NEW IHMSA WORLD RECORD!

Forward By Daniel Hagerty
Story by Joe Cullison

On February 8 2015, At Josephine County Sportsman Association in Grants Pass, Oregon (Home of The West Coast Championships), Joe Cullison Set a New Smallbore 40 round 4-gun Aggregate of 155x160, Along with tying the 3-gun aggregate of 116x120. The Following is his story:

February 8th started out like any other match day. I woke up to the alarm at 4:30 so I could load the guns and be on the road by 5am. It is a 170 mile drive to the range. I stop at Denny's for breakfast about 100 miles into the trip. Same breakfast as usual. Two eggs over easy, 2 slices of bacon and 2 pancakes. I chase that with a can of Mountain Dew on the rest of the drive.

I always start out shooting standing. It comes from an old habit where I shot at a windy range so if you didn't shoot standing first you got to do it in the wind. Today at Grants Pass there was almost no wind but it was full overcast and raining off and on.

The standing entry started out pretty typical, no major wiggles and nothing odd. I was able to get all of the chickens then started on the pigs. As I lined up for my first pig it disappeared, what the heck? "Hey Charlie, did you shoot my pig". He says "OH NO". I told him "no worries I'll take your first one after I get the rest of mine." So I run those 4 pigs and sure enough I miss his 1st one. I take the next 5 pigs and then move on

to turkeys. I miss the first turkey and run the next 4. Bank two, exactly like the first.

On to Rams, things went well and I cleaned the first 5. Wow, 32 so far and 5 left to go. Now I start doing all those things you are not supposed to do like count targets, think about the fact that the world record is 37 and I could tie it. My heart rate is pretty good but I tend to get excited when things are going well. (One of the reasons I love and keep shooting this sport.) I take the first ram of the second bank and the heart rate goes up in both strength and speed. This pattern continues as I take #2, #3 and #4. I take a couple of breaths and line up on #5 (of course the thought of tying the world record jumps into my head). I pulled the trigger, smooth and easily but the sights had drifted an inch off of the chest. Darn, but a 36 in Small Bore Standing is fantastic. Now it's time to take a short break and work the adrenaline through my system.

Next up is Small Bore Production, I usually shoot around 38, 39 and an occasional 40. This ended up being a 40 even though I hit half the turkeys in the leg. Ok, time for another break as I'm all excited again. Next up I shoot Small Bore revolver. I switched loads for the turkeys and rams a few months ago but I'm feeling pretty good about the switch from Black box to Eley Club. I use Aguila on the front half of all of my small bore guns to keep the cost down.

I manage to go clean through 35 and as we get called to the line, the sun comes out, OH NO! It has been overcast all day, no

time for a light change. Well I have to shoot. Just after the load command we get a "cease fire". Seems the target setters forgot a few targets. As the target setters return so do the clouds. Now I know it is meant to be so I laid down and cleaned the last bank. This was my first ever Small Bore Revolver 40. Whoohoo! Oh wait, another adrenaline rush I need to work through.

The final gun of the day will be Small Bore Unlimited. I'm thinking that the Production gun was on and maybe I should shoot it for Unlimited. Nope, the Unlimited gun rode all the way to the match and never complained once. It deserves a chance. After going clean through the turkeys, I blow just over the first ram. Down 2 clicks and then clean the rest for a 39.

Not too bad a 36 Standing, a 3-gun 116 and a 4-gun 155. At this point I think the record for 3-gun is 116 so I may have a tie. I'm not sure what the 4-gun record is so I'll have to find out. On the way home I Call Paul Habig, one of the best Small Bore shooters in the world. Paul tells me the old record for 4-gun is a 153. Maybe I do have a record? When I get home I email Rich Hawkins who was the Small Bore records program director. Rich confirmed what Paul had Said. The 153 was shot by Steve Hannawacker way back in 1992 and was tied by Lon Pennington in 2008.

It was a good day at the range, I got to shoot with my friends.

Highlights for this issue

This issue is what I call the Catchup issue! Match reports are updated as far back as May 2014. If it is not in this issue, We have not Received The match report!

On Page 5, There is a Ballot for voting for the New IHMSA president. Please, Send your vote in!

Also, we are still looking for a new IHMSA Secretary/Treasurer. A nomination form is also on Page 5. This is a position that needs to be Filled As soon as Possible.

On page 8, The Editors comments are posted. This has some good info to read.

And last,

**SPRING IS
ALMOST
HERE! Let's
get ready to
shoot some
Silhouettes!**

President's Column

Presidents Report March 2015

I need to make a correction from my last report, as Dell Taylor let me know; all ballots must be mailed to him because our bylaws state that they must be mailed not sent electronically. So please everyone vote and mail your ballots to Dell, remember you have until May 1, 2015.

Not much to report this month, Ken and I are more than ready for spring! This winter has been a long cold one for us. We are especially looking forward to this year's IHMSA Internationals that are being held at the LASC Range. Jerry Ray and Joe Cullison are preparing everything and they are right on schedule.

You will find a list of hotels that are available and close to the range in this IHMSA News. We will be holding the Annual Delegates and

IHMSA Board meetings along with the banquet at the range so we are not choosing to have a hotel listed as headquarters this year. All the daily postings and the final match winners will be listed and posted at the LASC Range.

I also want to pass on some information on the surrounding area for visitors to Pasadena, CA, which is the closest city to LASC. They have a Pasadena Convention and Visitors Bureau which has ten self-guiding tours. They are located 300 E. Green Street, Pasadena, CA; their phone number is 626.795.9311 or toll free at 1.800.307.7977.

If you have any questions, or concerns, please do not hesitate to email or call me, I am still the IHMSA President until the end of July. Until next time, shoot often and safely.

Wildcat Corner

By Tom Acheson

The snow and ice appears to be on the way out so it's time to get out shooting again! In preparation for that I've been out in my "garage foundry" casting up bullets for the fun ahead. Of the two tasks needed for bullet making, casting and sizing/lubricating, the casting step is probably the most time consuming. Plus it must be done either outdoors or in a well ventilated location so ambient weather conditions will dictate when you can do your casting.

Along those same lines, there is a gun show here in the Twin Cities every March. It is the largest gun show in the area and has a good attendance level. Being a member of the CBA (Cast Bullet Assn.), match director at our club and Region 5 Director for the CBA, I've been hosting a CBA table at this show since 2005. Our early show efforts focused on the CBA benchrest game, with example rifles of each gun category (class), etc. We eventually discovered that this topic was not of high interest to visitors to our table. So we switched gears and focused instead on bullet casting and showing how it can reduce the cost to shoot and increase the fun of shooting.

On our table we have a cartridge board with examples of the many rounds people use in the CBA matches. We include several of the paper targets seen at our matches. A small Lee 5-pound pot and a ladle, some bullet moulds and two piles of bullets, some plain base and some with gas checks, are the "equipment" items we display.

