NEW IHMSA WORLD RECORD!

Forward By Daniel Hagerty
Story by Joe Cullison

On February 8 2015, At Josephine County Sportsman Association in Grants Pass, Oregon (Home of The West Coast Championships), Joe Cullison Set a New Smallbore 40 round 4-gun Aggregate of 155x160. Along with tying the 3-gun Aggregate of 155x160, Set a New Smallbore 40 round 4-Championships), Joe Cullison (Home of The West Coast association in Grants Pass, Oregon) in Josephine County Sportsman Association.

The match report!

The final gun of the day will be Small Bore Unlimited. I'm thinking that the Production gun was on and maybe I should shoot it for Unlimited. Nope, the Unlimited gun rode all the way to the match and never complained once. It deserves a chance. After going clean through the turkeys, I blow just over the first ram. Down 2 clicks and then clean the rest for a 39.

Not too bad a 36 Standing, a 3-gun 116 and a 4-gun 155. At this point I think the record for 3-gun is 116 so I may have a tie. I'm not sure what the 4-gun record is so I'll have to find out. On the way home I Call Paul Habig, one of the best Small Bore shooters in the world. Paul tells me the old record for 4-gun is a 153. Maybe I do have a record? When I get home I email Rich Hawkins who was the Small Bore records program director. Rich confirmed what Paul had Said. The 153 was shot by Steve Hannawacker way back in 1992 and was tied by Lon Pennington in 2008.

It was a good day at the range, I got to shoot with my friends.

Highlights for this issue

This issue is what I call the Catchup issue! Match reports are updated as far back as May 2014. If it is not in this issue, We have not Received The match report!

On Page 5, There is a Ballot for voting for the New IHMSA president. Please, Send your vote in!

Also, we are still looking for a new IHMSA Secretary/Treasurer. A nomination form is also on Page 5. This is a position that needs to be Filled As soon as Possible.

On page 8, The Editors comments are posted. This has some good info to read.

And last,

SPRING IS ALMOST HERE! Let’s get ready to shoot some Silhouettes!

2015 world championships info 19
I need to make a correction from my last report, as Dell Taylor let me know; all ballots must be mailed to him because our bylaws state that they must be mailed not sent electronically. So please everyone vote and mail your ballots to Dell, remember you have until May 1, 2015.

Not much to report this month, Ken and I are more than ready for spring! This winter has been a long cold one for us. We are especially looking forward to this year’s IHMSA Internationals that are being held at the LASC Range. Jerry Ray and Joe Cullison are preparing everything and they are right on schedule.

You will find a list of hotels that are available and close to the range in this IHMSA News. We will be holding the Annual Delegates and IHMSA Board meetings along with the banquet at the range so we are not choosing to have a hotel listed as headquarters this year. All the daily postings and the final match winners will be listed and posted at the LASC Range.

I also want to pass on some information on the surrounding area for visitors to Pasadena, CA, which is the closest city to LASC. They have a Pasadena Convention and Visitors Bureau which has self-guiding tours. They are located 300 E. Green Street, Pasadena, CA; their phone number is 626.795.9311 or toll free at 1.800.307.7977.

If you have any questions, or concerns, please do not hesitate to email or call me, I am still the IHMSA President until the end of July. Until next time, shoot often and safely.

By Tom Acheson

The snow and ice appears to be on the way out so it’s time to get out shooting again! In preparation for that I’ve been out in my “garage foundry” casting up bullets for the fun ahead. Of the two tasks needed for bullet making, casting and sizing/lubricating, the casting step is probably the most time consuming. Plus it must be done either outdoors or in a well ventilated location so ambient weather conditions will dictate when you can do your casting.

Along those same lines, there is a gun show here in the Twin Cities every March. It is the largest gun show in the area and has a good attendance level. Being a member of the CBA (Cast Bullet Assn.), match director at our club and Region 5 Director for the CBA, I’ve been hosting a CBA table at this show since 2005. Our early show efforts focused on the CBA benchrest game, with example rifles of each gun category (class), etc. We eventually discovered that this topic was not of high interest to visitors to our table. So we switched gears and focused instead on bullet casting and showing how it can reduce the cost to shoot and increase the fun of shooting.

On our table we have a cartridge board with examples of the many rounds people use in the CBA matches. We include several of the paper targets seen at our matches. A small Lee 5-pound pot and a ladle, some bullet moulds and two piles of bullets, some plain base and some with gas checks, are the “equipment” items we display.

Subjects often discussed with the visitors to the table were:

- At what velocity do you need to consider using a gas check?
- How do you attach a gas check?
- What casting equipment is needed? What does it cost?
- What alloys are used? Where do you get them? What do they cost?
- Do people actually use CB’s in rifles? What is the maximum velocity that can be used?

