Wildcat Corner
By Tom Acheson

Monitoring and maintaining uniform cartridge case length. This is one of the tasks hand-loaders are frequently addressing. Cartridge cases do “stretch” upon firing. Some get longer with a few firings while some cases take several firings to develop a measurable change in length. And the unfortunate thing is that the case does not get longer uniformly around the perimeter of the case mouth. If ignored or left unchecked, the case length can grow to a point where a loaded round can no longer be chambered.

I don’t know what your experience has been but for all of my handgun brass-.45 ACP, .41 Mag., .38 Special, .45 Colt; the factory fresh cases are never the SAMMI loading-manual maximum length. Those listed lengths are the “maximum,” but seldom are the new cases ever the official maximum length. But despite that, the cases should always be of the same length.

There are accuracy advantages to having the case as long as they can be without causing a chambering problem. One example is for a BPCR (Black Powder Cartridge Rifle) case. The most desired condition is to have the case no shorter than 0.005” less than the maximum available space in the rifle’s chamber. Many of these shooters anneal their cases after each firing. They want the case mouth to be pliable and flexible enough to open quickly upon ignition and maintain a seal in the chamber to close off the backward migration of combustion gases, allowing all of the expanding gases to be applied to moving the projectile (bullet).

Another area of interest is the case, after it is cramped, is allowing the cramped case mouth to be contacting the bullet in the same location on each loaded round the entire perimeter of the bullet. This helps impart the same amount of “resistance” to each bullet, helping improve velocity uniformity from shot-to-shot.

So how can we trim these cases to all be the same length? One simple way is to use a trim die that you screw into your loading press and clamp down, the case cannot move. This requires the L. E. Wilson manufacturing tolerances to assure that the case holder, which is resting on the Wilson “rails”, is square to the world including the cutter shaft.

In the attached photo, the case holder and trimmer assembly are made by L. E. Wilson and the black support unit with the clamp assembly is made by Sinclair International. Also seen is the Forster unit with its yellow accessory box. These units can be clamped to your loading bench with a “C”-clamp.

About the only negative feature I’ve seen with the L. E. Wilson unit is the propensity of the case holder and trimmer unit to rust when left out on my loading bench. To overcome this, I store the unit and case holders in my gun vault that has a Golden Rod electric dehumidifier in it.

So is case length trimming fun? That depends if you really enjoy hand-loading or only see it as a requirement to develop your best shooting scores. Personally I enjoy hand loading and managing as many of the ammunition components that I can to remove as many variables as possible, so when I turn in poor scores I know it is most likely the result of me and not the ammunition. And to me that is part of the FUN of shooting steel!

Hotels for Pasadena, CA – IHMSA Internationals

These rates are for the dates of arrival 7-10-15 and departing 7-18-15.
Note: These are the dates I gave to the hotels to hold the rates for our group so when you call make sure to state that you are with the IHMSA Group

Best Western Pasadena Inn
3570 E Colorado Blvd.
Pasadena, Ca 91107
Tel: 626.706.9100
Rates: Double (two queen beds) $140.00
Suite (one king bed) $145.00

Howard Johnson Pasadena
1599 E Colorado Blvd.
Pasadena, CA 99106
Tel: 626.304.9678
Rates: $112.00 - $128.00 (No rooms will be held for IHMSA)
Well this is my next to the last report I will be making as your president. I want to thank all of the IHMSA Board and all the IHMSA Membership for their support over the last nine years. It’s been a ride; we have had our ups and downs; that’s for sure. But I tried to do my best and to some that wasn’t good enough and to others it was good. It’s time for change, and I have always been a believer in change it can bring good and new innovative ideas.

Ken will also be resigning as the Region #5 Director, which I believe he has held since 1990. Please take time to thank him for all that he has done for this organization. He did an amazing job, as Industry Director also. Thanks to my husband for all his support during my tenure as IHMSA President, I could not have done it without him.

So, with all that said, we wish the very best to Steve Martens and the IHMSA Board for the future. We will continue to support and attend matches, it’s just an end to our volunteering in these positions will come to an end.

This organization has stood the test of time, in its 39th year we will be holding the first ever IHMSA World Championships at LASC; on the west coast. We are very excited to see this range and thank you Jerry Ray and Joe Cullison and to all who are making this possible. We appreciate your efforts more than you know. If you haven’t sent in your registration; either by snail mail or email, get them to Ken as soon as you can. We have approximately, 290 entries to date and we would like to make this a great success. California, here we come!