Subjects often discussed with the visitors to the table were:

- At what velocity do you need to consider using a gas check?
- How do you attach a gas check?
- What casting equipment is needed? What does it cost?
- What alloys are used? Where do you get them? What do they cost?
- Do people actually use CB's in rifles? What is the maximum velocity that can be used?

I had copies of our local match schedule available but not very many were given out, due to a

higher interest level being elsewhere, not formal matches.

We found one area long ago to avoid...do not talk about our own individual accomplishments. That can be seen as bragging and newbies just don't care about you or what a great shot you are!

What draws the most attention? The pile of Fouling Shots (the CBA bi-monthly publication) on the table. The longer they stand there and pick up a copy to look at, the more you can see interest forming on their face. Anyone who signed up with the CBA was given 2 copies of the Fouling Shot. Those showing a more than casual interest were given a magazine copy and a CBA application. We had (21) CBA membership applications available and handed all of them out. We did sign-up three new members and renewed two existing members. So (16) applications are floating around somewhere.

The side benefit to us behind the table, besides talking about our hobby to strangers, is the chance to say hi to friends visiting the show who we haven't seen for a while, talk guns and moulds among ourselves and debate long held cherished bullet making "theories".

So why the discussion here about the CBA? This could easily have been an IHMSA sponsored table. Replace the paper targets with some example steel silhouettes. Replace the equipment items with a few example handguns. Replace the Fouling Shots with copies of the IHMSA News. Keep copies of the local match schedule available. Have copies of IHMSA membership applications handy. Have some photos from matches but focus on simple production type guns. Avoid the exotic overly priced bizarre looking creations. These can be seen as examples of an equipment race and form the new person's (incorrect) impression that says I'll never be able to beat that gun!

The one thing that we can't do at a gun show is first hand demonstrate how much fun the shooting games can be. That is an individual task.

Bring a kid, family member, relative, neighbor, co-worker, etc. out with you. Bring lots of ammo and be ready to coach and not shoot so much yourself that day. I've had days when I had as much fun spotting for someone as doing the shooting.

After hosting an annual Free First Time Shooter's spring clinic for 25-consecutive years, we

are taking a different approach this year (2015). Instead we will try having coaches on hand and make individual specific efforts to find someone to bring to a match with us. We might return to the clinic approach in 2016 but first we'll give this alternate approach a try. We'll let you know....

2014 Rule Books

Dear IHMSA Members,

In an effort to keep costs down and with the only changes being the addition of the Practical Hunter category, Headquarters has been directed to not print the IHMSA Rule Book for 2014, but to send an addendum with these changes instead.

We understand that it is important for the membership to have access to the rules. Therefore, since the 2014 rule book is available on our website (go to ihmsa.org, then click on the RULES link). Headquarters is being directed to only send rule books with New Memberships and upon request for replacement. If you need a rule book, please contact headquarters.

Thank you for your patience and understanding in this matter.

Nancy LaCroix
IHMSA President

Rules Addendum: Practical Hunter

Class Description: All 3 classes are to be shot from any SAFE freestyle position including prone, kneeling, sitting, or standing.

The Practical Hunter Long Course will be shot on the 200 meter Big Bore range with the standard full size targets at their normal ranges.

The Practical Hunter Short Course will be shot on the 100 meter Field Pistol range with the standard targets at their normal ranges, using standard field pistol cartridges only.

The Practical Hunter .22LR Course will be shot on the 100 yard SB range with the standard Small Bore targets at their normal ranges.

Class Rules:

- Any hunting style handgun with

a maximum overall length of 21 inches.

- Optics are allowed up to a maximum of 6x power.
- Gun must be as manufactured with only cosmetic modifications.
- Ported barrels are allowed as long as they are shot from a safe position.
- A rest such as a bipod or a sand-bag supporting the barrel in a prone position may be used by a new unclassified shooter and by shooters in classes A and AA.

Classification Scores:

- A 0-15
- AA 16-25
- AAA 26-38
- INT 39-40

~NOTICE~

Please keep your 2013 rulebook for the 2014 season. You will receive an addendum with your membership renewal

SANCTION FEE NOTICE

Please make every attempt to send in your Sanction Fees promptly as the Sanction Fees help us pay for the printing of the Match Results.

Infrequently we have a club(s) that does not remit sanction fees for a match held. We understand club officers are busy, so we just send a gentle reminder. Still failing to receive the fees, a second notice is forwarded.

A final notice is sent if fees are still delinquent. After the final notice, the match dates will be deleted from the match schedule and the club's sanction will be withdrawn until the fees are received.

NOTICE

The IHMSA Board of Directors have voted to allow the printing of NRA match results in the *IHMSA News*, providing they are submitted by a club that is running dual (IHMSA/NRA) sanctioned events.

These results must be submitted by the established deadline presented in the previous edition of the *IHMSA News*, with the Dual Sanction Match Write-up and will be listed at the end of the IHMSA related report. No NRA reports will be printed without IHMSA reports/scores accompanying them. **Please send all Match Reports to IHMSA, Inc., P.O. Box 22356, Cheyenne, WY. 82003 Phone - 801-733-8423, FAX: 801-733-8424**

Request for Nominations

Office of Secretary/Treasurer of IHMSA, Inc.

Article VII, Section I of the IHMSA bylaws states the following: "Officers: The officers of the corporation shall consist of a President, Vice President, and Secretary/ Treasurer. Officers shall be elected every year prior to the annual business meeting held in conjunction with the International Championships. Officers shall assume their official duties following the close of the annual meeting and shall serve for a term of three years or until the election and qualification of their successors. To ensure stability, the term of office of the officers shall be staggered."

For 2013, the office of Secretary/Treasurer of IHMSA, Inc. was scheduled to be filled by election of the Membership held prior to the 2013 annual business meeting. However, no nominations were received. Mr. Alkire, the current Secretary/Treasurer has continued to serve until replaced, With his current work duties, Mr. Alkire is no longer able to devote the time needed to carry out this office and someone else is needed to fill that position. Therefore, this is a call for nominations for the office of Secretary/Treasurer:

The IHMSA bylaws state that all nominations must bear the signature and endorsement of the nominee and signatures of two other financial members of the corporation, Also each nominee may provide a statement of claims of not more than 500-words that cites why he/she should be elected to the office for which he/she is being nominated.

Article VII, Section 3 of the IHMSA bylaws describes the "Nominations Officer" whose job it is to receive the nominations for the Executive Officer positions and conduct the election. This officer is appointed annually by the Board. Dell Taylor is again serving this year as the Nominations Officer. For that reason Mr. Taylor's address is listed on the nomination form below and is the person to whom the nominations should be sent.

Candidates for the office of Secretary/Treasurer should use the nomination form provided below or a facsimile thereof to declare their candidacy. The nominations Officer must receive no later than the 1st of March 2015. Candidates will be declared in the April edition of the IHMSA news if more than one nomination is received.

The statement of claims mentioned in above must also be received by the 1st of March 2015 in order to be published in the April edition of the IHMSA News. Therefore, candidates should submit the statement of claims with their nomination.

Duties

The duties of the Secretary/Treasurer are specified in Article VIII, Section 3 of the IHMSA, Inc. bylaws. For easy reference, that section is reproduced below.