I had copies of our local match schedule available but not very many were given out, due to a higher interest level being elsewhere, not formal matches.

We found one area long ago to avoid…do not talk about our own individual accomplishments. That can be seen as bragging and newbies just don’t care about you or what a great shot you are!

What draws the most attention? The pile of Fouling Shots (the CBA bi-monthly publication) on the table. The longer they stand there and pick up a copy to look at, the more you can see interest forming on their face. Anyone who signed up with the CBA was given 2 copies of the Fouling Shot. Those showing a more than casual interest were given a magazine copy and a CBA application. We had (21) CBA membership applications available and handed all of them out. We did sign-up three new members and renewed two existing members. So (16) applications are floating around somewhere.

The side benefit to us behind the table, besides talking about our hobby to strangers, is the chance to say hi to friends visiting the show who we haven’t seen for a while, talk guns and moulds among ourselves and debate long held cherished bullet making “theories”.

So why the discussion here about the CBA? This could easily have been an IHMSA sponsored table. Replace the paper targets with some example steel silhouettes. Replace the equipment items with a few example handguns. Replace the Fouling Shots with copies of the IHMSA News. Keep copies of the local match schedule available. Have copies of IHMSA membership applications handy. Have some photos from matches but focus on simple production type guns. Avoid the exotic overly priced bizarre looking creations. These can be seen as examples of an equipment race and form the new person’s (incorrect) impression that says I’ll never be able to beat that gun!

The one thing that we can’t do at a gun show is first hand demonstrate how much fun the shooting games can be. That is an individual task. Bring a kid, family member, relative, neighbor, co-worker, etc. out with you. Bring lots of ammo and be ready to coach and not shoot so much yourself that day. I’ve had days when I had as much fun spotting for someone as doing the shooting.

After hosting an annual Free First Time Shooter’s spring clinic for 25-consecutive years, we are taking a different approach this year (2015). Instead we will try having coaches on hand and make individual specific efforts to find someone to bring to a match with us. We might return to the clinic approach in 2016 but first we’ll give this alternate approach a try. We’ll let you know…..
Installment Plan Life Memberships

The Installment Plan for Life Membership allows you to purchase a Life Membership by making four monthly payments of $120.00 each (total of $480.00), or in the case of a spouse two $50.00 each (total of $100.00). When your last payment is received, Headquarters will send you your Life membership card, certificate, and pin.

If you’re in the middle of your current membership, you can purchase a Life Membership now and apply the unused portion of your current membership. Call IHMSA/Headquarters at (901) 720-5420 to find out how much credit you’ll receive for your current membership.

Life Membership is a great way to enjoy IHMSA for years without the hassle of paying yearly dues and show your support of IHMSA at the same time — order yours today!!!

Rules Addendum

Class Description: All 3 classes are to be shot from any SAFE freestyle position including prone, kneeling, sitting, or standing.

The Practical Hunter Long Course will be shot on the 200 meter Big Bore range with the standard full size targets at their normal ranges.

The Practical Hunter Short Course will be shot on the 100 meter Field Pistol range with the standard targets at their normal ranges, using standard field pistol cartridges only.

The Practical Hunter 22LR Course will be shot on the 100 yard 22LR range with the standard Small Bore targets at their normal ranges.

Class Rules: Any hunting style handicap with

Practical Hunter

a maximum overall length of 21 inches.

• Optics are allowed up to a maximum of the power.

• Gun must be as manufactured with only cosmetic modifications.

• Ported barrels are allowed as long as they are shot from a safe position.

• A rear such as a bipod or a sandbag supporting the barrel in a prone position may be used by a new unclassified shooter and by shooters in classes A and AA.

Classification Scores:

A 0-15
AA 16-25
AAA 26-38
INT 39-46

~NOTICE~ Please keep your 2013 rulebook for the 2014 season. You will receive an addendum with your membership renewal

Notice

The IHMSA Board of Directors have voted to allow the printing of NRA match results in the IHMSA News, providing they are submitted by a club that is running dual IHMSA/NRA sanctioned events.

These results must be submitted by the established deadline presented in the previous edition of the IHMSA News, with the Dual Sanction Match Write-up and will be listed at the end of the IHMSA Match report. No NRA reports will be printed without IHMSA reports/accomplishments accompanying them. Please send all Match Reports to IHMSA, Inc., P.O. Box 22356, Cheyenne, WY. 82003 Phone – 801-733-8423, FAX – 801-733-8424

Sanction Fee Notice

Please make every attempt to send in your Sanction Fees promptly so the Sanction Fees help pay for the printing of the Match Results.

If there is a change that does not meet sanction fees for a match held, we understand club officers are busy, so we just send a gentle reminder. Still failing to receive the fees, a second notice is forthcoming.