Until next time shoot often and safely.

THE NEW SILHOUETTER

June, 2015

By Ken Horowitz

Alternatives to traditional brands of ammunition sometimes become available and are often of high quality. While many people like to stick to what they know and have been using for years, it pays to try other things. Having been brought up on 22 ammunition (short, long and long rifle) in only Remington, Peters and Winchester, it took me a long time to even try American staples such as Federal and CCI, let alone look at foreign brands. As a kid, names such as Eley or Lapua were never even mentioned.

In recent years, ammunition made across the seas has spurred some interest, but we needn't cross oceans to go outside our borders. Just look to the South, below the Rio Grande... Aguila Ammunition of Mexico, the largest manufacturer of ammunition from below our border all the way to Antarctica, has been making ammunition since 1961, before many of you were born. Like many things arriving from Mexico in recent years, the quality is way above our frequently xenophobic view of expectations of imports.

In addition to its other businesses, Texas Armament & Technology is the exclusive distributor of Aguila Ammunition in the United States and Canada. Here in the Northeast, finding a local source for Aguila ammunition is not an easy thing. However, distribution is widespread in other parts of the country, particularly in the South, where Academy Sports + Outdoors spreads its wings from North Carolina through Texas and carries several of the many Aguila product offerings. Additionally, Aguila ammunition is available from many of the regular mail order sources for the shooting sports.

Recently, I got my hands on one box each of four varieties of Aguila 22LR, namely, .22 Rifle Match - Competition, .22 Target - Competition, .22 SuperExtra and .22 Supermax - Maximum Hyper Velocity. The first three use 40 grain lead bullets while the latter uses 30 grain bullets. With such a small supply and currently possessing 8 platforms (counting 3 T/C Con-tender barrels each as separate platform) that launch 22LR, testing was very limited. However, three of the four varieties proved very to superibly accurate and quite capable of handling employment in IHMSA Small Bore endeavors. However, like everything else that's 22LR, firearms are fickle and I would not acquire bricks or cases of anything without first testing them in the firearm intended to be used.

Each of the four boxes has the words Eley Prime on them. I got curious as to what this meant. Searching the usual Internet blogs and discussion boards, I found a lot of confusing, contradicting and what turned out to be false information (Who have thought, on the "net" no less?). According to the Aguila catalog, "Manufactured using world famous ELEY technology, Aguila Rimfire cartridges are meticulously formed for performance and perfection. Clean combustible powders, maximum output at controlled pressures and a strict quality assurance program, all add up to reliability and performance that is changing the balance of power." A spokesperson for Texas Armament & Technology, Aguila's distributor added further, "ELEY is merely a technology utilized in the manufacturing of the ammunition."

On the other hand, according to a spokesman for Eley, "Several years ago Aguila manufactured ELEY sport under licence, including the ELEY Prime process. Early in 2014 we withdrew the licence as we could not guarantee the quality of the ammunition, and wanted to bring the manufacturing of the ammunition back to our factory in the UK. It was replaced with ELEY target in the US..."

Regardless of the labelling issue and what relationship, if any, there is to Eley, my limited testing of all four types proved three of them more than adequate for IHMSA Small Bore. The lone product I would not use is the .22 Supermax - Hyper Velocity, but there is no surprise here. Of the four varieties this is the only one that would be destabilized due to encountering transonic speeds when shot from a pistol barrel. These types of cartridges typically need a longer rifle barrel to maintain supersonic speeds all the way to the target. While I did not bother to chronograph any loads, experience tells me the standard velocity rounds would stay below the speed of sound when fired from pistol length barrels. Hyper velocity rounds start above the speed of sound but are ravaged of accuracy as they slow through the transonic realm.

While groups opened up a bit with the .22 SuperExtra, hitting a ram sized target at 100 yards is not a problem for the ammunition. Of course, with a scope off a bench is one thing; shooter fallibility is another. With performance and availability on the table, I would not hesitate to purchase the .22 SuperExtra. The .22 Rifle Match - Competition and .22 Target - Competition are no brainers for me and I will be looking for them in the marketplace.