"Section 3. Secretary/Treasurer: The Secretary/Treasurer shall ensure the recording of all decisions of all meetings of the corporation, Executive Committee, and Board of Directors. He shall perform such other duties as may be assigned to that office from time to time.

"The Secretary/Treasurer shall on a quarterly basis, furnish the members of the Board an up-to-date financial statement, with the cycle of reporting beginning with an annual financial report presented to the Board and the annual business meeting of the corporation held in conjunction with the International Championships. This report is to show the financial position of the corporation as at the end of the quarter immediately preceding the annual business meeting.

"The Secretary/Treasurer shall present a full, half-year and annual financial report to the membership via the pages of the IHMSA News. As a general rule, such reports will not have been subjected to external audit."

"The Secretary/Treasurer shall be responsible for ensuring the maintenance of all books of account and records so as to conform to the requirements of these bylaws. If so determined by a majority vote of the board, the day to day record keeping of the financial affairs of the corporation shall be contracted out to and an individual/firm qualified and properly licensed to undertake such activity, Notwithstanding such a decision the Secretary/Treasurer remains responsible for the provision of the periodic reports referred to above."

Nomination for the office of Secretary/Treasurer of IHMSA, Inc.

I _____ do hereby declare my intention to stand as a candidate for the election of the office of Secretary/Treasurer of IHMSA, Inc. I hereby endorse that my name be placed in nominations for said office, and attest to being a member in good standing of the IHMSA, Inc.

Signed: _____

IHMSA# _____

We, the undersigned financial members of IHMSA, Inc. do hereby endorse this nomination of the above member for the office of Secretary/Treasurer of IHMSA, Inc.

Signed: _____

IHMSA# _____

Signed: _____

IHMSA# _____

The bylaws of IHMSA, Inc. require nominations for this office be submitted on this form or a facsimile thereof to the nominations officer, Dell Taylor, 8899 Midvalley Drive, West Jordan, UT 84088. The Nominations Officer must receive nominations no later than the 1st of March 2015.

THE NEW SILHOUETTER

Some Observations

By Ken Horowitz

The resurgence in interest in the .380 is something I find amusing. To be sure, the .380 is one of our most enduring cartridges, surviving the birth and death of other designs since it was first introduced by John Browning way back in 1908. While I was aware of the cartridge for many years before I started shooting handguns, by the time I started throwing lead downrange from short barrels, the .380 was being condemned as inadequate compared to more robust cartridges.

I've never owned anything chambered for the .380 and my first experience shooting it was not very satisfying, mostly due to the gun I used. On my frequent trips to Florida to visit my mother-in-law, the two of us often spent time at any of several local shooting ranges. Even pre-9/11, traveling on a plane with handguns and ammo was too much of a hassle. Besides, the Florida ranges where we spent many a pleasant afternoon usually had a good choice of rental guns. I always tried to rent something I hadn't shot before and on the occasion under review I chose a Makarov pistol in .380, killing two birds with one stone, so to speak, in that this was not only my first .380, but my first (and last) experience with a Makarov as well.

The gun was awful. Think of all the attributes of a bad trigger and this particular pistol had a monopoly on them. It was gritty, the pull weight was well into the double-digits, there was lots of creep, overtravel and no two pulls were the same. The old adage that the bang should come as a surprise did not have this type of surprise in mind. Needless to say, my target was not worth framing and the ability to judge the accuracy of the .380 was not at hand.

As an aside, I also put my foot in my mouth on that range trip. The position to my immediate left was unoccupied and during a lull in the action I began chatting with the shooter in the next left position. After he noticed I was shooting a Makarov and asked how I liked it, I recall saying something to the effect that it was the worst piece of crap I ever shot. Upon learning that he had recently been so impressed with a recent Makarov purchase that he acquired another one, my backpedaling began. Luckily, his Makarovs were in 9mm (i.e., 9x18 Makarov, not 9mm Luger) so I blamed, perhaps unfairly, my .380 fodder and more or less apologized for having insulted his choice of firearm purchase.

Lately, it seems the .380 has recaptured its fan base and is now heralded as a viable choice in a concealed carry rig. And so the pendulum swings. From my perspective, the cartridge neither deserves the pummeling it periodically gets from mainstream media, nor is it the perfect round. Just like most other cartridges, it has its plusses and minuses. I think it's important for each shooter to make choices based on weighing these plusses and minuses and not based on marketing hype. I find no reason to include the .380 in my current shooting repertoire but neither will I make derisive comments about such a long-lived classic.

Back in the 1980s and 1990s, there were writings that challenged the intelligence of anyone who didn't possess certain small pistols chambered in .380. There were several darlings of the press that were unavailable for any price I my neck of the woods; the Seecamp comes to mind. Yet, issue after issue of gun rags would tell me that I was a dope for not owning one. It

was an in-the-face "Oh, you don't have one of these"? Then there was the Semmerling LM-4 in 45ACP. While that one in a larger caliber did pique my interest, getting one was nigh impossible. Even today, a gunbroker.com search come up with a big fat zero. Other sources have some but these guns are priced more as collectibles than practical shooters. As I understand it, American Derringer will be producing "new" Semmerlings but they are pricey as well.

Media hype on backup guns (and firearms in general) is ever changing. You would think someone would get embarrassed after insisting that some gun or ammo is a must have, later to downplay it and then when the winds change to praise it again. While this is perhaps the result of "good business" catering to advertisers and their revenue stream, you would think integrity would play a larger role in the degree of enthusiasm in the writing.

* * *

No matter how hard I try to keep my loading bench organized, it always seems there are more gremlins trying to make havoc of it. My reloading bench is one of three worktables (not counting the generous space provided by the table portion of my radial arm saw). One of the other two tables is more or less devoted to machines such as drills, a bench grinder and a table-mounted router. The other table is a general work area, interrupted only by a vice at one corner. You would think with all this area, that my single-use reloading table would stay pretty neat. Well, it only does so if I work very hard at it.

One of the biggest culprits is the constant flow of UPS boxes that I usually plop on the table when they arrive, just peeking at the contents I ordered and deciding to put the stuff away at a later time. Each box is nothing, but cumulatively, they create a problem. Maybe I should just stop ordering so much. (Between a Wednesday when I wrote the immediately previous line and Saturday, as I write this, another two UPS boxes were added to the pile.) Another culprit is the stuff I "temporarily" place there is I get home from the range just in time for another event. While it is my habit of putting things where they belong after a range trip, it doesn't get done if there is a family event that takes priority. With the best intentions of tidying things later in the day or early evening, it doesn't always get done.

While tidying is a singular event, clutter is cumulative. It doesn't take long for a single innocuous excess to become clutter. Thank goodness for long Winter spells that give plenty of time for getting things orderly when my head isn't in a feedbag while lounging on the couch. One thing for sure is that my neatest reloading bench is always before I begin a long reloading binge. If for no other reason than safety, a primary reason in its own right, I always start with everything in its correct place. Knowing exactly where everything is, including recipes, tools and components, makes things both safer and faster when putting cartridges together.