A first notice if fees are still delinquent. After the final notice, the match dates will be delayed from the match schedule and the club’s sanction will be withdrawn until the fees are received.

U.S. Residents IHMSA Membership Application

Basic IHMSA membership is $50.00 per year. Included with your basic membership is a membership/classification card, air card insert if requested and a copy of the IHMSA rule book, and window sticker and target templates for new members. Existing members may purchase templates or stickers for small additional cost. Family memberships for three or an additional child, are $10.00 per person per year, and only include the IHMSA membership/classification card. IHMSA News is available electronically at www.ihmsa.org. First class postage of IHMSA News is an additional $10.00. Membership悬 to will be mailed first class. Please allow two to three weeks for processing.

Please print clearly.

Ballot for Election of IHMSA President

The following candidates have completed the necessary form and attained the two required signatures of active IHMSA Members to be considered for the position of IHMSA President. Please mark an "X" next to the name of the person you choose to become the next IHMSA President. All ballots must be returned to Dell Taylor, Region #6 Director and IHMSA Board Evaluations Committee.

All ballots must be received by Dell Taylor by May 1, 2015 to be considered as a vote.

Steve Martens

Cindy Smith

Return this ballot with your name, IHMSA # and signature to Dell Taylor at:
8899 Midvalley Drive
West Jordan, UT 84088

Note: Dell does not have an email address so all ballots must be sent to him by USPS address that is noted above.

(PLEASE PRINT ALL DATA ENTERED EXCEPT YOUR SIGNATURE)

The bylaws of IHMSA, Inc. require nominations for this office be submitted on this form or a facsimile thereof to the nominations officer, Dell Taylor, 8899 Midvalley Drive, West Jordan, UT 84088. The Nominations Officer must receive nominations no later than the 1st of March 2015.
The resurgence in interest in the .380 is something I find amusing. To be sure, the .380 is one of our most enduring cartridges, surviving the birth and death of other designs since it was first introduced by John Browning way back in 1900. While I was one of the cartridge for many years before I started shooting handguns, by the time I started throwing lead downrange from short barrels, the .380 was being condemned as inadequate compared to more robust cartridges.

I've never owned anything chambered for the .380 and so I've failed, perhaps unfairly, to see what it was not very satisfying, mostly due to the gun I used on my frequent trips to Florida to visit my mother-in-law, the two of us often spent time at any of several local shooting ranges. Even pre-9/11, traveling on a plane with handgun and other aspects of the anti-terrorism drive were a constant topic in the press that were unavailable for any price I was willing to pay. So, for the .380, I have more or less apologized for my .380 fodder and more or less apologized for having insulted his choice of firearm purchase. As I understand it, American Derringer will be producing "new" .380s but they are pricey as well.

Media hype on backup guns (and firearms in general) is ever changing. You would think someone would get embarrassed after insisting that some gun or ammo is a must have, later to downplay it and then when the winds change to praise it again. While this is perhaps the result of "good business" catering to advertisers and their revenue stream, you would think integrity would play a larger role in the degree of enthusiasm in the writing.

No matter how hard I try to keep my loading bench organized, it always seems there are more grennails trying to make havoc of it. My reloading bench is one of the working tables (not counting the generous space provided by the table portion of my radial arm saw). One of the other two tables is more or less devoted to machines such as drills, a bench grinder and a table-mounted router. The other table is a general work area, interconnected only by a vice at one corner. You would think with all this area, that my single-use reloading table would stay pretty neat. Well, it only does so if I work very hard at it.

One of the biggest culprits is the constant flow of UPS boxes that I usually plop on the table when I'm just peaking at the contents I ordered and deciding to put the stuff away at a later time. Each box is nothing, but cumulatively, they create a problem. Maybe I should just stop ordering so much. (Between a Wednesday when I wrote the immediately previous line and Saturday, as I write this, another two UPS boxes were added to the pile.) Another culprit is the stuff I "temporarily" place there. I get home from the range just in time for another event. While it is my habit of putting things where they belong after a range trip, it does not get done, if the event takes priority. With the best intentions of tidying things later in the day or early evening, it doesn't always get done.

While tidying is a singular event, clutter is cumulative. It doesn't take long for a single innocuous excess to become clutter. Thank goodness for long Winter spells that give plenty of time for getting things orderly when my head isn't in a feedback while lounging on the couch. One thing for sure is that my neatest reloading bench is always before I begin a long reloading binge. If for no other reason than safety, a pristine bench is always before I begin a long reloading binge. I don't have to be concerned with it getting in the way of anything else I am doing. When I first got involved with IHMSA, the attraction for me was Big Bore. Having read as much as I could about things back in the Elgin Gates era, Big Bore seemed tre-cool. When I first joined Falls Township Rifle and Pistol Association (FTRPA) and discovered that they shot IHMSA matches there, Big Bore was the lure. Over the years, Big Bore has been declining at FTRPA, mostly to Small Bore and Air Pistol. In the 1990s, I had to get to a match super early to get a Big Bore relay, sometimes missing an opportunity by not getting there early enough with all the time slots already being filled. Now, there are plenty of opening even if I get there later.

