cozort posted a nice UAS-AAA, 38 and a UASHS-AAA, 31, nice shooting Steve. Joe Stumpf posted UASHS-AA, 22. In production, Vince Leete posted a nice P-Int, 36 followed by Richard Nicol with a P-AAA, 33. Good shooting guys. Joe Stumpf posted a R-AA cast bullet score of 22.

Only one Small bore entry this month, Vince Leete posted a P-AAA, 22

In Field Pistol Vince Leete posted a PAS-AAA, 31 followed by myself with a P-AAA, 28.

Our target setters did a fantastic job baring the cold to get our targets set. Thanks to all who stayed to help pick up targets after the match. This kicks off our 2016 season. Hope to see everyone at the upcoming matches as well as some new shooters. Until next time shoot straight and be safe

We had 6 shooters this month put 16 guns across the line. Weather was dry and overcast with temps in the 40's through out the day. We had one new shooter this month. Shane Thompson came down from Bellingham to meet up with his friend Aaron Alexander from Astoria Oregon. Aaron has shot with us before and he talked his buddy into coming down to shoot. They are both in the coast guard and both originally from Alaska. Always good to have some new faces shoot with us. We were missing a couple of our regulars due to last minute circumstances. Hope to see them at the upcoming matches. On to the results of the match.

We had two 40's this month one shot by Steve Cozort in UAS-AAA, and the other shot by myself in U-Int. This was Steve's 2nd 40 in this class which moves him into International class. Nice shooting Steve. Aaron Alexander posted a nice U-Unc entry to put him solidly into AAA. Joe Stumpf pulled out the XP in 7BR and gave it a go with cast bullet and posted a U-AAA, 25. We had to shoot a tie breaker in UASHS as both Steve Cozort and Aaron Alexander shot identical 36's right down to reverse animal count. Aaron took the shoot off with 5 animals to Steve's 2. The targets were all half scale and were T, P, C, P, T. Nice shooting guys. In P-Int I managed a 38 narrowly eeking out Vince Leete's 35.

In Small bore Vince Leete posted a P-AAA, 33 and Joe Stumpf posted a S-AA, 5.

In Field Pistol Vince Leete posted a PAS-AAA, 25 and Joe Stumpf posted a PAS-AA, 15.

Our target setters did their usual fantastic job getting our targets set. Thanks to all who stayed to help pick up targets after the match. Until next time shoot straight and be safe.