* * *

In the financial markets, the thinking behind stock splits is pretty simple. When the price of a company's stock gets too high, it limits the number of people who might be interested or able to buy it. Reducing the size of the purchase spurs more interest. For example, let's assume a stock is selling for \$100 per share. Typical purchases are for 100 shares. That means a \$10,000 outlay for the investor. If the stock were to split 2 for 1, the number of shares would double, but the price per share would be cut in half to \$50 or \$5,000 for 100 shares.

Since there are a lot more people who have \$5,000 than there are who have \$10,000 the public's interest in the stock and trading would increase. What does this have to do with IHMSA?

When I first got involved with IHMSA, the attraction for me was Big Bore. Having read as much as I could about things back in the Elgin Gates era, Big Bore seemed tre-cool. When I first joined Falls Township Rifle and Pistol Association (FTRPA) and discovered that they shot IHMSA matches there, Big Bore was the lure. Over the years, Big Bore has been declining at FTRPA, mostly to Small Bore and Air Pistol. In the 1990s, I had to get to a match super early to get a Big Bore relay, sometimes missing an opportunity by not getting there early enough with all the time slots already being filled. Now, there are plenty of opening even if I get there later.

This is only what happens at FTRPA and I can only guess what's happening at other ranges around the country. I'm sure some of them still have heavy Big Bore contingents while others do not. Nevertheless, while Big Bore seems to be the flagship image of IHMSA, just as with stock splits, there is much more opportunity and potential interest in the other IHMSA disciplines. To be sure, there are many more ranges, especially here in the East, that have limits of 100 yards on their range. For Big Bore, they are out of the loop, but those ranges could easily have the other IHMSA events. Perhaps we can take note of the success of the securities industry and apply the same concept to IHMSA by emphasizing Small Bore, Field Pistol and Air Pistol where there are many more shooters than have availability of 200+ meters/yards ranges.

Now those of you who live in the vast sprawl of the country where the length of your range is not an issue, Big Bore may be king and it can stay that way. However, I speculate that some shooting venues have not even considered IHMSA matches because they think having a range that can accommodate Big Bore is a prerequisite. Just a thought.

* * *

I was happy to note in the November/December issue that the primary way IHMSA News will be available going forward is through our website hence saving on printing and mailing costs. This is something that I advocated several times in this column over the years. When the first "beta" issues were published, they weren't so good but kudos to whomever made them right. Now they are great.

In addition to cost savings, getting all issues for me is a plus. Somewhere between the publishers of reading materials related to the shooting sports and my mailbox, there are some readers who would rather read my issues than purchase their own. I'd rather believe this than that some anti-firearm person is deep sixing my issues of various publications that I don't receive. Further, I won't have to worry about delays such as with the November/December issue which I just received January 22. Anyway, with IHMSA News online, I won't miss an issue and I don't have to be concerned with it getting "lost."

By the way, on my other gun-related magazines, if anyone "borrowing" my issues is reading this, please be so kind as to forward them to me when you are finished dog-earring the pages; it would be appreciated.

LEFT THE RANGE

John Adams, IHMSA# 4

On Saturday, November 15 2014, Johnny Adams (John's son) sent out this message to John's friends and acquaintances in the shooting community: "I have to inform everyone of the sad news that my father, John Adams, died unexpectedly this Saturday Morning. He has been battling cancer for a number of years and has finally succumbed to the disease. He has asked me to include this photo of him and asked that his friends remember him in this way."

John was one of the original 12 founders of IHMSA and the first President of IHMSA. With his support in the early years, the sport of Handgun Metallic Silhouette has become what it is today. A story passed on to me was that he would take the first set of targets to different places around the United States and set them up and hold a match to promote the sport.

Later, John helped Elgin Gates in the promotion and expansion of IHMSA. John also was an Avid supporter of all the shooting sports and was always willing to help out any way he could. He was also an Avid Benchrest shooter.

John is also one of founders of the Angeles shooting range, which Later became the Los Angeles Silhouette club (LASC) which will be Hosting the 2015 IHMSA World championships. This Range is also where the First IHMSA Sanctioned Match and the First IHMSA Internationals were held.

Many years ago, John was involved as owner of the SAECO company that made presses and other reloading equipment which was later merged with Redding Corp. Many of the reload-

ing designs and Cast bullet designs used by Redding to this day were designed by John. He had a vast knowledge of shooting hardware, and he never gave up his avid interest in shooting-related product design and engineering. He remained interested in new products and new techniques until his last days.

This is a story compiled by all his friends and family, excerpts were borrowed from accurateshooter.com where he is well known.

Flying with Guns to California

By Joe Cullison

This past weekend I hopped on a plane with my silhouette guns to shoot a match at LASC. Things went well and I would like to share the experience in case anyone is concerned about taking guns to California for the World Championships this July 10-17th.

I took a full complement of silhouette guns including 6 serial numbers, 3 contenders, 2 FA's and an Anschutz along with another 5 barrels. The airlines limit bags to 50 lbs. so even with all of this hardware, a lockable hard case and a couple of pad locks, I came in right at 50 lbs. My other case contained ammo for all and a couple of changes of clothes. Of course, I had to pay \$25 for the first bag and because I can't travel light, another \$35 for the second.

Flying with guns is not difficult if you follow the rules. The guns must be unloaded and transported in a lockable case, preferably a hard sided one. A soft sided lockable case may be allowed but I would not recommend it. Your ammo may be shipped ahead of time or carried in a separate locked case. For the World Championships,

you may ship your ammo to the Angeles Shooting range, just make sure to contact them first and mark IHMSA World Championships on the shipping label.

Plan on arriving at the airport at least an hour before the normal recommended time. This will allow you time to check your guns and still make your flight. (It usually only takes about 15 minutes extra but it is better to be safe – trust me.) When you go to the baggage counter, quietly inform the baggage / ticketing clerk that you have firearms. They will have you sign a TSA form that declares the firearms are unloaded. On this form you can write down your cell phone number in case the TSA needs to contact you while you are in the airport. It is a carbon copy form and the agent will have you place one copy in the gun case. You do not need to fully open the case, just crack it a bit and slip the paper inside.

BE PREPARED to wait for 10 to 30 minutes with your key or combination handy. Stay near the baggage counter, the TSA WILL want to see inside your case. If the agent tells you to go to the gate, don't do it! If you are not handy or have already gone through security, they will call you back from the gate to open your case. (Then you get to go through security again. Yip-

pee!) You and your case could miss your flight. You may request to be present when they open your case. I run about 50% success with that request. If you have key locks they will request your key, if you have a combination lock, they will need the combination. If you have a combination lock you may be able to give that over the phone if they call your cell phone number you wrote on the carbon copy declaration form mentioned above.

As far as California goes, you may bring any firearm you legally own in the state where you live. You may not sell any of your guns in California and you may not buy any while you are there but you may bring your own and then take them home when you leave. Once you arrive in California, put the locked case in the trunk or if you are in an SUV, as far back as possible. In a locked case and out of reach of the driver is what they want to see on the odd chance that you happen to get stopped. Your ammo should be in a separate locked case and also out of reach of the driver.