This is only what happens at FTRPA and I can only guess what's happening at other ranges around the country. I'm sure some of them still have heavy Big Bore contingents while others do not. Nevertheless, while Big Bore seems to be the flagship image of IHMSA, just as with stock splits, there is much more opportunity and potential interest in the other IHMSA disciplines. To be sure, there are many more ranges, especially here in the East, that have limits of 100 yards on their Big Bore. For Big Bore, they are out of the loop, but those ranges could easily have the other IHMSA events. Perhaps we can take note of the success of the securities industry and apply the same concept to IHMSA by emphasizing Small Bore, Field Pistol and Air Pistol where there are many more shooters than have availability of 200+ meters yards ranges.

Now those of you who live in the vast sprawl of the country where the length of your range is not an issue, Big Bore may be king and it can stay that way. However, I speculate that some shooting venues have not even considered IHMSA matches because they think having a range that can accommodate Big Bore is a pre-requisite. Just a thought.

I was happy to note in the November/December issue that the primary way IHMSA News will be available going forward is through our website hence saving on printing and mailing costs. This is something that I advocated several times in this column over the years. When the first "beta" issues were published, they weren't so good but kudos to whomever made them right. Now they are great.

In addition to cost savings, getting all issues for me is a plus. Somewhere between the publishers of reading materials related to the shooting sports and my mailbox, there are some issues that never, for whatever reason, reach my mailbox. In the 1990s, I had to get to a match super early to get a Big Bore relay, sometimes missing an opportunity by not getting there early enough with all the time slots already being filled. Now, there are plenty of openings and I don't have to be concerned with it getting "lost."
LEFT THE RANGE

John Adams, IHMSA# 4

On Saturday, November 15 2014, Johnny Adams (John’s son) sent out this message to John’s friends and acquaintances in the shooting community: “I have to inform everyone of the sad news that my father, John Adams, died unexpectedly this Saturday Morning. He has been battling cancer for a number of years and has finally succumbed to the disease. He has asked me to include this photo of him and asked that his friends remember him in this way.”

John was one of the original 12 founders of IHMSA and the first President of IHMSA. With his support in the early years, the sport of Handgun Metallic Silhouette has become what it is today. A story passed on to me was that he would take the first set of targets to different places around the United States and set them up and hold a match to promote the sport.

Later, John helped Elgin Gates in the promotion and expansion of IHMSA. John also was an Avid supporter of all the shooting sports and was always willing to help out any way he could. He was also an Avid Benchrest shooter.

John is also one of founders of the Angeles shooting range, which later became the Los Angeles Silhouette club (LASC) which will be Hosting the 2015 IHMSA World championships. This Range is also where the First IHMSA Sanctioned Match and the First IHMSA Internationals were held.

Many years ago, John was involved as owner of the SAECO company that made presses and other reloading equipment which was later merged with Redding Corp. Many of the reload-
NOTES FROM THE EDITOR:

First and foremost, I must apologize that the Jan/Feb issue has not been fully mailed out. I am working on this right now with the post office to get approved for Bulk mailing privileges.

As some may know, we no longer have a printing company that used to do the formatting, printing and mailing of the IHMSA news. This is now going to be done by yours truly (your editor). The first thing you will notice is that it will No longer be a newspaper and will look more like a newsletter.

We are also trying to go to a full electronic edition such as the NRA uses. This is a HUGE cost savings for the organization. Here is a few calculations for you:

1. With the old printing company, we were being charged $2,200.00+ per issue. This is an estimate based on information passed on to me.
2. With me doing the work, I have estimated that the cost per issue will be around $1,200-1,500.00 per issue. This is already a cost savings of around 40%.
3. With Going to electronic editions, with only a few copies being mailed, it should be around $600.00 per issue.

As you can see, this is a huge cost savings to go to electronic editions. The other advantage is you will get the IHMSA news sooner. I checked it with myself and this was my experience that my Paper copy normally would not arrive 2-3 weeks after it was posted on the IHMSA website.

First, The IHMSA news will always be available at the IHMSA website (www.ihmsa.org) you can also get older editions at the website.

The following is for Region, State and Match Directors:

First, I have finished updating the 2015 IHMSA match schedule listing, BUT I am missing a lot of Match schedules. Please get your 2015 match schedules to me so I can get the completed match schedule out.