I managed to salt away enough of the .22 Rifle Match - Competition to actually shoot a mini-Palma competition that is coming up in May. (This June article is being written in April due to publication deadlines.) The mini-Palma match only requires 30 rounds for score. Unfortunately, I did not have enough of any of the loads to shoot my club's 22LR monthly match that has a course of fire at 50 yards, 100 yards and 200 yards. That match requires 60 shots for score plus sighters at each distance. With only 50 rounds of each variety before testing, I couldn't complete the whole course of fire with any one variety. Then there was the pleasure of shooting such tight groups that I didn't have the foresight to save even enough to fire 20 rounds plus sighters of different varieties at each distance. I'll let you know how I do at the mini-Palma match.

Installment Plan Life Memberships

The Installment Plan for Life Membership allows you to purchase a Life Membership by making four monthly payments of $100.00 each (a total of $400.00), or in the case of a spouse two $50.00 each (a total of $100.00). When your last payment is received, Headquarters will send your Life membership card, certificate, and pin.

If you're in the middle of your membership year, you can purchase a Life Membership now and apply the unused portion of your current membership. Call IHMSA Headquarters at (801) 733-8423 to find out how much credit you'll receive for your current membership.

Life Membership is a great way to enjoy IHMSA for years without the hassle of paying yearly dues and show your support of IHMSA at the same time — order yours today!

Rules Addendum: Practical Hunter

**Class Description:** All 3 classes are to be shot from any SAFE freestand position including prone, kneeling, sitting, or standing. The Practical Hunter Long Course will be shot on the 200 meter Big Bore range with the standard full size targets at their normal ranges. The Practical Hunter Short Course will be shot on the 100 meter Field pistol range with the standard targets at their normal ranges, using standard field pistol cartridges only.

**Classification Scores:**
- A 10-15
- AA 16-25
- AAA 26-38
- INT 39-40

2014 Rule Books

Dear IHMSA Members,

In an effort to keep costs down and with the only changes being the addition of the Practical Hunter category, Headquarters has been directed to not print the IHMSA Rule Book for 2014, but to send an addendum with these changes instead.

We understand that it is important for the membership to have access to the rules. Therefore, since the 2014 rule book is available on our website (go to www.ihmsonline.org, then click on the RULES link), Headquarters is being directed to only send rule books with new Memberships and upon request for replacement. If you need a rule book, please contact headquarters.

Thank you for your patience and understanding in this matter.

Nancy LaCroix
IHMSA President

IHMSA NEWS (ISSN 1050-1510) is published by International Handgun Metallic Silhouette Association. 3053 Lake Dr. South Jordan, UT 84095-7711

NOTICE

The IHMSA Board of Directors have voted to allow the printing of NRA match results in the IHMSA News, providing they are submitted by a club that is running dual (IHMSA/NRA) sanctioned events.

SANCTION FEE NOTICE

Please make every attempt to send in your Sanction Fees promptly so the Sanction Fees help us pay for the printing of the Match Results.

Match Publication Policy

As we continually have new match directors, following is the IHMSA News’ policy on publication on state, regional, and “specially” match notices and match results.

Any IHMSA sanctioned club in good standing may publish a notice of their club’s state or regional championship match at no charge for three months. State match notices are limited to 21/4 X 5”. Regional match notices are limited to 4 3/4 X 5”. If a club is holding a “specially” match and that match does not replace one of these championships, the IHMSA News will publish a 21/4 X 5” notice at no charge one time. These notices will run in Section B only. The club may publish additional notices of the same size for $45 per issue. Ads must be prepaid before printing. All payments are to be sent to IHMSA HQ, P.O. Box 22356, Cheyenne, WY 82003. The club may specify whether the paid notice is published in Section A or B.

State match results can list both first and second place finishes. Regional match results can list first, second, and third place finishes. “Specially” matches replacing a state championship may publish first and second place finishes. “Specially” matches replacing a regional championship may publish first, second, and third place finishes. All other match results wherein the total number of handgun silhouette entries exceeds 11 (including all IHMSA, NRA & non-member guests) can list only the first place finish. Matches with less than 11 total handgun entries as defined above can list all IHMSA handgun entrants and their place. Regardless of the above, all 40’s, 60’s, and 80’s (depending on the number of rounds fired at the match) can be published from ANY IHMSA match.