Easy enough and usually, surprisingly, a smooth process. Not a big deal, I'll fly with guns to California again.

NOTES FROM THE EDITOR:

First and foremost, I must apologize that the Jan/Feb issue has not been fully mailed out. I am working on this right now with the post office to get approved for Bulk mailing privileges.

As some may know, we no longer have a printing company that used to do the formatting, printing and mailing of the IHMSA news. This is now going to be done by yours truly (your editor). The first thing you will notice is that it will No longer be a newspaper and will look more like a newsletter.

We are also trying to go to a full electronic edition such as the NRA uses. This is a HUGE cost savings for the organization. Here is a few calculations for you:

1. With the old printing company, we were being charged \$2,200.00+ per issue. This is an estimate based on information passed on to me.
2. With me doing the work, I have estimated that the cost per issue will be around \$1,200-1,500.00 per issue. This is already a cost savings of around 40%.
3. With Going to electronic editions, with only a few copies being mailed, it should be around \$600.00 per issue.

As you can see, this is a huge cost savings to go to electronic editions. The other advantage is you will get the IHMSA news sooner. I checked it with myself and this was my experience that my Paper copy normally would not arrive 2-3 weeks after it was posted on the IHMSA website.

First, The IHMSA news will always be available at the IHMSA website (www.ihmsa.org) you can also get older editions at the website.

Second, I would like to send Via Email, an attached copy of the IHMSA news or a Link to the IHMSA news. Unfortunately the Mailing list I have does not have the email addresses for the membership. I am hoping HQ can provide me with a list that does have the membership emails. If you can, please send me an email at ihmsaeditor@bleedinedge.com and I will have you included in the email list.

The following is for Region, State and Match Directors:

First, I have finished updating the 2015 IHMSA match schedule listing, BUT I am missing a lot of Match schedules. Please get your 2015 match schedules to me so I can get the completed match schedule out.

Second, for match reports. If you can, send me your Match results in electronic form, Preferably in Microsoft word format, this would be a huge time saver for me and HQ. I can process almost any type of electronic format, but word is the best. If you mail a paper copy to HQ, this takes time and after it is received, it has to be forwarded to me anyway. Sending them electronically to me almost guarantees that I can get your results printed in the next issue. BUT, Make sure to send your Match Recap and sanction fee's to HQ!

Third, I am trying to make electronic copies of all the forms for your use. Hopefully to make you're Job, HQ and my Job easier. These will either be Word templates or Fillable PDF files such as the IRS uses.

And last, for the curious, I create the IHMSA news using Microsoft Publisher 2013. This is directly compatible with all Microsoft office products.

And, to end..... Spring is almost here! Go out and have some fun!

IHMSA NEWS-SECTION B

MARKSMANSHIP COMPETITIONS

The Burris cup:

Scoped .22 Long rifle caliber Handguns only. Your best 5-shot group at 100 yards or meters. Guns may be bench rested over any solid rest as long as the gun is not in a ransom rest, vise or any other mechanical clamping device. Lying on your back in a freestyle position and piling sandbags by your body for support is legal. This will allow scoped guns setup for Creedmoor to better compete.

The Weaver Trophy:

Scoped centerfire handguns. Your best 5-shot group at 100 yards or meters. Guns may be bench rested over any solid rest as long as the gun is not in a ransom rest, vise or any other mechanical clamping device. Lying on your back in a freestyle position and piling sandbags by your body for support is legal. This will allow scoped guns setup for Creedmoor to better compete.

The Merit Challenge:

Centerfire handguns with iron/open sights. Your best 5-shot group at 100 Yards or Meters. Groups must be fired from an IHMSA legal position. No benchrest or artificial support allowed.

The Daisy Avanti Trophy:

AIR production guns with iron/open sights. Your best 5-shot group at 18 Yards. Groups must be fired from an IHMSA legal position. No benchrest or artificial support allowed.

General Rules:

All entries must be shot with IHMSA legal guns. Production, Revolver, and Unlimited guns are allowed in the Burris, Weaver and Merit classes.

Witness:

Winning groups must be witnessed by an IHMSA or NRA member. Eligible winning targets must be signed and dated by the shooter and witness. Also, please include the shooters IHMSA number and the witness's IHMSA or NRA number by their name. A witness is not required to enter but is required to win.

Targets:

Targets submitted must contain no more and no less than 5 shots in each bull zone.

To all State Directors:

If you wish your email address placed into the IHMSA news, please email me the info and I will have it added.

Thanks,

The Editor

**Greater Accuracy, More Value
Lyman Delivers Two Die Sets In One.**

Achieve maximum accuracy from your reloads with Lyman's Deluxe Rifle 3-Die set. This one die set combines a premium Carbide Expander Assembly and a Neck Sizing Die with a Full Length Die Set for maximum versatility. Lyman's Deluxe 3-Die Rifle Sets offer these benefits:

- **Carbide Expander Smooths Neck Expansion & Extends Case Life:** The free-floating carbide button eliminates inside neck lube while reducing case stretching and extending case life. Also, repositioning the carbide button up the decapping rod better utilizes the press' leverage in any sizing die.
- **Neck Sizing Die Enhances Accuracy:** Retaining the precise chamber dimensions of the individual rifle maximizes accuracy potential and can dramatically extend case life.
- **Full Length Sizing Die Restores Brass to Factory Dimensions:** Perfect for hunting or autoloading rounds or for brass fired in other rifles.
- **Bullet Seating Die:** Precisely Seats and Crimps
- **Most Popular Calibers:** .204 Ruger, .22/250, .223, .243, 6.5x55, .270 Win., .30/06, .308, .300 Win., 7mm Rem. Mag., .338 Win., .338 Lapua

RECORDS PROGRAM

.22 Records program

March 2015

By Dan Hagerty

First, Sorry. I do not yet have a 2014 recap to report. Now, even though I have only been doing the program for a month some great scores were set in February!

On Feb 8 2015, at Grants Pass, OR, Joe Cullison set a new 4-gun aggregate of 155x160 and Tied the 3 gun aggregate of 116x120 (P;40,R:40,U:39,S:36)!

A week later at LASC, Steve Hannawacker produces a 3 gun aggregate of 105x120! (P:40,R:39,S:26)

I have included the world records as of Feb 27 2015.

Please send your reports to:

1/2 and 1/5 Scale Report

March 2015

By Jim Harris

We're off and running for 2015, despite some really terrible wintery conditions in much of the USA.

Congratulations to Richard Redd of Oregon (and Texas!), for being the first person of the year to post records in both 1/2 Scale and 1/5 Scale programs.

Special congratulations to Eric King for shooting the first perfect open sight score of the year in 1/2 Scale. This is Eric's 29th perfect open sight score in his long shooting career. In his honor, as the longest-shooting 1/2 Scale participant currently active in the records program, I'd like to dedicate posting the career standings update in this issue.