Second, for match reports. If you can, send me your Match results in electronic form, Preferably in Microsoft word format, this would be a huge time saver for me and HQ. I can process almost any type of electronic format, but word is the best. If you mail a paper copy to HQ, this takes time and after it is received, it has to be forwarded to me anyway. Sending them electronically to me almost guarantees that I can get your results printed in the next issue. BUT, Make sure to send your Match Reports and sanction fee’s to HQ!

Third, I am trying to make electronic copies of all the forms for your use. Hopefully to make you’re Job, HQ and my Job easier. These will either be Word templates or Fillable PDF files such as the IRS uses.

And last, for the curious, I create the IHMSA news using Microsoft Publisher 2013. This is directly compatible with all Microsoft office products.

And, to end….. Spring is almost here! Go out and have some fun!

IHMSA NEWS-SECTION B

MARKSMANSHIP COMPETITIONS

The Burriss cup:
Scoped .22 Long rifle caliber Handguns only. Your best 5-shot group at 100 yards or meters. Guns may be bench rested over any solid rest as long as the gun is not in a ransom rest, vise or any other mechanical clamping device. Lying on your back in a freestyle position and piling sandbags by your body for support is legal. This will allow scoped guns setup for Creedmoor to better compete.

The Weaver Trophy:
Scoped centerfire handguns. Your best 5-shot group at 100 yards or meters. Groups must be fired from an IHMSA legal position. No benchrest or artificial support allowed.

The Merit Challenge:
Centerfire handguns with iron/open sights. Your best 5-shot group at 100 Yards or Meters. Groups must be fired from an IHMSA legal position. No benchrest or artificial support allowed.
.22 Records program

March 2015
By Dan Hagerty

First, Sorry. I do not yet have a 2014 recap to report. Now, even though I have only been doing the program for a month some great scores were set in February!

On Feb 8, 2015, at Grants Pass, OR, Joe Cullison set a new 4-gun aggregate of 155x160 and tied the 3-gun aggregate of 116x120 (P:40,R:40,U:39,S:36). A week later at LASC, Steve Hannawacker produces a 3-gun aggregate of 105x120!

I have included the world records as of Feb 27, 2015.

Please send your reports to:

½ and 1/5 Scale Report

March 2015
By Jim Harris

We’re off and running for 2015, despite some really terrible wintery conditions in much of the USA.

Congratulations to Richard Redd of Oregon (and Texas), for being the first person of the year to post records in both ½ Scale and 1/5 Scale programs.

Special congratulations to Eric King for shooting the first perfect open sight score of the year in ½ Scale. This is Eric’s 29th perfect open sight score in his long shooting career. In his honor, as the longest-shooting ½ Scale participant currently active in the records program, I’d like to dedicate the career standings update in this issue.

The career perfect scores is an ongoing records tally of both NRA and IHMSA sanctioned match scores for ½ Size (1/2 Scale in IHMSA) and 1/5 Scale.

Send your notices to me at harrisgrp@earthlink.net, or my home address: 1567 Bridget Ave., Simi Valley, CA 93065. Or give me a call at (805) 581-0009.

Big Bore Records Program (BBRP)
By
Joe Cullison

Time to start over with a fresh slate. A couple of scores are coming in from the early matches this year. Some ranges have not even begun to shoot yet but since the West coast had spring start in February the left coasters are out and shooting.

Steve Hannawacker (CA) started the year off with a bang. Steve Shot a S-32, P-40, R-40 and a U-39 to make a 3-gun total of 112 and a 4-gun 151.

Joe Cullison (OR) shot several matches to rack up a few scores. Joe shot a S-34, P-40, R-36 and a US-34 for a Standing agg of 68 and a 3-gun agg of 110. Joe also shot a S-29, P-40, R-40 and a US-35 for a 4-gun agg of 144.

State totals for 2015 are: OR-5, CA-3.

Please bring at least one friend or acquaintance to every match. Together, we can keep IHMSA growing.

Please forgive me if I have left anyone out or made any other errors. Send me the information and I will make it right as soon as I can. Thank you for your support of the BBRP.

Send entries to:
Joe Cullison, 28988 Berlin Road, Sweet Home, OR 97386 or to jecnjclejoe@aol.com. 541-317-8801 evenings

Thank you.

Standing 30+
Joe Cullison (OR) 34
Steve Hannawacker (CA) 32

Unlimited Standing 35+
Joe Cullison (OR) 35

Standing Agg 60+
Joe Cullison (OR) 68

2015 WEST COAST CHAMPIONSHIP
GRANTS PASS, OREGON
JUNE 16-20

We offer it all from Big Bore to AIR & Unlimited One-Fifth Scale. A 60 round match in scenic southwest Oregon.