An IHMSA club holding a dual sanctioned (IHMSA/NRA) match may submit a match report for publication in the IHMSA News containing both IHMSA and NRA results. The number of published NRA results may not exceed the number of published IHMSA results. Publication is limited to IHMSA sanctioned handgun disciplines only.

Please address any questions concerning this policy to your Regional Director.

MARKSMANSHIP COMPETITIONS

The Burris cup:
Scoped .22 Long rifle caliber Handguns only. Your best 5-shot group at 100 yards or meters. Guns may be bench rested over any solid rest as long as the gun is not in a ransom rest, vise or any other mechanical clamping device. Lying on your back in a freestyle position and piling sandbags by your body for support is legal. This will allow scoped guns setup for Creedmoor to better compete.

The Weaver Trophy:
Scoped centerfire handguns. Your best 5-shot group at 100 yards or meters. Guns may be bench rested over any solid rest as long as the gun is not in a ransom rest, vise or any other mechanical clamping device. Lying on your back in a freestyle position and piling sandbags by your body for support is legal. This will allow scoped guns setup for Creedmoor to better compete.

The Merit Challenge:
Centerfire handguns with iron/open sights. Your best 5-shot group at 100 Yards or Meters. Groups must be fired from an IHMSA legal position. No benchrest or artificial support allowed.

The Daisy Avanti Trophy:
AIR production guns with iron/open sights. Your best 5-shot group at 18 Yards. Groups must be fired from an IHMSA legal position. No benchrest or artificial support allowed.

General Rules:
All entries must be shot with IHMSA legal guns. Production, Revolver, and Unlimited guns are allowed in the Burris, Weaver and Merit classes.

Witness:
Winning groups must be witnessed by an IHMSA or NRA member. Eligible winning targets must be signed and dated by the shooter and witness. Also, please include the shooters IHMSA number and the witness’s IHMSA or NRA number by their name. A witness is not required to enter but is required to win.

Targets:
Targets submitted must contain no more and no less than 5 shots in each bull zone.

Records program

Field Pistol Records Program

By Al Kuenn

Just one score to report in this addition, it’s been a bit of a slow summer so far. Melvin Calliham fired a 33 in Prod using his BF pistol in 32-20. He shot the same gun again in PAS and shot a 27, so he makes the 60 club as well. Melvin was shooting at the Cherokee Gun Club in Gainesville, GA. Nice shooting Melvin!

Shoot well and shoot often.

Send your scores to Al Kuenn, 5725 E Peak View Rd, Cave Creek, Arizona 85331 or e-mail to:

½ and 1/5 Scale Records

June 2015

By Jim Harris

A couple changes since the last issue:

Jerry Ray continues to lead in ½ Scale UAS, now with a total of five 40x40s. I’m sure Jerry is looking toward the IHMSA Championship here in L.A.

Dave Smith from Michigan entered the 1/5 Scale UAS records for the year with a nice 40.

Hope we get a nice turnout to the big International Championship!

Keep up the great shooting, everybody!

Send your records notices to me at harris-grp@earthlink.net, or my home address: 1567 Bridget Ave., Simi Valley, CA 93065. Or give me a call at (805) 581-0009.

**By Dan Hagerty**

Only 1 forty round score to report. Jerry Stringham of KY Joins the 100 club with a score of 100 even (P:38, U:38, S:24). Congrats!

The following are scores from the 2015 West coast championships which was a 60 round match. To qualify for the 60 round 100 club, you must shoot a 150 or higher 3-gun aggregate. For 60 round 140 club, you must shoot a 4-gun aggregate of 210 or higher.

For the 60 round 100 club, 3 people qualified. Joe Cullison of Oregon shot a score of 159 (S:41, P:58, U:60). Eric King of California shot a score of 157 (S:40, P:58, U:59) and Richard Redd of Oregon shot a score of 155 (S:35, P:60, U:60).

For the 60 round 140 club, 2 people qualified. Joe Cullison of Oregon shot a 215 (S:41, R:56, P:58, U:60) and Eric King of California shot a score of 212 (S:40, R:55, P:58, U:59).

Scores next in parentheses are the converted scores to a 40 round match.

Region 3 Report June 2015
by “Hardtosedoverget” Region 3 sucker!
Settling into my duties as Region 3 Director and getting out the news of this years recruiting offer, the importance of match reports, and looking for an Indiana State Director.