The career perfect scores is an ongoing records tally of both NRA and IHMSA sanctioned match scores for 1/2 Size (1/2 Scale in IHMSA) and 1/5 Scale.

Send your records notices to me at

**harrisgrp@earthlink.net, or my home address:
1567 Bridget Ave., Simi Valley, CA 93065. Or
give me a call at (805) 581-0009.**

Big Bore Records Program (BBRP)

By
Joe Cullison

Time to start over with a fresh slate. A couple of scores are coming in from the early matches this year. Some ranges have not even begun to shoot yet but since the West coast had spring start in February the left coasters are out and shooting.

Steve Hannawacker (CA) started the year off with a bang. Steve Shot a S-32, P-40, R-40 and a U-39 to make a 3-gun total of 112 and a 4-gun 151.

Joe Cullison (OR) shot several matches to rack up a few scores. Joe shot a S-34, P-40, R-36 and a US-34 for a Standing agg of 68 and a 3-gun agg of 110. Joe also shot a S-29, P-40, R-40 and a US-35 for a 4-gun agg of 144.

State totals for 2015 are: OR-5, CA-3.

Please bring at least one friend or acquaintance to every match. Together, we can keep IHMSA growing.

Please forgive me if I have left anyone out or made any other errors. Send me the information and I will make it right as soon as I can.

Thank you for your support of the BBRP.

Send entries to:

Joe Cullison, 28988 Berlin Road, Sweet Home, OR 97386 or to junclejo@aol.com. 541-317-8801 evenings

Thank you.

2015 WEST COAST CHAMPIONSHIP

GRANTS PASS, OREGON

JUNE 16-20

We offer it all from Big Bore to AIR & Unlimited One-Fifth Scale.

A 60 round match in scenic southwest Oregon.

Ride the Wild & Scenic Rogue River

Tour our wineries.

Enjoy fine dining & visit our new brew pubs.

New restaurants have opened this year!

Watch the Osprey dive for salmon on the Rogue.

Enjoy our museums and public artwork.

Shop in the Historic District.

Crater Lake is a "must see".

This match is open to all IHMSA & NRA pistol silhouette shooters.

GREAT FOOD, COOL MATCH T-SHIRTS WITH A PROFESSIONALLY DONE LOGO, 15th ANNIVERSARY PINS, & HOT COMPETITION!

IT DOESN'T GET ANY BETTER THAN THAT.

**MICHIGAN STATE CHAMPIONSHIP
BARRY COUNTY CONSERVATION CLUB
1180 COOK ROAD, HASTINGS, MI 49058**

JULY 22 – 25, 2015

It was a cold day but Marty and Taylor had the cabin warm as toast from the fire that had been burning all night long. It was good that the sun was out the whole day or it may have been unbearably cold. Despite the cold, we had a good turnout, 7 shooters entered 13 guns. We hope to have a new club and IHMSA member in the near future as a new club member came out to see the match. He is considering a new Ruger Charger. Yes, they are back after being briefly dropped by Ruger. No matter what gun you have to shoot, it is always fun knocking down the steel targets.

Our target setters, Gunner and Andrew (first timer) kept the match moving despite the cold but we were easy on them by not using the Big Bore targets. We hope to see everyone in the upcoming months. If you are reading this but have not been to Black Creek Gun Club, please stop by to shoot with us because . . . Shooting steel is better with friends.

By Steve Powell

We had great weather for our last match of the year with unusually warm temps lots of sun and a strong breeze that gave us fits on the rams at the end of the day.

We had around 35 entries and some new shooters join us this month. IHMSA member Steve Beck-Montgomery and new shooter Marshal Walker were

able to shoot with us and Brian Gildea coached his daughter Olivia thru her first Small Bore match as well. Glad you were all able to join us.

Jim Kesser shot the only Big Bore iron sight 40 x 40 in Unlimited and Bruce Smith almost made it with a 39 x 40 in Revolver letting one ram get away from him.

On the Small Bore line Gordon Lash made a good end of the year effort with a 39 x 40 in Unlimited letting one ram get away from him.

WOWCC

Williamsburg, KS

10/5/2014

By Chris Dunlap

We had perfect weather today, 70-74 with hardly any wind.

Jack Wade is back competing with some new good ammo. He won USA with 40+8 and UASFS with 39+2 out of AA. Kent Lash was second in UAS with 40+7 and his second leg into INT. Melvin Williams had the third 40 with 5 shoot offs.

There is just one more match for the year, November for WOWCC. This will be the chili feed and awarding of the old red chicken. I don't know who will get to feed it this year.

By Jim Fields

We Had a total of 42 entries for our November match, Not a bad turn-out for the last match of 2014 and the weather wasn't bad for this time of year on Oklahoma, A little windy but again not cold.

There were a total of 5 40's shot in this match, Ryan Schuff, 1 in UAS-INT SB, John Blue 2, 1 in UAS-INT SB and 1 in UASFS-INT. Woody Liddell 1 in UHS-INT and Steven Crews 1 in U-AAA-BB. Congratulations Steven, Great shooting as that was an open sight BB gun.

Ryan Schuff and John Blue tied in UAS-INT SB and John won on a coin Toss.

Thanks to our out of staters which included Harry and Sharon Alder from the great state of Missouri, Also Jerry and Judy Stringham all the way from Illinois and that my friends is a Long drive. We appreciate you very much.

Thanks to everyone who helped with our match, you are appreciated and especially our target setters.

May all your feeders need corn and all your trail cameras SD cards be full this coming season.

February 21, 2015

You have heard about the drought in Texas. Well, I think we are in pretty good shape now. The winter has been both cold and wet. Today was wet! It started to rain after the match started, and sort of came and went throughout the day. Years back (younger years), we would shoot a match no matter what the weather. Now that I'm older and smarter, I have realized that it isn't much fun to shoot in the rain. Anyway, we shot in the rain and the mud. When you go home after these matches, you got to clean, dry, and oil everything. Your shooting box has to be dumped-out and dried, and the pages of your sight setting book are all crinkled when they dry. Besides, momma won't let you in the house with all that mud. Oh well... The lever action rifle shooters sort of dominated, and actually shot some good scores. Dennis Proffitt shot a 31 in Big Bore and a 33 in Pistol Cartridge. John Stonecipher shot a 28 in smallbore. They were already wet, so what the heck. Terry Batts tried to work on some new sights and loads, and I tied my best smallbore production score. Go figure.

2/7/2015

By Richard Porter

First Time to start in February in Years and many who wanted the early start had something come up and could not make it. Cold enough in the morning for coats and coveralls and 80 degrees in the afternoon. Strong winds all day. Warren Alkire was first on the line and shot a nice 40. Two new shooters who will probably be back. Thanks to all who helped.

By Ken LaCroix

This was our Last match of the year. Hope everyone that came out through-out the year had fun and shot some good scores.

I think we had a first, We had a shoot-off in Bordello. I would like to thank all that helped tear down the range this year.