Ride the Wild & Scenic Rogue River
Tour our wineries.
Enjoy fine dining & visit our new brew pubs.
New restaurants have opened this year!
Watch the Osprey dive for salmon on the Rogue.
Enjoy our museums and public artwork.
Shop in the Historic District.
Crater Lake is a “must see”.

This match is open to all IHMSA & NRA pistol silhouette shooters.

GREAT FOOD, COOL MATCH T-SHIRTS WITH A PROFESSIONALLY DONE LOGO, 15TH ANNIVERSARY PINS, & HOT COMPETITION!

IT DOESN'T GET ANY BETTER THAN THAT.

2015 SOUTHEASTERN IHMSA OPEN CHAMPIONSHIP
September 3rd – 7th (Thurs. – Monday)
Start time Thurs. 10 a.m.,
Friday, Sat., Sun. & Mon. at 9:00 a.m.
Buccaneer Gun Club
Leland, NC (near Wilmington)
http://www.buccaneergunclub.org (DIRECTIONS TO CLUB)
60 round matches
3 banks of BB and 1 Bank half size (at meters)
2 banks of SB, 1 Bank of FP (at yards)
Cable/pneumatic target resets

We suggest you get hotel reservations early as this is a beach area and it is a long holiday weekend.

Holiday Inn Express – Leland, NC 910-383-3300
Best Western – Leland, NC 910-371-2858

It was a cold day but Marty and Taylor had the cabin warm as toast from the fire that had been burning all night long. It was good that the sun was out the whole day or it may have been unbearable cold. Despite the cold, we had a good turnout, 7 shooters entered 13 guns. We hope to have a new club and IHMSA member in the near future as a new club member came out to see the match. He is considering a new Ruger Charger. Yes, they are back after being briefly dropped by Ruger. No matter what gun you have to shoot, it is always fun knocking down the steel targets.

Our target setters, Gunnar and Andrew (first timers) kept the match moving despite the cold but we were easy on them by not using the Big Bore targets. We hope to see everyone in the upcoming months. If you are reading this but have not been to Black Creek Gun Club, please stop by to shoot with us because . . . Shooting steel is better with friends.

We had a total of 42 entries for our November match. Not a bad turn-out for the last match of 2014 and the weather wasn’t bad for this time of year on Oklahoma. A little windy but again not cold. There were a total of 5 40’s shot in this match, Ryan Schuff, 1 in USA-INT SB, John Blue 2, 1 in USA-INT SB and 1 in USAFS-INT, Woody Liddell 1 in UHS-INT and Steven Crews 1 in U-AAA-BB. Congratulations Steven, Great shooting as that was an open sight BB gun. Ryan Schuff and John Blue tied in USA-INT SB and John won on a coin toss. Thanks to our out of states which included Harry and Sharon Alder from the great state of Missouri, Also Jerry and Judy Stringham all the way from Illinois and that my friends is a Long drive. We appreciate you very much. Thanks to everyone who helped with our match, you are appreciated and especially our target setters. May all your feeders need corn and all your trail cameras SD cards be full this coming season.

February 21, 2015
You have heard about the drought in Texas. Well, I think we are in pretty good shape now. The winter has been both cold and wet. Today was wet! It started to rain after the match started, and sort of came and went throughout the day. Years back (younger years), we would shoot a match no matter what the weather. Now that I’m older and smarter, I have realized that it isn’t much fun to shoot in the rain. Anyway, we shot in the rain and the mud.

When you go home after these matches, you got to clean, dry, and oil everything. Your shooting box has to be dumped-out and dried, and the pages of your sight setting book are all crinkled when they dry. Besides, momma won’t let you in the house with all that mud. Oh well… The lever action rifle shooters sort of dominated, and actually shot some good scores. Dennis Proffitt shot a 31 in Big Bore and a 33 in Pistol Cartridge. John Stonecipher shot a 59. Two new shooters sort of came and went throughout the day. Years back started to rain after the match started, and sort of cooled us down. I think we had a first, We had a shoot-off in Bordello. I would like to thank all that helped tear down the site.

Regional Drought:

2014 was our first match held at the Minnesota Water Gun, and the second match held at the Minnesota Water Gun. It was a good day. It was a good day. It was a good day.