First point, did you know there is a recruiting contest in Region 3 this year? It was posted in the IHMSA forum and now here for all to read.

This contest is for residents of my region. It is simple and a new recruit to our sport of hope and glory will win a 22 unlimited bolt pistol, top recruit will win a prize too. The rules are as follows:

Current (and continued) paid members are eligi-

ble.

This is for residents of IN, OH, PA, MI and On-
tario.

When you sign a new member please send your name and IHMSA number and their name & number to me at IHMSA3R@gmail.com

I will keep a tally of the numbers.

On Sunday of the ECC I will announce the Top recruit in the region.

That person will receive a certificate or plaque and a gift certificate to a shooting/reloading website of their choice. In the case of a tie we'll draw names or a gift certificate.

As of this writing, June 25th I have received one entry! Chance to win is darn good!!!

Second topic, the importance of match reports. Much has been written about this but due to personal experience I have another reason why match reports need to be published.

As many of you know my spotter and shooting partner is my daughter. She is rather shy and was reluctant to shoot though she enjoyed it. I found the perfect carrot to get her started in IHMSA, a potential $1,000 CMP Scholarship!

Since she was looking at several very expensive schools we had impressed the importance of her finding scholarships if she wanted to attend the university of her dreams. The requirements are pretty simple and a large majority of those that qualify are awarded the scholarship, with her gender I figured she had an fantastic opportunity for $1,000! I won't bore you with the details, you can see them at http://thecmp.org/communications/cmp-scholarship-program/

An excerpt......"Qualified for CMP JROTC Service Championships OR demonstrate rifle or pistol marksmanship competition experience"

Awesome! It worked! She began shooting matches with me and she loves it. It has also brought us closer, far and away the #1 benefit. She started shooting last fall which was the beginning of her senior year in High School. Due to no matches in the winter all she needed to do was fill out the paperwork this spring including COPIES OF MATCH REPORTS DOCUMENTING HER PARTICIPATION.

Well, as I am sure you can imagine, since the end of season match reports were never published she was automatically disqualified. Match reports matter in many ways. Not submitting match reports has cost us an extra $1,000 in tuition this fall.

Finally, we are fortunate to have Big Bore back in Indiana this year! Here are the details......

Here is info, dates and contact information.

to have husband and wife team Judy and Jerry Stringham travel all the way from Marion, Ill. These guys are what keeps silhouettes going. Their dedication to the sport is unbelievable. Jerry had a Ruger revolver tricked out to shoot flop and it was interesting to see. I had heard of one but never seen it. He said it is a work in progress. His other work in progress seemed to be working pretty good because he shot a 40 in unlimited with your truly spotting which gives him a leg into International. Good shooting Jerry and thankyou-to you and Judy for coming all the way over to shoot with us. Victor Aume shot a perfect-perfect score in SB-UAS. He shot all 40 of the regular targets then cleaned the shootoffs for a 40/10. Excellent shooting! Carl Skidmore and Bill Urbank battled it out to tie with 59 aggregates in FP. Carl had more shootoffs in Prod. Three perfect scores were shot; Victor Aume before mentioned in UAS and Dave Calloway with 40’s, and Jerry Stringham in Unlimited. Bob Ochs and Steve Powell are knocking on the door of International in FP prod. Bob hit 28/1 and now is getting the hang of the peep. Steve re-entered his iron sight gun in PAS and scored a 29/2. Jim Lejman is ready to move up to AAA in FP Prod and could easily grab a 60 club with a few more in PAS. We had a battle in 1/5 scale with Victor Aume cleaning 34. Dave Calloway and Rich Baird were right behind with a 32 and 27 respectively. It was good to see Steve Beck-Montgomery post a couple and interestingly he used to shoot with Judy and Jerry at the Paducan, Ky range. Thanks to everyone who helped set up and stay and tore down. I appreciate each and everyone. Thanks to Dave for fixing lunch. See you all next month.

**Our May match was greeted with mild temperatures, wind conditions were not too bad as some very good scores were shot. A total of 13 40’s were fired during the match.**

- Larry Curtis (1), Stephen Crews (2) and Dave Stone (1). Great shooting guys.
- Stephen Crews won the shoot-off in SB with a fine shoot-off score of 7x10 chickens at 100 yards. No 40’s were shot in fifth scale which was a bit unusual.
- Austin Hoover, one of our Juniors shot a very good score in UAS-SB of 36x40. Great shooting Austin. We appreciate all of our little shooters who came our match, You are welcome anytime, Thanks.
- Also, thanks to our target setters who again did a fantastic job and Mackenzie Schuff for her help with the noon meal.