Minnesota Winter Air League

Ramsey, MN

11/1/2014

By Dan Harder

November 1st 2014 was our first match held at "Total Defense" in Ramsey, MN. It is a wonderful Facility and Dan Wellman and Kurt Ochs that run "Total Defense" are great to work with.

The first shooter at the new range was Rick Schrader and he started things out right with an Unlimited 40x40! Steve Martens shot a production 40 for the only other perfect score at this match. John Richards shot both a 35 in both standing and USIS.

AIR PISTOL:

WISCONSIN

Cecil Gun Club

Cecil, WI

10/11/2014

By Joe Lipp

This Match report is for October 11th at the Cecil Gun club. A little chilly but the sun came out and it ended up being a beautiful day. We had a total of 15 IHMSA entries. Thanks everyone for showing up. No 40's for the match but a lot of nice scores were turned in. Paul Frank fired a 29 in FP prod and a 34 in FP PAS for a total of 63 to make it into the 60 club! Nice Shooting Paul.

I would say at this point we have our targets performing real good and the people doing the setup are getting more proficient. Lunch was great thanks to my Wife Karri, who also did the registration. BIG HELP! This was the last silhouette match in Wisconsin for 2014, I really do not know where the summer went.

A big thanks to Jack Peterson, Dennis Pyan, Paul Frank Martin Sutliff, the Hagen's, Jon Baker, The Bunges and Greg Janke for help set up/tear down of the range. Your help was Greatly Appreciated!

Holmen Rod and Gun Club

Holmen, WI

1/3/2015

By Glenn Tullius

We got the weather to cooperate, warming up a little and the sun to shine on our first Air Pistol match of the new year. The roads were good for the MN gang to all pile into one car and enjoy the ride down from MPLS/St. Paul, using cheap gas to boot! Thanks to Steve, JR, Son AJ, Rick and Mike for coming down to shoot with Steve Call and I at the club, For Season two of the new "white boxes" AP range. Congrats to AJ Richards, upsetting the "old Man" and perennial standing expert, John Richards. Obviously, the nut did not fall far from the tree! Great Coaching DAD! AJ also made a leg up in USIS. Good shooting AJ! I even threw together a crock pot full of Fresh elk stew for the occasion. Nothing but the best for our shoots!

NEVADA

DSRPC

Las Vegas, NV

10/19/2014

By Paul Habig

It was another first for the Sin City Silhouette shooters! Due to a bunch of Sickies and Gimps (Mainly me) We Had as many 1/2 scale shooters as we did BB shooters. Of Course, That was also helped by the fact that Gary Crews, Fresh off a very successful INTL's dropped by to shoot 2 1/2 scale scores.

Gary discovered that shooting our range in October, with the sun coming in on us can be tough. Still 2 38's in 1/2 scale is some pretty good shooting.

ON the BB side, Debi Wright keeps sneaking up on a perfect UAS score but once again fell just a little short. P.S. The range came up two rocks short on our monthly count. HMMM.. Don't know how... I'll bet someone out there knows.

BIGBORE:

UAS-AAA	Debi Wright	XP7BR	38
US-A	Don Wright	RPM357	1

I don't want to cast aspersions on anyone's sanity (or lack There of) But of the 7 or so Sin City shooters who showed up for this match only one was brave (foolish?) enough to actually shoot! Pete Hofman stepped to the line on a cold (by our standards) and windy (by anyone's standard) day and shot a very nice UAS 38. No one else saw it of course, because they were all huddled in the Stat house trying to keep warm. I don't know what happened in there and I won't ask.... What happens in Vegas, Baby.... You know.

Smallbore:

Modesto Rifle club
Modesto, CA
9/21/2014
By Rick Davis

This is our last outdoor match for this year. The indoor matches will start next month. We will be using mechanical string set targets. Rick Davis is going to add his set of targets to the MRC set which means we will be able to have 8 shooters on the line instead of 4 shooters like last year. John Sears brought a friend and Don Nichols came with his 12 year old grandson. Neither had ever tried air pistol silhouette before and they seemed to enjoy the experience. Hopefully we will see them again.

AIR PISTOL:

S-??? Gene Grant 20
 U-??? Rick Davis 39
 US-??? Gene Grant 19
 UAS-??? Rick Davis 40
 UAS-??? Gene Grant 38

2/15/2015

The match was held in Modesto Rifle club's Heated indoor pistol range next to the main meeting room. The pistol Range is for shooting pistols and the meeting room is for shooting the bull. John Sears brought 2 new automatic carry pistols that he had just bought that everyone got a chance to fondle.

 UAS-??? Rick Davis 40
 UAS-??? Gene Grant 38
 USIS-??? Martin Startman 27

LASC Match Report
February 14 & 15, 2015
By Jim Harris

Wow! A great little-big match in the middle of winter! If this becomes the norm (out-of-towners and locals turning out in force), we'll need a name for the affair. "Feb-Stravaganza"?

Great to have Dave and Patsy Silva, along with Eric King, John and Judy Zumwalt, Dan Hagerty (new IHMSA News Editor!), David and Luba Lehman, and all the way from Susanville – Bill Feiera-bend! joining the festivities. Dave Silva helped orchestrate the Saturday feed as well. Lots of help donated to make this a great little-big match. (Maybe, "The Little February Match That COULD!?"?)

Once again we owe a debt of gratitude to Jerry JR Ray for being match director, along with help from Moose, Mike Dewey, Jerry Napier and Lee Markham (I'm probably missing someone) all contributing to keeping the match running and things moving. And a special shout-out to James Henry for being the reliable behind-the-line glue that keeps the match moving.

And while I'm thanking, how about Ramon, Joe, and all the great Young Marines for their efforts at line safety, line-calling, and target setting? Great, great job folks!

Special congrats to Eric King for his open sight 40 in 1/2 Scale against the scoped guns in Unlimited Any Sight – this is the first IHMSA perfect open sight 40 of the year for 1/2 Scale.

Steve Hannawacker joined both the Big Bore and Smallbore IHMSA Records programs for 2015 with his great aggregates. In Smallbore, he shot a Production 40, Revolver 39, and Standing 26 for a 3-gun record of 105x120. Big Bore saw him shoot Production 40, Revolver 40, Standing 32, and Unlimited 39 for 3-Gun record of 112x120, and 4-gun record of 151x160.

Congratulations to Richard "Bulldog" Mishler for winning the Big Bore match with his 40+9 Unlimited score. Great to see Rick back flexing his shooting skills.

Steve Hannawacker took the high score/match winner in Smallbore with a Production 40+2 in Production.

Boris Sorkin had the high rifle score with his 37. Looking forward to seeing everyone at the March match!

Gordy was our Standing champion & Tom took the USIS title. I decided to take my .22 caliber Crosman and convert it to a UAS pistol with a Leupold scope I had used on another gun which was converted to a Field Target pistol. Thanks to Boomer & the Boomer Technology Laboratory for machining the single shot loading tray for it.

Damian is working with his new Crosman and will be shooting better next time I predict.

Thanks to Gordy, Tom & Ron for helping to set up and tear down the range.

19 Turkeys, Match Director
February 8, 2015

HEADLINE: A new world record was set today. Joe Cullison shot his first Revolver 40. That score combined with his Standing, Production & Unlimited scores put him in the record books. Research indicates that Steve Hannawacker held the Small Bore 3 and 4 gun aggregates of 116 and 153. (Lon Pennington also shot a 4 gun 153.) Joe's scores tied the 3 gun and set a new 4 gun aggregate record. Congratulations Joe!

& the rest of the results are:

Doug Hockinson shot a great FP-P score of 19 with his S&W to take that title. Ron Sprafkin had a super day in FP-PAS & SB-US taking both those titles. The other half of Team Medford, Dave Healy, tied Charlie Dean in SB-UAS but Charlie took the title by reverse animal count. Team Medford certainly took home some bragging rights today.

Dave Whitman took the FP-PAS and UFSAS titles as well as High Senior. Rich Burket joined us with his Remington target rifle.

Both Tamera Lee and Marla Smart had a great day. Tamera more than doubled her last SB-UAS score shooting her first 30. Marla was High Lady.

Thanks to Dave, Paul, Charlie, and Joe for helping to set up and tear down the range!

Big Bore/Half-Scale Match Report
19 Turkeys, Match Director
February 15, 2015

We could not believe all the 40's shot and the duration of the shoot-offs! In fact, I believe that going 5 relays must be some kind of a record!

Joe Cullison had an excellent day shooting 40's in Production & Revolver, winning the Standing and Unlimited Standing disciplines, and shooting into the Big Bore 3 & 4 Gun Aggregate clubs

Rick Redd and Tyler (son) & Mike (father) were all tied in Unlimited with 40's. Son Tyler rose to the top hitting 4x5 of the half scale shoot-off's to Rick & Mike's 1 each. Rick & Mike decided to not shoot off that tie. Rick took the UAS title also.

On the Half-Scale side of things, Charlie Dean, Rick & Mike were all tied with 40's. After the second round of shoot-off's Rick was out with 8 and Mike & Charlie were tied at 9 each. Three relays later, Charlie had a broken extractor and his last 2 rounds were tight fitting. He was concerned with that double trouble issue and pulled out, and Mike went on to with it 23x25 targets. Everyone enjoyed the excellent marksmanship of all involved!

Thanks to Charlie, Dave, Paul, Tyler, and Mike for helping to set up and tear down the range!

WASHINGTON

Paul Bunyan Rifle Club
Puyallup, Washington
Bret Stuntebeck, Match Director
2/7/2015

We had 7 shooters this month put 18 guns across the line. Glad to see a couple of our regulars back. We also had one new shooter this month. Steve Bishop brought his nephew over from Yakima to let him catch the silhouette bug.

Weather was off and on rain but at time it rained so hard visibility on the turkeys and rams was almost non existent. That downpour was short lived and the rain was much lighter for the remainder of the match. On to the results of the match.

No 40's this month. On the Bigbore side I managed a U-Int 39 missing one turkey. In U-AAA, Vince Leete posted top honors with a U-AAA, 37 just edging out Joe Stumpf's 35 and Richard Nicol's 33. In US I managed an US-AAA, 33. In Production, I posted a P-Int, 39, Joe Stumpf shot a respectable P-AA, 27 using cast bullets. He started out like a house on fire hitting 19 of the first 20, then things the turkeys got the best of him only hitting 2. Still nice shooting Joe.

Steve Bishop posted a very nice R-AAA, 34.

On the Smallbore side in Unlimited, Vince Leete posted a U-AAA, 28. Still working the bugs out of his new built Anschutz center grip conversion. Richard Nicol posted a U-AA, 28. In UAS Joe Stumpf posted a UAS-AAA, 37 missing a chicken, two pigs and cleaning the turkeys and rams. Nice shooting Joe, there is a 40 in your future! In S- AA Dave Chalfant ousted Joe Stumpf 14 to 11.

In Field Pistol Dave Chalfant posted a very nice P-AA, 25 giving him a leg into AAA.

Once again our target setters did a fantastic job. Thanks to all who stayed to help pick up targets after the match.

Until next time shoot straight and be safe.

Match Publication Policy

As we continually have new match directors, following is the IHMSA News' policy on publication of state, regional, and "specialty" match notices and match results.

Any IHMSA sanctioned club in good standing may publish a notice of their club's state or regional championship match at no charge for three months. State match notices are limited to 2 1/4 "x5". Regional match notices are limited to 4 3/4"x5". If a club is holding a "specialty" match and that match does not replace one of these championships, the *IHMSA News* will publish a 2 1/4"x5" notice at no charge one time. These notices will run in Section B only. The club may publish additional notices of the same size for \$45 per issue. Ads must be prepaid before printing. All payments are to be sent to IHMSA HQ, P.O. Box 22356, Cheyenne, WY 82003. The club may specify whether the paid notice is published in Section A or B.

State match results can list both first and second place finishes. Regional match results can list first, second, and third place finishes. "Specialty" matches replacing a state championship may publish first and second place finishes. "Specialty" matches replacing a regional championship may publish first, second, and third place finishes. All other match results wherein the total number of handgun silhouette entries exceeds 11 (including all IHMSA, NRA & non-member guests) can list only the first place finish. Matches with less than 11 total handgun entries as defined above can list all IHMSA handgun entrants and their place. Regardless of the above, all 40's, 60's, and 80's (depending on the number of rounds fired at the match) can be published from ANY IHMSA match.

An IHMSA club holding a dual sanctioned (IHMSA/NRA) match may submit a match report for publication in the *IHMSA News* containing both IHMSA and NRA results. The number of published NRA results may not exceed the number of published IHMSA results. **Publication is limited to IHMSA sanctioned handgun disciplines only.**

Please address any questions concerning this policy to your Regional Director.

2015 world championships

Arrangements have been made with Ron Cottrill, President of Angeles Shooting ranges to receive ammo from people flying in to the World Championships. Ammo can be shipped to the following address:

Angeles Shooting Ranges
C/O Ron Cottrill
12651 N. Little Tujunga Canyon Road
Lake View Terrace, CA 91342

Make sure you indicate on the outside of the box that this is for the IHMSA World Championships.

Also, Sales of firearms from Gun shops to Non-Residents are not allowed in the state of California. Private party sales will be discussed later as these laws are changing due to a federal court ruling and I need to do more research.

The 2015 world Championships will be hosted By the Los Angeles Silhouette club in San Fernando, CA. Dates will be July 10-17 2015.

The area has a lot of Family entertainment.

Weather will run from Mild to Hot (Max temps in the 90's) and with low humidity. Range has limited Camping facilities with Hookups for Recreational Vehicles.

More information will be available in later issues of the IHMSA news.

We are also Planning to hold a 500 Meter match at Avenal Gun club which is about 170 miles north of LASC. Dates will most likely be July 7-8 2015. . For more information, you Can Email Eric King at therose7@earthlink.net

We hope you can Make it to the world championships!