Cecil Gun Club
Cecil, WI
10/11/2014
By Joe Lipp

This Match report is for October 11th at the Cecil Gun club. A little chilly but the sun came out and it ended up being a beautiful day. We had a total of 15 BHMSA entries. Thanks everyone for showing up. No 40’s for the match but a lot of nice scores were turned in. Paul Frank fired a 29 in FP prod and a 34 in FP PAS for a total of 63 to make it into the 60 club! Nice Shooting Paul. I would say at this point we have our targets performing real good and the people doing the setup are getting more proficient. Lunch was great thanks to my Wife Karri, who also did the registration. BIG HELP! This was the last silhouette match in Wisconsin for 2014, I really do not know where the summer went. A big thanks to Jack Peterson, Dennis Pyan, Paul Franklin Sutliff, the Hagen’s, Jon Baker, The Mpls/St. Paul, using cheap gas to boot! Thanks to all pile into one car and enjoy the ride down from the new year. The roads were good for the MN gang and the sun to shine on our first Air Pistol match of the year. We got the weather to cooperate, warming up a little ending up being a beautiful day. We had a total of 15 BHMSA entries. Thanks everyone for showing up. LASC Match Report  
February 14 & 15, 2015  
By Jim Harris

Wow! A great little-big match in the middle of winter! If this becomes the norm (out-of-towners and locals turning out in force), we’ll need a name for the affair. “Feb-Stravaganza”?

Great to have Dave and Patsy Silva, along with Eric King, John and Judy Zumwall, Dan Hagerty (new IHMSA News Editor!), David and Luba Lehman, and all the way from Susanville – Bill Feierabend! Joining the festivities, Dave Silva helped orchestrate the Saturday feed as well. Lots of help dono t make, a great little-big match. (Maybe, “The Little February Match That COULD!”?)

Once again we owe a debt of gratitude to Jerry JR Ray for being match director, along with help from Joe Moore, Mike Dewey, Jerry Napier and Lee Markham (I’m probably missing someone) all contributing to keeping the match running and things moving. And a special shout-out to James Henry for being the reliable behind-the-line glue that keeps the match moving.

And while I’m thanking, how about Ramon, Joe, and all the great Young Marins for their efforts at line safety, line-calling, and target setting? Great, great job folks! Special congrats to Eric King for his open sight 40 in ½ Scale against the scoped guns in Unlimited Any Sight – this is the first IHMSA perfect open sight 40 of the year for ½ Scale.

Steve Hannawacker joined both the Big Bore and Smallbore IHMSA Records programs for 2015 with his great aggregates. In Smallbore, he shot a Production 40, Revolver 39, and Standing 26 for a 3-gun record of 105x120. Big Bore saw him shoot Production 40, Revolver 40, Standing 32, and Unlimited 39 for 3-Gun record of 112x120, and 4-gun record of 151x160.

Congratulations to Richard “Budlong” Mishler for winning the Big Bore match with his 40+9 Unlimited score. Great to see Rick back flexing his shooting skills.

Steve Hannawacker took the high score/match winner in Smallbore with a Production 40+2 in Production. Boris Sorkin had the high rifle score with his 37. Looking forward to seeing everyone at the March match!

I don’t want to cast aspersions on anyone’s sanity (or lack There of) but of the 7 or so Sin City shooters who showed up for this match only one was brave (foolish?) enough to actually shoot! Pete Hofman stepped to the line on a cold (by our standards) and windy (by anyone’s standard) day and shot a very nice UAS 38. No one else saw it of course, because they were all huddled in the Stat house trying to keep warm. I don’t know what happened in there and I won’t ask… What happens in Vegas, Baby… You know.

The match was held in Modesto Rifle club’s heated indoor pistol range next to the main meeting room. The pistol Range is for shooting pistols and the meeting room is for shooting the bull. John Sears brought 2 new automatic carry pistols that he had just bought that everyone got a chance to fondle.

Small Bore/Field Pistol Match Report
19 Turkeys, Match Director
February 8, 2015

HEADLINE: A new world record was set today. Joe Cullison shot his first Revolver 40. That score combined with his Standing, Production & Unlimited scores put him in the record books. Research indicates that Steve Hannawacker held the Small Bore 3 and 4 gun aggregates of 116 and 153. (Lon Pennington also shot a 4 gun 153.) Joe’s scores tied the 3 gun and set a new 4 gun aggregate record. Congratulations Joe!

& the rest of the results are:

Doug Hockinson shot a great FP-P score of 19 with his S&W to take that title. Ron Sprafkin had a super day in FP-PAS & SB-US taking both those titles.

The other half of Team Medford, Dave Healy, tied Charlie Dean in SB-UAS but Charlie took the title by reverse animal count. Team Medford certainly took home some bragging rights today.

Dave Whitman took the FP-PAS and UFS titles as well as High Senior. Rich Burket joined us with his Remington target rifle.

Both Tamera Lee and Marla Smart had a great day. Tamera more than doubled her last SB-UAS score shooting her first 30. Marla was High Lady.

Thanks to Dave, Paul, Charlie, and Joe for helping to set up and tear down the range!

19 Turkeys, Match Director
February 15, 2015

We could not believe all the 40’s shot and the duration of the shoot-offs! In fact, I believe that going 5 relays must be some kind of a record!

Joe Cullison had an excellent day shooting 40’s in Production & Revolver, winning the Standing and Unlimited Standing disciplines, and shooting into the Big Bore 3 & 4 Gun Aggregate clubs.

Rick Redd and Tyler (son) & Mike (father) were all tied in Unlimited with 40’s. Son Tyler rose to the top hitting 4x5 of the half scale shoot-off’s to Rick & Mike’s 1 each. Rick & Mike decided to not shoot off that tie. Rick took the UAS title also.

On the Half-Scale side of things, Charlie Dean, Rick & Mike were all tied with 40’s. After the second round of shoot-off’s Rick was out with 8 and Mike & Charlie were tied at each 3. Three relays later, Charlie had a broken extractor and his last 2 rounds were tight fitting. He was concerned with that double trouble issue and pulled out, and Mike went on to win it 23x25 targets. Everyone enjoyed the excellent marksmanship of all involved!

Thanks to Charlie, Dave, Paul, Tyler, and Mike for helping to set up and tear down the range!
We had 7 shooters this month put 18 guns across the line. Glad to see a couple of our regulars back. We also had one new shooter this month. Steve Bishop brought his nephew over from Yakima to let him catch the silhouette bug.

Weather was off and on rain but at time it rained so hard visibility on the turkeys and rams was almost non existent. That downpour was short lived and the rain was much lighter for the remainder of the match. On to the results of the match.

We had 7 shooters this month put 18 guns across the line. Glad to see a couple of our regulars back. We also had one new shooter this month. Steve Bishop brought his nephew over from Yakima to let him catch the silhouette bug.

Weather was off and on rain but at time it rained so hard visibility on the turkeys and rams was almost non existent. That downpour was short lived and the rain was much lighter for the remainder of the match. On to the results of the match.

In Field Pistol Dave Chalfant posted a very nice P-AA, 25 giving him a leg into AAA.

Once again our target setters did a fantastic job. Thanks to all who stayed to help pick up targets after the match. Until next time shoot straight and be safe.

**Match Publication Policy**

As we continually have new directors following, is the IHMSA News policy on publication of stat, regional, and “specialty” matches notices and results. Any IHMSA sanctioned club in good standing may publish a notice of their club's state or regional championship match at no charge for three months. State match notices are limited to 2 1/4 “x5”. Regional match notices are limited to 4 3/4”x6”. A club is holding a “specialty” match and that match does not replace one of these championships, the IHMSA News will publish a 2 1/4”x5” notice at no charge one time. These notices will run in Section B only. The club may publish additional notices of the same size for $45 per issue. Ads must be prepaid before publication. All payments are to be sent to IHMSA HQ, P.O. Box 22556, Cheyenne, WY 82003. The club may specify whether the paid notice is published in Section A or B.

State match results can list both first and second place finishes. Regional match results can list first, second, and third place finishes. “Specialty” matches replacing a state championship may publish first and second place finishes. “Specialty” matches replacing a regional championship may publish first, second, and third place finishes. All other match results wherein the total number of handgun silhouette entries exceeds 11 (including all IHMSA NRA & non-member guests) can list only the first place finish. Matches with less than 11 total handgun entries as defined above can list all IHMSA handgun entrants and their place. Regardless of the above, all 40’s, 60’s, and 80’s (depending on the number of rounds fired at the match) can be published from ANY IMGA match.

An IHMSA club holding a dual sanctioned (IHMSA/NRA) match may submit a match report for publication in the IHMSA News containing both IHMSA and NRA results. The number of published NRA results may not exceed the number of published IHMSA results. Publication is limited to IHMSA sanctioned handgun disciplines only.

Please address any questions concerning this policy to your Regional Director.
Arrangements have been made with Ron Cottriell, President of Angeles Shooting ranges to receive ammo from people flying in to the World Championships. Ammo can be shipped to the following address:

**Angeles Shooting Ranges**
C/O Ron Cottriell
12651 N. Little Tujunga Canyon Road
Lake View Terrace, CA 91342

Make sure you indicate on the outside of the box that this is for the IHMSA World Championships.

Also, Sales of firearms from Gun shops to Non-Residents are not allowed in the state of California. Private party sales will be discussed later as these laws are changing due to a federal court ruling and I need to do more research.

The 2015 world Championships will be hosted by the Los Angeles Silhouette club in San Fernando, CA. Dates will be July 10-17 2015.

The area has a lot of family entertainment.

Weather will run from mild to hot (max temps in the 90’s) and with low humidity. Range has limited camping facilities with hookups for recreational vehicles.

More information will be available in later issues of the IHMSA news.

We are also planning to hold a 500 meter match at Avenal Gun Club which is about 170 miles north of LASC. Dates will most likely be July 7-8 2015. For more information, you can email Eric King at therose7@earthlink.net

We hope you can make it to the world championships!