LASC Match Report 
May 9 & 10, 2015
By Jim Harris

I’m sure everyone is getting excited for the historic IHMSA International Championship being hosted by LASC – for the first time here since 1977. That was the first officially sanctioned IHMSA International championship, the organization being officially born the previous year in El Paso, TX at their first “National” championship.

A note to our shooters regarding filling out score cards correctly: Please make sure to fill in the correct category and class for each entry (as well as the gun and score). There is some confusion since IHMSA instituted its Practical Hunter categories, and there are no correct corresponding scorecards. As a result, entries need to be handwritten boldly on the scorecard as to what the category is. Most times shooters use the IHMSA Field Pistol and 1/2 Scale cards, but also the club/NRA Hunter’s Pistol cards. It’s very difficult to reconstruct the match standings after the fact with missing or incorrect data on the cards. Thanks!

Congrats to Joe Cullison for his terrific Aggregate performance. Big Bore 3-Gun 110 and 4-Gun 144, plus a BB Standing Agg of 71. Joe also posted into the records club with Smallbore Agg of 105. Amazing shooting, Joe!

Looking forward to seeing everyone at the June match!

### JCSA Pistol Silhouette Club
Grants Pass, OR
19 Turkeys, Match Director 5/10/2015

**COMMENTS**

This was the last match prior to the West Coast Championship & I was hopeful that it would be a big bigger than it was. But, everyone who shot had a great time! Doug Hockinson took the Production and Unlimited Any Sight titles. He had new sights on his Unlimited barrel and used it in UAS to refine sight settings. Dave Whitman and Charlie Dean traded first places. Dave took Revolver from Charlie and Charlie took the Half-Scale and Unlimited titles from Dave. Charlie’s Unlimited win gave him High Senior. Paul Hoadley took the Standing title, and Dave took Unlimited Standing. Rich Burket joined us with his 25-35 rifle and shot well considering his back issues.

Thanks to Dave, Charlie, and Paul for helping to set up and tear down the range.

We need your help!

First and foremost, IHMSA is in dire need of a new Secretary/Treasurer. For this organization to grow and prosper, we need someone to step up and take on this position!

As your new IHMSA News editor, this position was much more than I expected but a job that I can perform. Now that I have the problems with the Post office taken care of, printed copies will be mailed out. The email database is being created now and when done, members who have opted to get a digital version will start receiving an email when the IHMSA News is available.

If you notice in this issue, the Membership forms and the entry form for the 2015 World Championships are now full size for your use. The previous versions were just too small to use.

There are three big championships coming up in the next three months. First will be the West Coast Championships in Grants Pass, Oregon for June 16th-20th. After that will be the IHMSA World Championships in Los Angeles, CA for July 10th-17th. And last will be the East Coast Championships in Tusco, OHIO for July 30th-31st and August 1st. Please support these championships so that they can be a success.

The Financial Reports for 2013 and 2014 are almost ready and will be printed in the IHMSA News. This is one reason we need a Secretary/Treasurer.

And last, the results of the IHMSA President's ballot will close on May 1st. After that, they will be checked and the results will be released to the membership.

From your IHMSA News editor.

Arrangements have been made with Ron Cottriell, President of Angeles Shooting Ranges to receive ammo from people flying in to the World Championships. Ammo can be shipped to the following address:

Angeles Shooting Ranges
C/O Ron Cottriell
12651 N. Little Tujunga Canyon Road
Lake View Terrace, CA 91342

Make sure you indicate on the outside of the box that this is for the IHMSA World Championships.

Also, sales of firearms from Gun shops to Non-Residents are not allowed in the state of California. Private party sales will be discussed later as these laws are changing due to a federal court ruling and I need to do more research.

REGISTRATION FORM
2015 IHMSA World Championship
July 10 – July 17, 2015
Los Angeles Silhouette Club
Angeles Shooting Ranges
12851 Little Tujunga Canyon Rd
San Fernando, CA 91342

Send mail entries to:
